**Enlargement of the European Union** Allan F. Tatham,2009-01-26 The development of EU enlargement has raised many thorny issues unanticipated by the framers of the EC Treaty. A significant upshot of these issues is that the concept of European identity – defined in terms of such factors as culture, history and economics – has supplanted the long-dominant theme of ‘widening and deepening,’ particularly since the Union’s expansion has become primarily eastward. The major contribution of this important book lies in its analysis of the conceptualization and perception of enlargement from various points of view, focusing on the concerns of stakeholders and the ‘identity’ conflicts and uncertainties incurred by enlargement initiatives. In the course of its presentation, it details the actual pre-accession Europeanization process and its complex history. Among the key elements discussed are the following: the conflict between ‘widening’ and ‘deepening’ and the effect on EU institutional reform; institutional requirements on candidate countries; pre-accession criteria and negotiations; administrative capacity, judicial capacity, and legal approximation in accession states; capacity of the EU to absorb new Member States; and EC law as part of European identity. Also covered are specific historical details of particular pre-accession negotiations (e.g., Greece, Spain, Portugal, Malta, and Cyprus), the still inconclusive negotiations with Turkey and the Western Balkan states, and political factors involved in the non-accession of Norway, Iceland and Switzerland. Assembling powerful evidence and applying incisive analysis, the author’s conclusion shows that, absent further (and major) EU institutional reform, it will be difficult for an enlarging Union to continue to ‘deliver the goods.’ A watershed in the continuing great debate on the fulfilment of the EC Treaty’s determination to foster and promote ‘an ever closer union of the peoples of Europe,’ this book will prove invaluable to anybody interested in the European integration project, particularly lawyers, academics, officials and policymakers in the EU Member States.

Carlo Mollino Carlo Mollino,Nairy Baghramian,2011 Maniera Moderna is dedicated to the multi-faceted work of the Italian architect, designer and photographer Carlo Mollino (1905-1973). His surrealist roots are evident in the black and white photography and interiors of the 1930s, right through to his later work in the elegant Teatro Regio and his highly staged erotic Polaroids. However, he was also inspired to create the most individual of designs by the Futurism of Gaudí, Niemeyer and Le Corbusier. His extravagant furniture, which he produced in limited numbers or as unique pieces, is still extremely sought after. It is an expression of the designer's extraordinary flights of fancy: chairs can look like deer, the ribs of a table like the human spinal column, backrests like skis. This monograph is divided into six chapters: choreography, montage, publications, display, appropriations and techniques, which impressively highlight the correspondences within Mollino's wide-ranging and heterogeneous oeuvre.

*Overcoming School Refusal* Joanne Garfi,2018-01-31 School refusal affects up to 5% of children and is a complex and stressful issue for the child, their family and school. Now her experiences and expertise are available in this easy-to-read practical book. Overcoming School Refusal helps readers understand this complex issue by explaining exactly what school refusal is and provides them with a range of strategies they can use to assist children in returning to school. Areas covered include: • types of school refusers • why children refuse to go to school • symptoms • short term and long term consequences • accurate assessment • treatment options • what parents can do • what schools can do • dealing with anxious high achievers • how to help children on the autism spectrum with school refusal

**And Then Life Happens** Auma Obama,2012-04-24 A moving account by Auma Obama about her life in Africa and Europe, and her relationship with her brother, Barack Obama. While her younger brother Barack grew up in the U.S. and Indonesia, Auma Obama's childhood played out at the other end of the world in a remote village in Kenya, the birthplace of the siblings' shared father. Barack and Auma met for the first time in the 1980s, and they built a lasting relationship which lead to travels together in Kenya, research into their family history and finally Auma's support for her brother's political career and eventual bid for the U.S. presidency. Auma spent sixteen years studying and living in Germany, moved to England for love, and gave birth to a daughter there. The tension between her original and chosen worlds and cultures was a constant challenge, and eventually Auma returned to Africa and worked to support young men and women in shaping their futures. In And Then Life Happens, her candid and emotional memoir, Auma shares her own story as well as recollections of and experiences with her famous brother, who says about their first encounter: I hugged her, we looked at each other, and laughed. I knew right then that I loved her.

Stress and Freedom Peter Sloterdijk,2018-03-15 In this short book Peter Sloterdijk offers a genealogy of the concept of freedom from Ancient Greece to the present day. This genealogy is part of a broader theory of the large political body, according to which Sloterdijk argues that political communities arise in response to a form of anxiety or stress. Through a highly original reading of Rousseaus late Reveries of a Solitary Walker, Sloterdijk shows that, for Rousseau, the modern subject emerges as a subject free of all stress, unburdened by the cares of the world. Most of modern philosophy, and above all German Idealism, is an attempt to reign back Rousseaus useless and anarchical subject and anchor it in the cares of the world, in the task of having to produce both the world and itself. In the light of this highly original account, Sloterdijk develops his own distinctive account of freedom, where freedom is conceptualized as the availability for the improbable. This important text, in which Sloterdijk develops his account of freedom and the modern subject, will be of great interest to students and scholars in philosophy and the humanities and to anyone interested in contemporary philosophy and critical theory.

**Mecanoo: People Place Purpose Poetry** Herbert Wright,2024-02-20 Of the world famous Dutch architecture bureau Mecanoo, is has been said that it has the?power to give ordinary things an unusual experience?, and of its projects that they are?pieces of time-bound spatial poems?. Like poetry, Mecanoo?s projects can resonate deep in our mind, generate emotion, conjure up magic, and evoke memory, either personal or collective. Taking this poetic quality as an important focus, this new book offers a completely fresh look at Mecanoo?s work. A surprisingly diverse range of new Mecanoo designs have been completed, ranging from a futuristic arts centre with the biggest roof of any in the world to a pavilion retreat in a historic country estate. With great photography and many illustrations, plans and new stories, this book offers the most up-to-date picture of one of the most exciting architecture practices of the world.

**Santiago Calatrava: Bridges** Santiago Calatrava,2022-12-09 Santiago Calatrava is among the most important and influential architects of our times. His candid architecture is polarizing yet unmistakable. The trademark of the Spanish architect are sculptural bridge designs that gained international acclaim as a symbiosis of elegant shape vocabulary and engineering masterstrokes and that shape the cityscapes in locations such as Jerusalem, Venice, Dallas, and Buenos Aires. The book is a special homage to his work: Santiago Calatrava in person talks about the visions on artistic-architectural philosophies behind his unparalleled bridge designs. He also contributes many descriptions of implemented and unimplemented works, which, together with first drafts, water color paintings, as well as high-quality photographs and renderings document the selected projects.

**Woodstock Vision** Elliott Landy,2009 (Book). Elliott Landy has his finger on the pulse of the Woodstock generation. He was there before the famous festival, hanging out with Dylan and The Band; he was the photographer of record at the festival itself; and he still lives in Woodstock today. Here he captures and preserves the true vision and pure essence of that incredibly influential event what it was like to be part of the '60s, sharing the spirit of unlimited hope, optimism, and the belief that the world can be made better through peace and love.

*Two Cosmograms* Rania Ghosn,El Hadi Jazairy,2016-06-28 How do we make sense of the Earth at a moment in which it is presented in crisis? To live in an epoch that is shaped by extensive environmental transformations is to be confronted with risks and uncertainties at scales larger than that of the planet. Paradoxically, while we worry that the sky may be falling on our heads, we remain so immobilized in part maybe because of our failures to comprehend the scales of a story that is difficult both to tell and to hear. Two Cosmograms mediates the dissonance between the environmental question at stake and the narrow repertoire of emotions and imaginations with which we try to understand these issues by exploring speculative fiction as the political art that integrates the story of the cosmos into our own life stories. In response to the expansion of infrastructural systems and resource exploitation beyond the Earth, the two projects -Neck of the Moon and Love your Monsters- engage the architectural imaginations of the Cosmos. The speculative fictions probe the politics and aesthetics of technological systems, both in the extra-planetary environment as well as here on Earth.
