Regional Growth and Sustainable Development in Asia Amitrajeet A. Batabyal, Peter Nijkamp, 2016-12-20 This book addresses two general questions that have arisen as a result of the uneven rise of the various Asian economies in contemporary times. First, to lift people out of poverty and to improve the quality of their lives, how do we institute policies that will ensure economic growth in the different regions of Asia? Second, what can we do to ensure that the economic growth we seek is sustainable so that the regional economic development that emerges is broad-based, inclusive, and environmentally conscious? Specifically, this edited book will provide a unified perspective on regional growth and sustainable development in Asia by focusing on the above two broad questions. The book will emphasize dynamic modeling and it will illustrate the role that sound theoretical and empirical modeling of an intertemporal nature can play in shedding light on salient public policy questions concerning regional growth and sustainable development. The specific topics to be addressed in this book include growth accounting, natural resource use and management, the regulation of environmental externalities, geographic information systems, and regional climate change. The individual chapters in this book will be written by international experts who are also active researchers in their respective fields. Therefore, this book is highly recommended to all readers who seek an in-depth and up-to-date perspective on some of the most salient issues at

the interface of regional growth and sustainable development in Asia.

*Huang Di Nei Jing Ling Shu* Paul U. Unschuld,2016-07-19 The Ling Shu, also known as the Ling Shu Jing, is part of a unique and seminal trilogy of ancient Chinese medicine, together with the Su Wen and Nan Jing. It constitutes the foundation of a two-thousand-year healing tradition that remains active to this day. Its therapeutic approach is based on a purely secular science of nature, with natural laws serving as guidelines for human behavior and medical treatment. No other text offers such broad insights into the thinking and manifest action of the authors of the time. Following an introduction, this volume contains the full original Chinese text of the Ling Shu, an English translation of all eighty-one chapters, and notes on difficult-to-grasp passages and possible changes in the text over time on the basis of Chinese primary and secondary literature of the past two thousand years and translator Paul Unschuld's own work. The Ling Shu reveals itself as a completely rational work, and, in many of its statements, a surprisingly modern one. It will provide the foundation for comparisons with the nearly contemporaneous Corpus Hippocraticum of ancient Europe and today's iterations of traditional Chinese Medicine as well.

The Letters of Chan Master Dahui Pujue ,2017-07-03 The Letters of Chan Master Dahui Pujue offers a complete annotated translation, the first into English, of a Chan Buddhist classic, the collected letters of the Southern Song Linji Chan teacher Dahui Zonggao (1089-1163). Addressed to forty scholar-officials, members of the elite class in Chinese society, and to two Chan masters, these letters are dharma talks on how to engage in Buddhist cultivation. Each of the letters to laymen is fascinating as a document directed to a specific scholar-official with his distinctive niche, high or low, in the Song-dynasty social-political landscape, and his idiosyncratic stage of development on the Buddhist path. Dahui is engaging, incisive, and often quite humorous in presenting his teaching of constantly lifting to awareness the phrase (huatou), his favored phrases being No (wu) and dried turd. Throughout one's busy twenty-four hours, the practitioner is not to perform any mental operation whatsoever on this phrase, and to take awakening as the standard. This epistolary compilation has long constituted a self-contained course of study for Chan practitioners. For centuries, Letters of Dahui has been revered throughout East Asia. It has exerted a formative influence on Linji Chan practice in China, molded S

**The Campfire Cookbook** Don Philpott,Pam Philpott,2005-02-18 Whether you are a weekend camper or a long distance hiker, The Campfire Cookbook is the ultimate practical guide to taking off, packing light and eating well. Chock full of practical and culinary tips, this facinating book will show you just why fresh lemon juice, ginger and garlic are worth many times their weight, why dried fruits and nuts make the most potent nutritious meal to keep you going, and teach you how to plan meals for large or small gatherings, long or short trips. You'll learn how to create a functioning outdoor 'kitchen', even in a downpour, and find indispensable information on when and what to enjoy from the wild, from gathering fresh water or wild mushrooms, to lighting a safe and welcoming campfire with minimum impact to the environment, to how best to pack up and clean up when you leave. This book won't recommend a

Spartan diet, or reliance on packaged freeze-dried meals every day of your trip; there is practical detail on cooking stoves and utensils, lightweight equipment and over 70 interesting and varied recipes, including those you can pre-prepare at home, for robust meals that you will truly want to cook in the great outdoors. This colourfully illustrated guide is an evocative yet essential book for any adventurer – pack lightly, tread carefully and eat heartily.

**Long-Range Dependence and Self-Similarity** Vladas Pipiras,Murad S. Taqqu,2017-04-18 This modern and comprehensive guide to long-range dependence and self-similarity starts with rigorous coverage of the basics, then moves on to cover more specialized, up-to-date topics central to current research. These topics concern, but are not limited to, physical models that give rise to long-range dependence and self-similarity; central and non-central limit theorems for long-range dependent series, and the limiting Hermite processes; fractional Brownian motion and its stochastic calculus; several celebrated decompositions of fractional Brownian motion; multidimensional models for long-range dependence and self-similarity; and maximum likelihood estimation methods for long-range dependent time series. Designed for graduate students and researchers, each chapter of the book is supplemented by numerous exercises, some designed to test the reader's understanding, while others invite the reader to consider some of the open research problems in the field today.

*Computer Aided and Integrated Manufacturing Systems* Cornelius T. Leondes,2003 This is the first part of a five-volume reference on the very broad and highly significant subject of computer-aided and integrated manufacturing systems. The techniques and technologies used in computer-aided and integrated manufacturing systems have produced, and will no doubt continue to produce, major annual improvements in productivity, which is defined as the goods and services produced from each hour of work. This publication deals particularly with more effective utilization of labour and capital, especially information technology systems. Together the five volumes treat comprehensively the major techniques and technologies that are involved. This volume focuses on computer techniques.

User Science and Engineering Natrah Abdullah,Wan Adilah Wan Adnan,Marcus Foth,2018-08-21 This book constitutes the refereed proceedings of the 5th International Conference on User Science and Engineering, i-USer 2018, held in Puchong, Malaysia, in August 2018. The 32 papers accepted for i-USer 2018 were selected from 72 submissions with a thorough double-blind review process. The selected papers illustrate how HCI is inclusive and omnipresent within the domains of informatics, Internet of Things, Quality of Life, and others. They are organized in the following topical sections: design, UX and usability; HCI and underserved; technology and adoption; human centered computing; HCI and IT infrastructure; and HCI and analytics.

**Agricultural Development in Qing China** Zhihong Shi,2017-10-02 In Agricultural Development in Qing China: A Quantitative Study, 16661-1911 SHI Zhihong offers for the first time an overview of agricultural development in Qing China in the English language.

**Managing Monks** Jonathan A. Silk,2008-10-15 The paradigmatic Buddhist is the monk. It is well known that ideally Buddhist monks are expected to meditate and study -- to engage in religious practice. The institutional structure which makes this concentration on spiritual cultivation possible is the monastery. But as a bureaucratic institution, the monastery requires administrators to organize and manage its functions, to prepare quiet spots for meditation, to arrange audiences for sermons, or simply to make sure food, rooms, and bedding are provided. The valuations placed on such organizational roles were, however, a subject of considerable controversy among Indian Buddhist writers, with some considering them significantly less praiseworthy than meditative concentration or teaching and study, while others more highly appreciated their importance. Managing Monks, as the first major study of the administrative offices of Indian Buddhist monasticism and of those who hold them, explores literary sources, inscriptions and other materials in Sanskrit, Pali, Tibetan, and Chinese in order to explore this tension and paint a picture of the internal workings of the Buddhist monastic institution in India, highlighting the ambivalent and sometimes contradictory attitudes toward administrators revealed in various sources.

Catching the Wind Francis E. Hutchinson,Johan Saravanamuttu,2013 However impressive the economic success of Penang has been over the past four decades, structural conditions in the region call for a fundamental reconfiguration of this Malaysian state's competitive advantage. In the 1970s, the ageing entrepot transformed itself into a manufacturing hub for the electronics industry and a well-known tourist site. This outward-looking model of economic growth has underpinned Penang's economic development up until the present. The question that now arises is whether Penang's present mode of development will continue to be effective, or whether it will have to transform itself.
