Anyone can enhance their musical knowledge, skills, and creativity with the multitude of music apps available. However, sifting through thousands of music apps in the Apple App Store and Google Play can be a daunting task for any musician or music instructor. But not anymore! Having spent countless hours researching the most interesting useful, educational, fun, and easy-to-use music apps, Elizabeth C. Axford in Music Apps for Musicians and Music Teachers surveys the landscape of music-related apps for both iOS and Android mobile devices, including tablets and smartphones. Music Apps for Musicians and Music Teachers lists hundreds of music-related apps organized by category, including singing, musical instruments, music theory and composition, songwriting, improvisation, recording, evaluating music performances, listening to music, music history and literature, music appreciation, and more. The Foundation of the Catholic Mission in Hong Kong, 1841-1894 Ha Keloon Louis,2018-06-02 The Catholic Church is one of the few institutions that have survived since the inception of the British colony. She has contributed much during its development. As early as 1841, she set up a mission in Hong Kong. She and her various religious orders and congregations engaged in charitable works for the poor and the elderly in the early days of Hong Kong, greatly relieving the burden on the newly established colonial government. Today, apart from religious services, the Catholic Church still plays an important role in providing Hong Kong with diversified and professional services in medical care, education and social welfare. Historical studies on the Catholic Church in Hong Kong of a comprehensive nature are rare in comparison with other religions. The reasons of this may include the complicated organizational structure of the Catholic Church and the multiple languages used in the archival documents, such as Latin, French, Italian and Portuguese. As a Catholic clergy, the author of this book, Fr Louis Ha, is knowledgeable about the internal operation of the Church. He is also familiar with many European languages which help him master the original records and guarantee the credible result of his research. The contents of this book are based on the large number of documents provided by the Hong Kong Diocesan Archives Office, by archives in the Vatican and in various religious orders in Europe. As an objective and impartial historian, Fr. Louis Ha honestly pointed out the power struggle in the Church, the confrontation with the government, the competition between Chinese and foreign clerics. In fact, a candid description of the Catholic Church in Hong Kong is shown in front of the readers. Definitely, it is a precious reference book for the study of the local society, religion, education, and charitable work in early Hong Kong.

Dealing with the Dragon Jonathan Fenby,2000 Dealing with the Dragon presents a fact-filled but always entertaining account - week-by-week, often day-by-day - of Hong Kong in the last year of the millenium, focusing on the crucial political, legal, and human battles that followed Britain's departure. Predictions by some that this Far Eastern center of commerce and finance would be radically changed by its new rulers have proved largely unfounded; forecasts of tanks in the streets, violent clashes, and the disappearance of democracy were unrealistically dire. Fenby, a journalist with an eyewitness's knowledge of the teeming metropolis and the mainland, shows what actually occurred following the Chinese takeover, detailing

major developments - such as Beijing's harsh policies over Taiwan and the outlawed spiritual group Falun Gong - to which foreign governments, including Washington, have preferred to shut their eyes.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

Trade and Investment Law in Hong Kong Philip St. J. Smart,Andrew J. Halkyard,1993 This text provides a practical approach to the legal and commercial infrastructure which serves trade and investment in Hong Kong. It provides a panoptic view of what the laws of Hong Kong and its legal practitioners have to offer those who are there to do business. It gives special emphasis to problems and pitfalls which clients may encounter when trading with or investing in Hong Kong. It also specifically addresses practical problem areas relating to inbound investment, and how such investment can be most suitably structured. Hong Kong's potential as a centre for regional trade, not least with mainland China, is also considered.

Tsuen Wan James Hayes,1993 Perhaps no other part of post-war Hong Kong experienced the trauma of rapid urbanization and industrialization as intensely as did Tsuen Wan. The district (including Kwai Chung, Tsing Yi, Ma Wan, and north-east Lantau) was once known for its sweet pineapples and fiercely independent villagers. The arrival of floods of refugees from China converted it into a loose hotchpotch of people and a polluted and overcrowded centre for Hong Kong's burgeoning textile industry and expanding port. Tsuen Wan: Growth of a 'New Town' and Its People is the story of this metamorphosis. Formerly Tsuen Wan's Town Manager and District Officer, James Hayes offers a first-hand glimpse inside government and its relations with local residents at a time when Tsuen Wan was a guinea-pig for some of the administration's first efforts at relocating masses of people and implementing large-scale urban development, town planning, and more representative district-level government. He writes with wit and insight of the local people whose traditional ways of life have been irrevocably altered by post-war growth.

Tourism, Creativity and Development Greg Richards,Julie Wilson,2007-11-07 Destinations across the world are beginning to replace or supplement culture-led development strategies with creative development. This book critically analyzes the impact and effectiveness of creative strategies in tourism development and charts the emergence of 'creative tourism'. Why has 'creativity' become such an important aspect of development strategies and of tourism development in particular? Why is this happening now, apparently simultaneously, in so many destinations across the globe? What is the difference between cultural tourism and creative tourism? These are among the important questions this book answers. It critically examines the developing relationship between tourism and creativity, the articulation of the 'creative turn' in tourism, and the impact this

has on theoretical perspectives and practical approaches to tourism development. A wide range of examples from Europe, North America, Asia, Australia and Africa explore the interface between tourism and creativity including: creative spaces and places such as cultural and creative clusters and ethnic precincts; the role of the creative industries and entrepreneurs in the creation of experiences; creativity and rural areas; the 'creative class' and tourism; lifestyle, creativity and tourism and marketing creative tourism destinations. The relationship between individual and collective forms of creativity and the widely differing forms of modern tourism are also discussed. In the concluding section of the book the contribution of creativity to tourism and to development strategies in general is assessed, and areas for future research are outlined. The diverse multidisciplinary contributions link theory and practice, and demonstrate the strengths and weaknesses of creativity as a tourism development strategy and marketing tool. It is the first exploration of the relationship between tourism and creativity and its consequences for tourism development in different parts of the world.
