**Stephen King in the New Millennium** Despoina N. Feleki,2018-06-11 This exciting exploration of Stephen King’s digital writing maneuvers and electronic ventures on online platforms and e-readers unravels the author’s latest writing techniques and justifies his unprecedented success in the new millennium. It investigates the latest additions to the Master of Horror’s “toolbox” by studying King’s media presence and writing oeuvre in the twenty-first century through online projects, such as his videogame Discordia. The book closely traces King’s shifts from print to the digital as he crafts his stories to share with his constant readers. Its examination of King’s re-vitalized Gothic sheds light on his shift towards new realizations that take into consideration the needs and tastes of the contemporary consuming public in a constant dialogue with their contemporary fears and anxieties. While exploring King’s literary generic and technological crossovers, the book stresses the need for an encompassing theory that takes into account literary tradition, norms, and motifs adjusted according to the materialities and technological specificities of each medium in specific socio-cultural and economic contexts.

Armed with the puzzles, he and Alejandra strike back at the cartels in an attempt to save their own lives.

**Invented Religions** Professor Carole M Cusack,2013-06-28 Utilizing contemporary scholarship on secularization, individualism, and consumer capitalism, this book explores religious movements founded in the West which are intentionally fictional: Discordianism, the Church of All Worlds, the Church of the SubGenius, and Jediism. Their continued appeal and success, principally in America but gaining wider audience through the 1980s and 1990s, is chiefly as a result of underground publishing and the internet. This book deals with immensely popular subject matter: Jediism developed from George Lucas' Star Wars films; the Church of the Flying Spaghetti Monster, founded by 26-year-old student Bobby Henderson in 2005 as a protest against the teaching of Intelligent Design in schools; Discordianism and the Church of the SubGenius which retain strong followings and participation rates among college students. The Church of All Worlds' focus on Gaia theology and environmental issues makes it a popular focus of attention. The continued success of these groups of Invented Religions provide a unique opportunity to explore the nature of late/post-modern religious forms, including the use of fiction as part of a bricolage for spirituality, identity-formation, and personal orientation.
