The 2 Meal Day Max Lowery,2019-03-11 'I love the 2 Meal Day! I feel healthy, happy and full of energy' Suki Waterhouse Welcome to intermittent fasting - eat just two meals a day, either breakfast and lunch or lunch and dinner, to burn fat and get fit fast. Rather than grazing on food all day or having to do complicated calorie calculations for the 5:2 diet, simply eat two meals to lose weight, reduce hunger and feel more energised. Choose your two meals from Max's delicious, nutritious and easy-to-prepare recipes; start the day with Salmon Mini Frittatas or a Breakfast Burrito; Lunch on Thai Green Chicken Curry or Tuna Casserole or enjoy Creamy Mushroom and Parmesan Risotto or Sea Bass Sauce Vierge for Dinner. There are even healthier desserts to satisfy your sweet tooth without over-indulging - choose from Two-Ingredient Chocolate Mousse or Banana Pancakes. Max shows how to combine your 2-meal day with High-Intensity Interval Training (HIIT) - short duration and maximum effort exercises - and resistance workouts to help you drop fat and get fit quickly. So ditch the calorie-counting and the sugar highs and lows and enjoy two meals a day alongside Max's workouts for a leaner, fitter, healthier body.

A Dictionary of Moroccan Arabic Richard Slade Harrell, Harvey Sobelman, Thomas Fox, 2004
This classic volume presents the core vocabulary of everyday life in Morocco--from the kitchen to the mosque, from the hardware store to the natural world of plants and animals. It contains myriad examples of usage, including formulaic phrases and idiomatic expressions. Understandable throughout the nation, it is based primarily on the standard dialect of Moroccans from the cities of Fez, Rabat, and Casablanca. All Arabic citations are in an English transcription, making it invaluable to English-speaking non-Arabists, travelers, and tourists--as well as being an important resource tool for students and scholars in the Arabic language-learning field.

Augmented Brett King, Andy Lark, Alex Lightman, JP Rangaswami, 2016-05-15
The Internet and smartphone are just the latest in a 250-year- long cycle of disruption that has continuously changed the way we live, the way we work and the way we interact. The coming Augmented Age, however, promises a level of disruption, behavioural shifts and changes that are unparalleled. While consumers today are camping outside of an Apple store waiting to be one of the first to score a new Apple Watch or iPhone, the next generation of wearables will be able to predict if we're likely to have a heart attack and recommend a course of action. We watch news of Google's self-driving cars, but don't likely realise this means progressive cities will have to ban human drivers in the next decade because us humans are too risky. Following on from the Industrial or machine age, the space age and the digital age, the Augmented Age will be based on four key disruptive themes—Artificial Intelligence, Experience Design, Smart Infrastructure, and HealthTech. Historically the previous 'ages' brought significant disruption and changes, but on a net basis jobs were created, wealth was enhanced, and the health and security of society improved. What will the Augmented Age bring? Will robots take our jobs, and AI's subsume us as inferior intelligences, or will this usher in a new age of

abundance? *Augmented* is a book on future history, but more than that, it is a story about how you will live your life in a world that will change more in the next 20 years than it has in the last 250 years. Are you ready to adapt? Because if history proves anything, you don't have much of a choice.
