**Acquired Tastes** Benjamin R. Cohen, Michael S. Kideckel, Anna Zeide, 2021-08-17 How modern food helped make modern society between 1870 and 1930: stories of power and food, from bananas and beer to bread and fake meat. The modern way of eating—our taste for food that is processed, packaged, and advertised—has its roots as far back as the 1870s. Many food writers trace our eating habits to World War II, but this book shows that our current food system began to coalesce much earlier. Modern food came from and helped to create a society based on racial hierarchies, colonization, and global integration. *Acquired Tastes* explores these themes through a series of moments in food history—stories of bread, beer, sugar, canned food, cereal, bananas, and more—that shaped how we think about food today. Contributors consider the displacement of native peoples for agricultural development; the invention of Pilsner, the first international beer style; the “long con” of gilded sugar and corn syrup; Josephine Baker’s banana skirt and the rise of celebrity tastemakers; and faith in institutions and experts who produced, among other things, food rankings and fake meat.

*Food Bites* Richard W Hartel, AnnaKate Hartel, 2009-03-01 *Food Bites* is an easy-to-read, often humorous book on the scientific basis of the foods we eat, and answers those pesky, nagging questions such as: Is the quality of beer really affected by the type of water used? and Processed foods: good or bad? Readers will be captivated by this superbly written book, especially so as their guides are Professor Richard Hartel, professor of Food Engineering at UW-Madison, along with his daughter, AnnaKate Hartel. Professor Hartel has for the last four years penned a witty and illuminating column on all aspects of food science for the Capital Times of Madison, and his weekly

wisdom has now been collected into a single publication. With a huge and growing interest in the science of food, this treasure trove of knowledge and practical information, in 60 bite-sized chunks, is sure to be a bestseller.

**Davey's Half-Way Home Cafe** Davey Doby, 2011-07

Tasty John McQuaid, 2016-01-12 A fascinating and deeply researched investigation into the mysteries of flavor, from our ancestors' first bites to ongoing scientific advances in taste and today's foodie revolution. --

*Black Hunger* Doris Witt, 1999-03-04 The creation of the Aunt Jemima trademark from an 1889 vaudeville performance of a play called *The Emigrant* helped codify a pervasive connection between African American women and food. In *Black Hunger*, Doris Witt demonstrates how this connection has operated as a central structuring dynamic of twentieth-century U.S. psychic, cultural, sociopolitical, and economic life. Taking as her focus the tumultuous era of the late 1960s and early 1970s, when soul food emerged as a pivotal emblem of white radical chic and black bourgeois authenticity, Witt explores how this interracial celebration of previously stigmatized foods such as chitterlings and watermelon was linked to the contemporaneous vilification of black women as slave mothers. By positioning African American women at the nexus of debates over domestic servants, black culinary history, and white female body politics, *Black Hunger* demonstrates why the ongoing narrative of white fascination with blackness demands increased attention to the internal dynamics of sexuality, gender, class, and religion in African American culture. Witt draws on recent work in social history and cultural studies to argue for food as an interpretive paradigm which can challenge the privileging of music in scholarship on African American culture, destabilize constrictive

disciplinary boundaries in the academy, and enhance our understanding of how individual and collective identities are established.

**Serious Eater** Ed Levine, 2019-06-11 A hilarious and moving story of unconventional entrepreneurialism, passion, and guts. --Danny Meyer, CEO of Union Square Hospitality Group; Founder of Shake Shack; Author of Setting the Table Original recipes by J. Kenji López-Alt of The Food Lab and Stella Parks of BraveTart James Beard Award-winning founder of Serious Eats Ed Levine finally tells the mouthwatering and heartstopping story of building--and almost losing--one of the most acclaimed and beloved food sites in the world. In 2005, Ed Levine was a freelance food writer with an unlikely dream: to control his own fate and create a different kind of food publication. He wanted to unearth the world's best bagels, the best burgers, the best hot dogs--the best of everything edible. To build something for people like him who took everything edible seriously, from the tasting menu at Per Se and omakase feasts at Nobu down to mass-market candy, fast food burgers, and instant ramen. Against all sane advice, he created a blog for \$100 and called it...Serious Eats. The site quickly became a home for obsessives who didn't take themselves too seriously. Intrepid staffers feasted on every dumpling in Chinatown and sampled every item on In-N-Out's secret menu. Talented recipe developers like The Food Lab's J. Kenji López-Alt and Stella Parks, aka BraveTart, attracted cult followings. Even as Serious Eats became better-known--even beloved and respected--every day felt like it could be its last. Ed secured handshake deals from investors and would-be acquirers over lunch only to have them renege after dessert. He put his marriage, career, and relationships with friends and family at risk through his stubborn refusal to let his dream die.

He prayed that the ride would never end. But if it did, that he would make it out alive. This is the moving story of making a glorious, weird, and wonderful dream come true. It's the story of one food obsessive who followed a passion to terrifying, thrilling, and mouthwatering places--and all the serious eats along the way. Praise for *Serious Eater* Read[s] more like a carefully crafted novel than a real person's life. --from the foreword by J. Kenji López-Alt Wild, wacky, and entertaining...The book makes you hungry for Ed to succeed...and for lunch. --Christina Tosi, founder of Milk Bar *Serious Eater* is seriously good!...you'll be so glad [Ed] invited you to a seat at his table. --Ree Drummond, author of *The Pioneer Woman Cooks* After decades of spreading the good food gospel we get a glimpse of the missionary behind the mission. --Dan Barber, chef, Blue Hill and Blue Hill at Stone Barns

**The Comfort Food Diaries** Emily Nunn, 2017-09-26 A former New Yorker editor chronicles her quest to overcome the convergence of the sudden loss of her brother, being dumped by her fiancé, and being evicted from her apartment by cooking her way across the country while staying with friends and family.

*Fast Food, Fast Track* Jennifer Parker Talwar, 2009-09-09 Hailing from China, the Caribbean, Latin America, and India, a colorful sea of faces has taken its place behind one of the most ubiquitous American business institutions – the fast-food counter. They have become a vital link between the growing service sector in our cities' ethnic enclaves and the multi-billion dollar global fast-food industry. For four years, sociologist Jennifer Parker Talwar went behind the counter herself and listened to immigrant fast-food workers in New York City's ethnic communities. They talked about balancing their low-paying jobs and monotonous daily reality with keeping the faith that these very jobs could be the first step on the path to the American Dream. In this original and compelling work of ethnography, Talwar shows that contrary to those arguing that the fast-food industry only represents an increasing homogenization of the American workforce, fast-food chains in immigrant communities must and do adapt to their surroundings.

**Diners, Dudes, and Diets** Emily J. H. Contois, 2020-10-02 The phrase dude food likely brings to mind a range of images: burgers stacked impossibly high with an assortment of toppings that were themselves once considered a meal; crazed sports fans demolishing plates of radioactively hot wings; barbecued or bacon-wrapped . . . anything. But there is much more to the phenomenon of dude food than what's on the plate. Emily J. H. Contois's provocative book begins with the dude himself—a man who retains a degree of masculine privilege but doesn't meet traditional standards of economic and social success or manly self-control. In the Great Recession's aftermath, dude masculinity collided

with food producers and marketers desperate to find new customers. The result was a wave of new diet sodas and yogurts marketed with dude-friendly stereotypes, a transformation of food media, and weight loss programs just for guys. In a work brimming with fresh insights about contemporary American food media and culture, Contois shows how the gendered world of food production and consumption has influenced the way we eat and how food itself is central to the contest over our identities.

Food in the USA Carole Counihan, 2013-10-18 From Thanksgiving to fast food to the Passover seder, Food in the USA brings together the essential readings on these topics and is the only substantial collection of essays on food and culture in the United States. Essay topics include the globalization of U.S. food; the dangers of the meatpacking industry; the rise of Italian-American food; the meaning of Soul food; the anorexia epidemic; the omnipotence of Coca-Cola; and the invention of Thanksgiving. Together, the collection provides a fascinating look at how and why we Americans are what we eat.

Food and the City Ina Yalof, 2019-05-07 An unprecedented behind-the-scenes tour of New York City's dynamic food culture, as told through the voices of the chefs, line cooks, restaurateurs, waiters, and street vendors who have made this industry their lives. In Food and the City, Ina Yalof takes us on an insider's journey into New York's pulsating food scene alongside the men and women who call it home. Dominique Ansel declares what great good fortune led him to make the first cronut. Lenny Berk explains why Woody Allen's mother would allow only him to slice her lox at Zabar's. Ghaya Oliveira, who came to New York as a young Tunisian stockbroker, opens up about her hardscrabble yet swift trajectory from dishwasher to executive pastry chef at Daniel. Restaurateur

Eddie Schoenfeld describes his journey from Nice Jewish Boy from Brooklyn to New York's Indisputable Chinese Food Maven. From old-schoolers such as David Fox, third-generation owner of Fox's U-bet syrup, and the outspoken Upper West Side butcher "Schatzie," to new kids on the block including Patrick Collins, sous chef at The Dutch, and Brooklyn artisan Lauren Clark of Sucre Mort Pralines, Food and the City is a fascinating oral history with an unforgettable gallery of New Yorkers who embody the heart and soul of a culinary metropolis.

*Canned* Anna Zeide, 2018-03-06 A century and a half ago, when the food industry was first taking root, few consumers trusted packaged foods. Americans had just begun to shift away from eating foods that they grew themselves or purchased from neighbors. With the advent of canning, consumers were introduced to foods produced by unknown hands and packed in corrodible metal that seemed to defy the laws of nature by resisting decay. Since that unpromising beginning, the American food supply has undergone a revolution, moving away from a system based on fresh, locally grown goods to one dominated by packaged foods. How did this come to be? How did we learn to trust that food preserved within an opaque can was safe and desirable to eat? Anna Zeide reveals the answers through the story of the canning industry, taking us on a journey to understand how food industry leaders leveraged the powers of science, marketing, and politics to win over a reluctant public, even as consumers resisted at every turn.

*Fast Food* Andrew F. Smith, 2016-04-15 The single most influential culinary trend of our time is fast food. It has spawned an industry that has changed eating, the most fundamental of human activities. From the first flipping of burgers in tiny shacks in the western United States to the forging of neon signs that spell out "Pizza Hut"

in Cyrillic or Arabic scripts, the fast food industry has exploded into dominance, becoming one of the leading examples of global corporate success. And with this success it has become one of the largest targets of political criticism, blamed for widespread obesity, cultural erasure, oppressive labor practices, and environmental destruction on massive scales. In this book, expert culinary historian Andrew F. Smith explores why the fast food industry has been so successful and examines the myriad ethical lines it has crossed to become so. As he shows, fast food—plain and simple—devised a perfect retail model, one that works everywhere, providing highly flavored calories with speed, economy, and convenience. But there is no such thing as a free lunch, they say, and the costs with fast food have been enormous: an assault on proper nutrition, a minimum-wage labor standard, and a powerful pressure on farmers and ranchers to deploy some of the worst agricultural practices in history. As Smith shows, we have long known about these problems, and the fast food industry for nearly all of its existence has been beset with scathing exposés, boycotts, protests, and government interventions, which it has sometimes met with real changes but more often with token gestures, blame-passing, and an unrelenting gauntlet of lawyers and lobbyists. Fast Food ultimately looks at food as a business, an examination of the industry's options and those of consumers, and a serious inquiry into what society can do to ameliorate the problems this cheap and tasty product has created.

**Food and Social Media** Signe Rousseau, 2012-06-16

Social media has been a factor in the explosion of interest in food and democratization of food criticism, and this book explains and critique the phenomena and key issues in a lively and anecdotal manner that will appeal to scholars and the interested general public alike.
