**The Fallen Elves** Christopher Farmer,2004-02 In The Fallen Elves, book three of The Second Neoluzian War epic fantasy series, the wicked Orc dictator Arkan Spiritstrike, his wizards and military generals are on the verge of laying waste to the elven cities of Balenwood and Oakmantle after destroying the human settlements in the northern lands. This is a time of desperation for the good races because Darius has been lost to lower Neoluzia due to the Gathering of Replenishment spell cast upon him by members of the secretive wizard guild, the Veiled Institution. David Parr, a human from Earth summoned by Darius that reluctantly remains in Neoluzia to assist the Salon of Enlightenment against their Orc enemies, must find the great necromancer Termaplix if the land is to be saved. Finding Termaplix may be impossible however, for the hero from the War of Cleansing has been hidden in a secret place due to unknown circumstances one thousand years ago--a tomb long since forgotten to the current generations

in the land. Perilously stifled in their shift away from the old magic and the forced elimination of history, those that Parr seeks to help against the enemy from the north must first learn to embrace the gift of magic again, an art banished in antiquity by the deception of peace and the deep wounds of the surviving populations in the first war.
