Joanna Grace

Sensory-Being for Sensory Beings Joanna Grace,2017-07-14 Sensory-being: the enveloping of natural presentness and awareness in an unfolding sensory moment. Sensory Beings: people whose experience of the world, and meaning within it, is primarily sensory. Often these are people who do not have access to language. If you support someone who understands the world in a primarily sensory way, for example someone with PMLD or later stage dementia, you will recognise that they often face periods of time in which they are left without an activity they can access. This unique, practical guide helps you to plan and deliver sensory activities that lead people into a calm, focused state. You are even invited to let the person you support lead you into a state of sensory focus. Written by a leading sensory specialist this book will help you to: View the world as the person you support may view it, and identify times when a sensory-being activity may be appropriate. Understand how to select and create the most engaging, low cost, sensory foci to suit the specific needs of the individuals in your care. Effectively facilitate sensory-being sessions from start to finish so that the people you care for receive the full and many benefits of calm, focused time. Tried and tested in a diverse range of settings prior to publication, these techniques and practical tools have already helped many people provide an enriched experience of life for those in their care. Throughout the book you will find numerous case studies and insights from parents, carers, special school practitioners, therapists, research institutions and more so that you can benefit from this broad body of experience.

Management de l'information dans les organisations Anna Lezon-Rivière,2021-07-01 Les nouveaux modèles économiques, le travail à distance ou les technologies disruptives sont un échantillon des bouleversements vécus par les organisations. Dans cet écosystème en mouvement, dans la transformation numérique des organisations, le management de l'information, centré sur les ressources informationnelles comme actif stratégique de l'organisation, est l'un des piliers de la stratégie globale de l'organisation. Il existe plusieurs approches de management de l'information et chacune apporte un éclairage précieux sur cette activité professionnelle. Management de l'information dans les organisations se concentre sur l'exploration des liens entre les savoirs et les savoir-faire de ce domaine aussi scientifique que professionnel. Il prône une démarche intégrée et stratégique de management de l'information appliquée aux ressources informationnelles de l'organisation. Il s'adresse à tous les professionnels de l'information, aux chefs de projets en gestion de l'information et des connaissances, aux spécialistes de la gouvernance de l'information et aux chercheurs en sciences de l'information.

Industries and Globalization B. Jullien,A. Smith,2008-10-13 Through analyzing recent change within six industries this book develops a resolutely interdisciplinary approach to studying globalization. By combining questions and methodologies from institutionalist economics and political science, it proposes a generalizable model for studying the politics of industry. It then tests a causal hypothesis.

Analyser la radio Frédéric Antoine,2016 « Cet ouvrage, rédigé par une équipe internationale de chercheurs spécialisés, aborde toutes les questions que se posent celles et ceux qui souhaitent entreprendre un travail sur la radio. Par où commencer? Quelles démarches engager? Quelle question de recherche et quelles hypothèses poser? À quel cadre disciplinaire se référer? Quelle méthodologie et quelles méthodes utiliser? Comment constituer son corpus? Où et à qui s'adresser? De quels exemples s'inspirer? 'Analyser la radio' apporte des réponses concrètes à toutes ces questions et pour tous les secteurs de la recherche radiophonique ... Envisageant la radio de manière interdisciplinaire, ce livre met aussi l'accent sur les nouvelles voies et les méthodes de recherche originales sur la radio, à un moment où ce média vit une véritable métamorphose. »--

Strategic purchasing roadmap Eric Salviac,Charles-Henri Vollet,Frédéric Bernard,2014-04-24 Purchases from external suppliers represent 20% and up to 80% of companies' total revenue and keeping these expenses down is a critical issue for global financial performance and competitiveness. As a result, the requirements of Executive Management with respect to the Purchasing Function have greatly increased over the past few years. The Purchasing department must prove that it can have a positive impact on product quality and innovation, and also EBIT or working capital, and that it is contributing to decision-making regarding the company's strategic investments

Wenn der Hahn dreimal kräht Rainer Beinlich,2004 Gedichte, wer liest schon Gedichte? Dieser Frage stellt der Autor seine verdichteten Gedanken gegenüber. Beziehungen zwischen den Menschen, die Liebe, die Suche nach Wahrheit und philosophische Betrachtungen, der Tod als Teil des Lebens und die Hoffnung sind wesentliche Elemente, der in Gedichte gefassten Gedanken des Autors. Manche Gedichte könnte man getrost als politisch bezeichnen, aber es geht immer nur um die darin verwickelten Menschen, ihr Innenleben. Viele Verse sind nachdenklich und zeigen auch die Schwierigkeiten mit der Auseinandersetzung, der Arbeit, die der Autor sich mit den Themen macht. Die Gedichte sind vorwiegend ungereimt, da die enthaltenen Ideen sich zusammenreimen.
