Boy Almighty Frederick Manfred, 2021-09 *Boy Almighty* is an autobiographical novel that recounts the terrifying two years from 1940 to 1942 that Frederick Manfred spent at the Glen Lake Sanatorium in Minnesota, trying to recover from tuberculosis.

Celestina Fernando de Rojas, 1986 (Applause Books). As Greek tragedy, says a Spanish writer, was composed from the crumbs that fell from Homer's table, so the Spanish drama owed its earliest forms to *La Celestina* (1499). Fernando de Rojas' tragi-comedy which has also been called a novel in dialogue runs to about three hundred pages in the James Mabbe translation, here adapted to the stage by Eric Bentley in a five-act, 93-page version. The central and pervasive situation is a simple one: a dirty old woman is helping a courtly young gentleman to seduce a girl. The wonder of the thing lies in the art with which Fernando de Rojas derives, from such commonplace materials, a towering tragedy or rather, tragi-comedy.

Emblems of Eloquence Wendy Heller, 2004-01-12

Opera developed during a time when the position of women—their rights and freedoms, their virtues and vices, and even the most basic substance of their sexuality—was constantly debated. Many of these controversies manifested themselves in the representation of the historical and mythological women whose voices were heard on the Venetian operatic stage. Drawing upon a complex web of early modern sources and ancient texts, this engaging study is the first comprehensive treatment of women, gender, and sexuality in seventeenth-century opera. Wendy Heller explores the operatic manifestations of female chastity, power, transvestism, androgyny, and desire, showing how the emerging genre was shaped by and infused with the Republic's taste for the erotic and its ambivalent attitudes toward women and sexuality. Heller begins by examining contemporary Venetian writings about gender and sexuality that influenced the development of female vocality in opera. The Venetian reception and transformation of ancient texts—by Ovid, Virgil, Tacitus, and Diodorus Siculus—form the background for her penetrating analyses of the musical and dramatic representation of five extraordinary women as presented in operas by Claudio Monteverdi, Francesco Cavalli, and their successors in Venice: Dido, queen of Carthage (Cavalli); Octavia, wife of Nero (Monteverdi); the nymph Callisto (Cavalli); Queen Semiramis of Assyria (Pietro Andrea Ziani); and Messalina, wife of Claudius (Carlo Pallavicino).

Love and War in the Apennines Eric Newby, 2010 In

1943, Eric Newby escaped from the Italian prison camp in which he had been held for a year. Evading the advancing German army, he was sheltered by an informal network of

Italian peasants. *Love and War in the Apennines* is Newby's tribute to these selfless and courageous people and their bleak and unchanging way of life. Of the cast of idiosyncratic characters, most notable was the beautiful local girl on a bike who would teach him the language, and eventually help him escape. Two years later they were married and would spend the rest of their lives as co-adventurers. Part travelogue, part escape story and part romance, this is a mesmerising account of wisdom, courage, humour, adventure and above all, love from the man who would become one of Britain's best-loved literary adventurers.

Crosscurrents Mindy Badía, Bonnie L. Gasior, 2006 The term *crosscurrents* seems especially fitting for a volume of essays that explores the cultural exchanges that resulted from the encounter between Spain and the New World. The nautical metaphor alludes to the actual crossing of ships that occurred during the discovery, conquest, and colonization of the Americas by the Spanish as it emphasizes the changes that occurred at these cultural intersections.

Curating Opera Stephen Mould, 2021-02-09 Curation as a concept and a catchword in modern parlance has, over recent decades, become deeply ingrained in modern culture. The purpose of this study is to explore the curatorial forces at work within the modern opera house and to examine the functionaries and processes that guide them. In turn, comparisons are made with the workings of the traditional art museum, where artworks are studied, preserved, restored, displayed and contextualised – processes which are also present in the opera house. Curatorial roles in each institution are identified and described, and the role of the celebrity art curator is compared with that of the modern stage director, who has acquired previously undreamt-of licence to interrogate operatic works, overlaying them with new concepts and levels of meaning in order to reinvent and redefine the operatic repertoire for contemporary needs. A point of coalescence between the opera house and the art museum is identified, with the transformation, towards the end of the nineteenth century, of the opera house into the operatic museum. Curatorial practices in the opera house are examined, and further communalities and synergies in the way that ‘works’ are defined in each institution are explored. This study also considers the so-called ‘birth’ of opera around the start of the seventeenth century, with reference to the near-contemporary rise of the modern art museum, outlining operatic practice and performance history over the last 400 years in order to identify the curatorial practices that have historically been employed in the maintenance and development of the repertoire. This examination of the forces of curation within the modern opera house will highlight aspects of authenticity, authorial intent, preservation, restoration and historically informed performance practice.
