The 12-Type Enneagram Matthew Campling,2015-09-01 There exists a totally unknown system that codifies the very specific manner in which we think, feel and behave. It reveals the influence on us of planetary energies. The 12-Type Enneagram is completely original, and it reveals 12 planetary essence types. We all have every one of the type energies, but they exist in lesser or greater concentrations. Only one, though, is our essence type (not personality type). Unlike the 9-Type Enneagram, which concentrates on personality, the 12-Type Enneagram focuses on planetary essence types. There are 6 main types and 6 hybrid types, all of which are linked to a planet: Mercury, Saturn, Mars, Jupiter, Venus and Lunar. In The 12-Type Enneagram, Matthew Campling helps you identify your type via a series of questions and then provides a detailed explanation of each type. Sections include family, friends, work, sex, love and relationships, and how we can consciously develop using the system. The 12-Type Enneagram will help you: Understand why others are different from you Help you deal with problems Show you what to work on to improve your life Help resolve inner and outer conflict and more. Up till now this knowledge has been lost, or limited to esoteric schools of knowledge. Now it is available to us all.

**Human Types** Susan Zannos,1997-01-01 The Socratic injunction, Know Thyself, is the foundation for all work on selfdevelopment. Susan Zannos opens an illumination window on human behavior and temperament in her study of the basic human essence types. These types differ so much from each other, and are so greatly modified by the dominant type of intelligence operating in a particular person, that persistent and prolonged selfobservation is required to verify one's own type, or to recognize others. Recognition of these types and the division between essence and personality is the foundation upon which practical work on oneself begins. Zannos Describes the basic human essence types with the hope of helping those who want to understand what is most genuine in themselves and the people with whom they live. Zannos approaches human typology from a variety of perspectives, and ties the Gurdjieff Ouspensky Fourth Way system to a wide range of cultural, religious, and scientific traditions. She traces roots in Homeric legend and the Olympian pantheon through medieval astrology and the Qabalah, as well as discussing endocrinology and psychology. She points out resonances to C.G. Jung's psychology, the work of Piaget, and to Native American iconography. After exploring the four types of intellectual function, she launches an extensive discussion of the classic types of the Enneagram, leavened by personal anecdote and lively description. While this book will be of special interest to Fourth Way students, the information can help people from all walks of life who want to learn about themselves and the people they care for.
