offers parents a roadmap through this difficult and sometimes frightening terrain. Dr. Ray brings to bear his decades of clinical experience—and his experience as a father of ten—with some of the hardest questions of modern parenting: How do you manage kids' access to pop culture—and to the corporations who all want a piece of their allowance? Driver's License Meredith Castile, 2015-01-29 *Object Lessons* is a series of short, beautifully designed books about the hidden lives of ordinary things. A classic teenage fetish object, the American driver's license has long symbolized freedom and mobility in a nation whose design assumes car travel and whose vastness rivals continents. It is youth's pass to regulated vice--cigarettes, bars, tattoo parlors, casinos, strip joints, music venues, guns. In its more recent history, the license has become increasingly associated with freedom's flipside: screening. The airport's heightened security checkpoint. Controversial ID voting laws. Federally mandated, anti-terrorist driver's license re-designs. The driver's license encapsulates the contradictory values and practices of contemporary American culture--freedom and security, mobility and checkpoints, self-definition and standardization, democracy and exclusion, superficiality and intimacy, the stable self and the self in flux. *Object Lessons* is published in partnership with an essay series in *The Atlantic*.

Serving Homeschooled Teens and Their Parents Maureen T. Lerch,Janet Welch,2004-05-30

Today more than a million students are being educated at home; and that figure increases at a rate of 7-14% annually. Homeschooling is a growing trend in our society, and public librarians are being called upon with increasing frequency to serve the needs of homeschooled students. So, just what are the needs of the homeschooled teen, and how can you and your library meet those needs? A former young adult librarian and a homeschool parent have joined forces to create this insightful guide and answer that question. After reviewing the developmental and social needs of teens, the authors demonstrate how those needs may be met in the public library setting. You'll find a wealth of ideas for adapting every facet of your library service for this growing population—from developing a homeschool collection to expanding services and creating special programs. You'll also find suggestions on how to market what your library has to offer to homeschoolers. You may even discover some new ways to employ the talents and time of these students and their families. Extensive resource lists conclude the volume, they will help you better serve home-educated teens and their parents.
