Russian Salad and Other Stories Vinogradov Dmitriy, 2020-06-26 The Soviet Union is collapsing. Secret archives open. A young American historian flies to Moscow. Here he meets a girl. They find unknown documents about the writing of the Gospel. She flies to America to see him. In Las Vegas, a murder happens and everything collapses. Will they ever meet again? Their meeting takes place in the Crimea. He is struck by the little-known ancient history of this region. Who are Krymchaks, Karaites and Khazars, who accepted Judaism? A KGB officer intervenes in their romance. All this are in the story History and love. The story Russian

Salad tell us about the creation of the famous salad Olivier. The sketch Sonya Fish is a small piece of emigrant life. Victim is a first-person storytelling of a Chechen who committed a terrorist act at the Boston marathon. One of the most important mysteries of history for the modern world in the version of the Sephardic Jew is presented in the story He was in Jerusalem. The autobiographical story I was born in dancing is a projection of the aroma of an era on a kaleidoscope of human life.

Antarctic Peninsula Region of the Southern Ocean
Eugene G. Morozov, Mikhail V. Flint, Vassily A. Spiridonov, 2022-01-01 The book is based on results from the Russian expedition in the region of the Antarctic Peninsula and Powell Basin in the northern part of the Weddell Sea, as well as on the review of earlier research in the region. The main goal of the research was to collect the newest data and study the physical properties and ecology of this key region of the Southern Ocean. Data analysis is supplemented with numerical modeling of the atmosphere-ocean interaction and circulation in the adjacent region, including research on rogue waves. The focus of the study was the Antarctic Circumpolar Current, currents and water properties in the Bransfield Strait and Antarctic Sound, properties of seawater, currents, ecosystem and biological communities in the Powell Basin of the northwestern Weddell Sea, and their variations. An attempt is made to reveal the role of various components of the Antarctic environment in the formation of biological productivity and maintenance of the Antarctic krill population.

This is especially important as in the last decades the Antarctic environment has experienced significant changes related to the global climatic trends.
