Fairy Godmothers, Inc. Saranna DeWylde, 2020-12-29 A PopSugar Best Romance of December A Bustle Most Anticipated Read for December An Amazon Best of the Month Selection The best of the fairy tale world. Readers will fall head over heels for both the quirky town and the achingly sweet second-chance romance. --Publishers Weekly STARRED REVIEW First in a magical new series full of edgy and hilarious antics, this is the read you need to finally give your year the fairy-tale ending it deserves! An enchanting story of love, dreams, and second chances--a delightful read for cold winter nights that fans of Christina Lauren, Tessa Bailey, and Kerry Winfrey can't miss... If love is the source of all the magic in the universe, and the town of Ever After, Missouri, is the epicenter of enchantment, then the locals are in dire need of a reboot. At least according to resident fairy godmothers Petunia, Jonquil, and Bluebonnet. Their solution? Blow a bit of fairy dust in the direction of those in need of romance...What could possibly go wrong? SOME KIND OF AWFUL... Lucky Fujiki's first name is a cosmic joke. Her luck is so bad, even the number seven steers clear of her. But when her adorable godmothers ask for a favor, Lucky can't say no. After all, it's just a little one--to save the world's magic. Lucky can already feel the bad juju waiting to strike. And her mission is even worse than she imagined: to promote Ever After as a wedding destination by faking a marriage to her first love and long-time ex, Ransom Payne--he of the Embarrassing Incident that neither of them will ever live down... OR ALL KINDS OF WONDERFUL? Ransom Payne has spent years building an impressive new reputation for himself, and now his godmothers want him to pretend to wed the one girl he'd like most to forget? Sure, weddings in Ever After could be a huge boon for his chocolate business, but risking more up-close-and-personal time with Lucky? Considering the stakes, it's a curse he'll have to bear, at the risk of being humiliated--or perhaps, bewitched...

By a Charm and a Curse Jaime Questell, 2018-02-06 A Kirkus Reviews Best Indie Book of 2018 A kiss is never just a kiss. Le Grand's Carnival Fantastic isn't like other traveling circuses. It's bound by a charm, held together by a centuries-old curse, that protects its members from ever growing older or getting hurt. Emmaline King is drawn to the circus like a moth to a flame...and unwittingly recruited into its folds by a mysterious teen boy whose kiss is as cold as ice. Forced to travel through Texas as the new Girl in the Box, Emmaline is completely trapped. Breaking the curse seems like her only chance at freedom, but with no curse, there's no charm, either—dooming everyone who calls the Carnival Fantastic home. Including the boy she's afraid she's falling for. Everything—including his life—could end with just one kiss.

Pure Julianna Baggott, 2012-02-08 We know you are here, our brothers and sisters . . . Pressia barely remembers the Detonations or much about life during the Before. In her sleeping cabinet behind the rubble of an old barbershop where she lives with her grandfather, she thinks about what is lost—how the world went from amusement parks, movie theaters, birthday parties, fathers and mothers . . . to ash and dust, scars, permanent burns, and fused, damaged bodies. And now, at an age when everyone is required to turn themselves over to the militia to either be trained as a soldier or, if they

are too damaged and weak, to be used as live targets, Pressia can no longer pretend to be small. Pressia is on the run. Burn a Pure and Breathe the Ash . . . There are those who escaped the apocalypse unmarked. Pures. They are tucked safely inside the Dome that protects their healthy, superior bodies. Yet Partridge, whose father is one of the most influential men in the Dome, feels isolated and lonely. Different. He thinks about loss-maybe just because his family is broken; his father is emotionally distant; his brother killed himself; and his mother never made it inside their shelter. Or maybe it's his claustrophobia: his feeling that this Dome has become a swaddling of intensely rigid order. So when a slipped phrase suggests his mother might still be alive, Partridge risks his life to leave the Dome to find her. When Pressia meets Partridge, their worlds shatter all over again.

Cultural Factors in Systems Design Robert W. Proctor, Shimon Y. Nof, Yuehwern Yih, 2011-10-25 Cultural factors, in both the narrow sense of different national, racial, and ethnic groups, and in the broader sense of different groups of any type, play major roles in individual and group decisions. Written by an international, interdisciplinary group of experts, *Cultural Factors in Systems Design: Decision Making and Action* explores innovations in the understanding of how cultural differences influence decision making and action. Reflecting the diverse interests and viewpoints that characterize the current state of decision making and cultural research, the chapter authors represent a variety of disciplines and specialize in areas ranging from basic decision processes of individuals, to decisions made in teams and large organizations, to cultural influences on behavior. Balancing theoretical and practical perspectives, the book explores why the best laid plans go awry, examining conditions that can yield unanticipated behaviors from complex, adaptive sociotechnical systems. It highlights the different ways in which East Asians and Westerners make decisions and explores how to model and investigate cultural influences in interpersonal interactions, social judgment, and decision making. The book also reviews decision field theory and examines its implications for cross cultural decision making. With increasing globalization of organizations and interactions among people from various cultures, a better understanding of how cultural factors influence decision making and action is a necessity. Much is known about decision processes, culture and cognition, design of products and interfaces for human interaction with machines and organizational processes, however this knowledge is dispersed across several disciplines and research areas. Presenting a range of current research and new ideas, this volume brings together previously scattered research and explores how to apply it when designing systems that will be used by individuals of varied backgrounds.

Deadly Consequences and Convenient Heroes K. Patrick Bonovich,2011-09 A novel about extraordinary dedication. In life, the same circumstances that produce deadly consequences also engender convenient heroes. This is the fictional account of life in a large municipal fire department, based on observations of the people who are often called to lay it all on the line. The heroic measures used to protect life and property often end with tragic results. The day-to-day life and actions in the fire house are captured and reflected to the reader, including the political deportment of many of the fire company's members. The scope and magnitude of the equipment and its utilization are made vivid. The behavior and actions depicted within the fire house provide a look at the assorted personalities that make up the competent assemblage whose goal it is to preserve life and property.

China Lake Barret Baumgart,2017-05 Barret Baumgart's literary debut presents a haunting and deeply personal portrait of civilization poised at the precipice, a picture of humanity caught between its deepest past and darkest future. In the fall of 2013, during the height of California's historic drought, Baumgart toured the remote military base, NAWS China Lake, near Death Valley, California. His mother, the survivor of a recent stroke, decided to

come along for the ride. She hoped the alleged healing power of the base’s ancient Native American hot springs might cure her crippling headaches. Baumgart sought to debunk claims that the military was spraying the atmosphere with toxic chemicals to control the weather. What follows is a discovery that threatens to sever not only the bonds between mother and son but between planet Earth and life itself. Stalking the fringes of Internet conspiracy, speculative science, and contemporary archaeology, Baumgart weaves memoir, military history, and investigative journalism in a dizzying journey that carries him from the cornfields of Iowa to drought-riddled California, from the Vietnam jungle to the caves of prehistoric Europe and eventually the walls of the US Capitol, the sparkling white hallways of the Pentagon, and straight into the contradicted heart of a worldwide climate emergency.
