*The Modern Legal Philosophy Series...* ,1912

**The World's Legal Philosophies** Fritz Berolzheimer,1912 The present volume is the second of his five-volume work published by Beck at Munich (1904-1907) under the title 'System der rechts- und wirtschaftsphilosophie.'

**Collisions** Jan H. van Bommel,2015-07-06 In the waning years of the Soviet Union scientific research falls far behind. Vasili, head of KGB, tries to gain Western knowledge by espionage. He persuades Dmitri, a physicist, to defect to the USA. Dmitri obtains a position at NSF and later at FermiLab, while remaining entangled in the KGB web. After the disintegration of the Soviet Union Vasili becomes very powerful and wants to strengthen science in the new Russia. He asks Dmitri to return home, because Russian knowledge needs upgrading. Dmitri is appointed director of IHEP in Moscow. He is not successful, because the best Russian scientists have emigrated to the West. Blackmail and intimidation pursue him. To escape Vasili's influence, Dmitri accepts a job at CERN in Geneva, where the largest particle accelerator in the world, the LHC, is under construction. Vasili now wants revenge. When he does not succeed in obtaining Western knowledge through espionage and cybercrime he wants to ruin Dmitri and to obstruct research at CERN.

*Germany: The Long Road West* Heinrich August Winkler,2006-10-12 Vivid, succinct, and highly accessible, Heinrich Winkler's magisterial history of modern Germany offers the history of a nation and its people through two turbulent centuries. It is the story of a country that, while always culturally identified with the West, long resisted the political trajectories of its neighbours. This first volume (of two) begins with the origins and consequences of the medieval myth of the 'Reich', which was to experience a fateful renaissance in the twentieth century, and ends with the collapse of the first German democracy. Winkler offers a brilliant synthesis of complex events and illuminates them with fresh insights. He analyses the decisions that shaped the country's triumphs and catastrophes, interweaving high politics with telling vignettes about the German people and their own self-perception. With a second volume that takes the story up to reunification in 1990, *Germany: The Long Road West* will be welcomed by scholars, students, and anyone wishing to understand this most complex and contradictory of countries.

**Process Modelling** Bernd Scholz-Reiter,Hans-Dietrich Stahlmann,Arnim Nethe,2012-12-06 A process model is very often used for system analysis, design and management in various application areas. Using a process model has the advantage that it has only to be as precise as necessary within the parameters of the individual field of application, whereas the precision externally is less important. This makes process modeling easier and open for structuring. The contributions deal with different approaches to process modelling, especially in the areas of business process modelling, logistics and production processes and water systems.

Fin-De-Siecle Vienna Carl E. Schorske,2012-02-01 A Pulitzer Prize Winner and landmark book from one of the truly original scholars of our time: a magnificent revelation of turn-of-the-century Vienna where out of a crisis of political and social disintegration so much of modern art and thought was born. Not only is it a splendid exploration of several aspects of early modernism in their political context; it is an indicator of how the discipline of intellectual history is currently practiced by its most able and ambitious craftsmen. It is also a moving vindication of historical study itself, in the face of modernism's defiant suggestion that history is obsolete. -- David A. Hollinger, History Book Club Review Each of [the seven separate studies] can be read separately....Yet they are so artfully designed and integrated that one who reads them in order is impressed by the book's wholeness and the momentum of its argument. -- Gordon A. Craig, The New Republic A profound work...on one of the most important chapters of modern intellectual history -- H.R. Trevor-Roper, front page, The New York Times Book Review Invaluable to the social and political historian...as well as to those more concerned with the arts -- John Willett, The New York Review of Books A work of original synthesis and scholarship. Engrossing. -- Newsweek

*Royal Air Force Coastal Command* John Campbell,2013-10-20 Royal Air Force Coastal Command was the organisation charged with keeping the sea lanes clear around the coasts of Britain for the best part of half a century, from immediately after the First World War until the 1960s. In the decades after the Second World War, John Campbell served as a Coastal Command navigator and crew captain on Shackleton aircraft in the Maritime Patrol

role. Having studied in great detail the history and development of Coastal Command, he has researched and written this thorough account of its activities throughout its years of operation.

Feeling Political Ute Frevert,Kerstin Maria Pahl,Francesco Buscemi,Philipp Nielsen,Agnes Arndt,Michael Amico,Karsten Lichau,Hannah Malone,Julia Wambach,Juliane Brauer,Caroline Moine,2022-04-07 Historicizing both emotions and politics, this open access book argues that the historical work of emotion is most clearly understood in terms of the dynamics of institutionalization. This is shown in twelve case studies that focus on decisive moments in European and US history from 1800 until today. Each case study clarifies how emotions were central to people’s political engagement and its effects. The sources range from parliamentary buildings and social movements, to images and speeches of presidents, from fascist cemeteries to the International Criminal Court. Both the timeframe and the geographical focus have been chosen to highlight the increasingly participatory character of nineteenth- and twentieth-century politics, which is inconceivable without the work of emotions.
