German Colour Terms William Jervis Jones,2013-06-15 This monograph provides, for the first time, a comprehensive historical analysis of German colour words from early beginnings to the present, based on data obtained from over one thousand texts. Part 1 reviews previous work in colour linguistics. Part 2 describes and documents the formation of popular colour taxonomies and specialised nomenclatures in German across many periods and fields. The textual data examined will be of relevance to cultural historians in fields as far apart as philosophy, religious symbolism, medicine, mineralogy, optics, fine art, fashion, and dyeing technology. Part 3 – the core of the work – traces linguistic developments in systematic detail across more than twelve centuries. Special attention is given to the evolving meanings of colour terms, their connotative values, figurative extensions, morphological productivity, and lexicographical registration. New light is shed on a range of scholarly issues and controversies, in ways relevant to German lexicologists and to specialists in other languages, notably French and English.

Die Interpunktion des Deutschen Ursula Bredel,2008-12-10 Punctuation is normally perceived as a system of handed-down norms that is complicated and difficult to manage. This study shows that it is actually a simple, transparent system that serves the reader more than the writer. This study orients itself on formal features of individual characters and the situations in which they appear. Through doing so, it provides a new and manageable classification of the entire system and its functions as well as offers a number of applications for punctuation instruction.

Anglicisms in Europe Roswitha Fischer, Hanna Pulaczewska, 2010-09-13 The present volume deals with the influence of the English lexis on other European languages in various fields of discourse, social attitudes towards this phenomenon and its reflections in recent lexicographical work. It contains some of the papers read at the conference Anglicisms in Europe 2006, which took place at the University of Regensburg, Germany. It links linguistic aspects with psychological, social, political and cultural issues, tracing relationships and differences between the respective research interests and findings. Its aim is to put the influx of anglicisms into languages other than English into a wide perspective encompassing the European heterogeneity of cultures, traditions and developments. The volume is divided into four parts, which reflect the particular foci of interest in the recent research on anglicisms in the languages of Europe: I. 'Cognitive and Semantic Approaches to Anglicisms', comprising articles that deal with the cognitive, communicative and semantic motivation for contact-induced innovation; II. 'Attitudes Towards the Influx of Anglicisms', with contributions about various national attitudes towards anglicisms and their reflection in the respective languages; III. 'The Use of Anglicisms in Specialized Discourse', with articles focussing on particular practices and domains such as business, sports, the sciences, and on language varieties used in communication within particular subcultures; and IV. 'Anglicisms in Dictionaries', comprising articles that deal with the existing dictionaries of anglicisms in European languages and provide a future-oriented perspective by making suggestions and recommendations regarding future lexicographic works.

Franz Kafkas Literatursprache Boris Blahak, 2015-11-25 Gegenstand der Monographie ist das von Franz Kafka mündlich und schriftlich verwendete Deutsch vor dem Hintergrund der sprachtopographischen und -soziologischen Besonderheiten des Prags seiner Zeit. Auf textkritischer Basis trifft die Untersuchung empirisch gesicherte Aussagen über die formale Gestalt des von Kafka im Alltag verwendeten Deutsch. Welches Deutsch sprach und schrieb Kafka tatsächlich? Finden sich in seiner Prosa Reflexe eines regionalen Dialekts, Spuren der Mehrheitssprache Tschechisch oder des Jiddischen? Wo manifestiert sich ein österreichischer Standard? Und schließlich: In welchem Umfang ist Kafkas Sprache repräsentativ für das in Prag um 1910 gesprochene Deutsch?
