Contracting Out Hollywood Greg Elmer, Mike Gasher, 2005 In Hollywood's search for cheap, distinctive, and authentic locations, producers and directors are taking their business to foreign soil. Only one of the five 2002 Best Picture nominees was shot in the United States—*The Hours*, filmed in Hollywood, Florida. *Contracting Out Hollywood* addresses the American trend of 'runaway productions'—the growing practice of producing American films and television programs on foreign shores. Greg Elmer and Mike Gasher have gathered a group of contributors who seek to explain the phenomenon from historical, political, economic, and cultural perspectives, using case studies, challenges to contemporary screen, media, and globalization theories, and analyses of changing government politics toward cultural industries.

Tough as Nails Douglass K. Daniel, 2011-04-08 Called “God’s angry man” for his unyielding demands in pursuit of personal and artistic freedom, Oscar-winning filmmaker Richard Brooks brought us some of the mid-twentieth century’s most iconic films, including *Blackboard Jungle*, *Cat on a Hot Tin Roof*, *Elmer Gantry*, *In Cold Blood*, and *Looking for Mr. Goodbar*. “The important thing,” he once remarked, “is to write your story, to make it believable, to make it live.” His own life story has never been fully chronicled, until now. *Tough as Nails: The Life and Films of Richard Brooks* restores to importance the career of a prickly iconoclast who sought realism and truth in his films. Douglass K. Daniel explores how the writer-director made it from the slums of Philadelphia to the heights of the Hollywood elite, working with the top stars of the day, among them Humphrey Bogart, Cary Grant, Elizabeth Taylor, Jean Simmons, Sidney Poitier, Sean Connery, Gene Hackman, and Diane Keaton. Brooks dramatized social issues and depicted characters in conflict with their own values, winning an Academy Award for his *Elmer Gantry* screenplay and earning nominations for another seven Oscars for directing and screenwriting. *Tough as Nails* offers illuminating insights into Brooks’s life, drawing on unpublished studio memos and documents and interviews from stars and colleagues, including Poitier, director Paul Mazursky, and Simmons, who was married to Brooks for twenty years. Daniel takes readers behind the scenes of Brooks’s major films and sheds light on their making, their compromises, and their common threads. *Tough as Nails* celebrates Brooks’s vision while adding to the critical understanding of his works, their flaws as well as their merits, and depicting the tumults and trends in the life of a man who always kept his own compass. Elmer Rice Michael Vanden Heuvel,1996-01-19 As one of the most outstanding and innovative playwrights of the 20th century, Elmer Rice made and sustained his reputation with a series of hit plays and provocative experimental work which, next to the output of Eugene O'Neill, remains the most varied canon of theatrical writing produced by an American dramatist. This reference book overviews his life and career and provides plot synopses and critical commentaries for his plays. The volume also provides cast and credit lists for major productions and an exhaustive bibliography of primary and secondary materials. When critics of the mid-twentieth century ranked American playwrights, they often had to pause before promoting Eugene O'Neill over Elmer Rice as first among his peers. Like O'Neill, Rice had an astoundingly long and productive life in the American theatre. He made and sustained his reputation with a series of hit plays and provocative experimental work which, next to the output of O'Neill, remains the most varied canon of dramatic literature produced by an American playwright. This reference book is a thorough guide to Rice's fascinating career. This book makes Rice's writings accessible to a wide audience and reveals just how extensive his works are. He was a voluminous writer of letters, articles, and diatribes as well as plays, memoirs, and novels. This sourcebook offers a chronology of his achievements, along with plot synopses and critical overviews of each produced or published play. Theatre researchers will find cast lists and an exhaustive bibliography of reviews of productions, while the listing of archival sources should be of help to those wishing to explore his canon in greater depth. The short biography illuminates Rice's involvement at all levels of cultural production, as a playwright, producer, director, teacher, and polemicist for various theatrical and political causes.

Elmer Rice's *The Adding Machine*, a Director's Production Book Charles Buford Ingram,1950

Burt Lancaster Kate Buford,2013-09-18 Startlingly handsome, witty, fanatically loyal, charming, scary, and intensely sexual, Burt Lancaster was the quintessential *bête du cinéma*, one of Hollywood's great stars. He was, as well, an intensely private man, and he authorized no biographies in his lifetime. Kate Buford is the first writer to win the cooperation of Lancaster's widow, close friends, and colleagues, and her book is a revelation. Here is Lancaster the man, from his teenage years, bolting the Depression-era immigrant neighborhood of East Harlem where he grew up for the life of a circus acrobat -- then the electric New York theater of the 1930s, then the dying days of vaudeville. We see his production company -- Hecht-Hill-Lancaster -- become the biggest independent of the 1950s, a bridge between the studio era and modern filmmaking. With the power he derived from it we see him gain a remarkable degree of control, which he used to become the auteur of his own career. His navigation through the anti-Communist witch-hunts

made him an example of a star who tweaked the noses of HUAC and survived. His greatest roles -- in *Sweet Smell of Success*, *Elmer Gantry*, *Birdman of Alcatraz*, *The Swimmer*, *Atlantic City* -- kept to the progressive edge that had originated in the tolerant, diverse, reforming principles of his childhood. And in the extraordinary complete roster of his films -- *From Here to Eternity*, *Gunfight at the O.K. Corral*, *Judgment at Nuremberg*, *The Leopard*, *1900*, and *Field of Dreams*, among many others -- he proved to be both a master of commercial movies that pleased a worldwide audience and an actor who pushed himself beyond stardom into cinematic art. Kate Buford has written a dynamic biography of a passionate and committed star, the first full-scale study of one of the last great unexamined Hollywood lives.

Elmer Iseler Walter Pitman, 2008-07-28 In a career that spanned five decades, Elmer Iseler proved himself pivotal to the development of choral music in Canada. After founding Canada's first professional choir in 1954, he became artistic director and conductor of the Toronto Mendelssohn Choir. In 1979 he established Canada's leading chamber choir, the Elmer Iseler Singers. He also enjoyed a long association with the Toronto Symphony Orchestra, conducting more than 150 performances of Handel's *Messiah* and premiering complex twentieth-century music. Under his baton, choirs achieved international stature for technical brilliance and artistic versatility. He has, in the estimation of many, created a vibrant, world-class choral infrastructure in Canada. The most decorated musician in Canada, honoured with many awards nationally and internationally, Iseler has made an impact that will continue undiminished through his many recordings, the Elmer Iseler Singers, the Elmer Iseler Chair in Conducting, and the Elmer Iseler National Graduate Fellowships in Choral Conducting at the University of Toronto.

Locating Migrating Media Greg Elmer, Charles H. Davis, Janine Marchessault, John McCullough, 2012-07-10 *Locating Migrating Media* details the extent to which media productions, both televisual and cinematic, have sought out new and cheaper shot locations, creative staff, and financing around the world. The book contributes to debates about media globalization, focusing on the local impact of new sites of media production. The book's chapters also question the role that film and television industries and local and regional governments play in broader economic development and tax incentive schemes.

On the Digital Semiosphere John Hartley,Indrek Ibrus, Maarja Ojamaa,2022-07-28 It is only since global media and digital communications became accessible to ordinary populations – with Telstar, jumbo jets, the pc and mobile devices – that humans have been able to experience their own world as planetary in extent. What does it mean to be one species on one planet, rather than a patchwork of scattered, combative and mutually untranslatable cultures? One of the most original and prescient thinkers to tackle cultural globalisation was Juri Lotman (1922-93). On the Digital Semiosphere shows how his general model of the semiosphere provides a unique and compelling key to the dynamics and functions of today's globalised digital media systems and, in turn, their interactions and impact on planetary systems. Developing their own reworked and updated model of Lotman's evolutionary and dynamic approach to the semiosphere or cultural universe, the authors offer a unique account of the world-scale mechanisms that shape media, meanings, creativity and change – both productive and destructive. In so doing, they re-examine the relations among the contributing sciences and disciplines that have emerged to explain these phenomena, seeking to close the gap between biosciences and humanities in an integrated 'cultural science' approach.

Disaster and Memory Wheeler W. Dixon,1999 Using the media's coverage of the death of Princess Diana as a starting point, the author draws on the effects of new technologies, the role of the star system, the nature of public surveillance, and the development of media conglomerates to explain why Hollywood has become so repetitive. Discussing films such as Titanic the author argues that current films replay the same plotlines with greater

wizardry and less humanity than those of fifty years ago and that our culture is fascinated with images of disaster.

Preempting Dissent Greg Elmer,Andy Opel,2008 The legacy of the Bush administration and its War on Terror includes a new logic of surveillance, suppressing public dissent and mobilizing both fear and faith. In this accessible book, Elmer and Opel show that this new logic stretches well beyond the realm of airport security and international relations into everyday police techniques, including the use of Tasers, the deployment of stealth crowd control, the zoning of protestors and the suppression of public dissent. Drawing on social theories and media analyses, this book reveals the underlying logic of preemption whereby threats must be eliminated before they materialize. By addressing the implications of this new logic, Elmer and Opel lay the groundwork for more effective resistance.
