Escape Velocity Geoffrey A. Moore, 2011-09-06 "Read this book to learn how to create a company as powerful as Apple."—Guy Kawasaki, former chief evangelist of Apple Inc. **Escape Velocity** Geoffrey A. Moore, author of the marketing masterwork *Crossing the Chasm*, teaches twenty-first century enterprises how to overcome the pull of the past and reorient their organizations to meet a new era of competition. The world's leading high-tech business strategist, Moore connects the dots between bold strategies and effective execution, with an action plan that elucidates the link between senior executives and every other branch of a company. For readers of Larry Bossidy's *Execution*, Clay Christensen's *Innovator's Solution*, and Gary Vaynerchuk's *Crush It!*, and for anyone aiming for the pinnacle of business success, *Escape Velocity* is an irreplaceable roadmap to the top.

**Escape Velocity** Meryl S. Kavanagh, 2013-04-11 Picking up where *Pax Corpus* left us, *Escape Velocity* shoves you face-first into the abyss, grabs hold and never lets go. Follow Dante, Meryl and a ragtag squad of survivalists, who call themselves, Belligerent Underpaid Tactical Team, from the depths of the devastated state of New Jersey to the bowels of post-apocalyptic Manhattan. With less than a day's worth of supplies and their underground shelter lying in ruins, thanks to the terrorist cell, ZeroFactor, there is only one course-of-action--fight tooth and nail, bullet-by-bullet, to the enemy stronghold and Rift of Manhattan--or die trying. The insanity doesn't stop there. Cybernetically modified, former Harrisburg, Pennsylvanian cop, Dante Marcellus, has a new problem. An implant inside of his head, where a bullet had once been, acts as a telepathic network between him and the thought-to-be-dead, Nuhm De'Ara. Leaving a trail of bodies all the way to New York City, survival is less-than-certain, as their enemy clamps down with violent determination. And when there isn't even a glimmer of hope left for who remains, a man once known as Jack Marcellus returns--with vengeance and anger fueled hatred for the only person who could possibly save him from himself. This time, there will only be one man left standing. There are things much worse than the bite of a deader and the undead plague.

*Escape Velocity* Mark Walden, 2008 HIVE is in grave danger. Dr Nero, its leader, has been captured by the world's most ruthless security force. It's up to Otto to save him, but first he must escape Nero's sinister replacement and HIVE itself.

**Orion: Escape Velocity** I. James Forrest, 2018-02-07 With the world racing to claim the water rights at the Moon's south pole, a Chinese rover mysteriously disappears in the same area, on the eve of an historic joint US/ Canada Moon launch. When the next generation space ship, *Endurance*, encounters mechanical problems, the mission is threatened. With no other solution, Orion and his friends attempt a secret rescue mission, using his alien father's technology. Their adventure uncovers NASA's true mission; the construction of a covert moon base which leads to the discovery of an ancient object deep within a crater. On a journey that begins with a bar fight in New Orleans with near death consequences, a gunfight in Afghanistan and finally a confrontational flight to AREA 51, Orion and his team must face espionage and sabotage as they rush to save the astronauts, without jeopardizing their own lives. With fast-paced action, Forrest and his unique style draws on his characters from *Orion Surfacing* and continues their adventure, taking readers around the world and to the moon. Forrest skillfully weaves a plot with multiple twists and turns equal to the master storytellers of our time.

**H.I.V.E. 3: Escape Velocity** Mark Walden,2011-08 Pupils and staff at H.I.V.E. are horrified to discover that Dr Nero has been captured by the forces of H.O.P.E., the Hostile Operative Prosecution Executive, the world's newest and most ruthlessly efficient security force. Three months pass without any news of his fate, and Number One has decided to appoint a sinister new headmistress for the school, somebody that the pupils and staff had thought that they'd seen the last of. Meanwhile Otto is also struggling to cope with new abilities that are starting to manifest themselves; can he really be unconsciously interfacing with computers without physical contact? And if he is, what exactly do these new powers really mean? The only way to find Nero and the truth behind the lies is to escape H.I.V.E.. Otto must get out, and take the risks which come with being a rogue agent. Then he just has to break into MI6.

**Escape Velocity** Victor Manibo,2024-05-21 A twisty new near-future genre-bending thriller: Knives Out in space with a Parasite twist. A decades-old murder looms over the glamorous clientele of a high-end space hotel . . . while an unforeseen threat percolates in the service corridors. The guests are about to experience the hospitality they deserve. Space Habitat Altaire is the premier luxury resort in low Earth orbit, playground of the privileged and the perfect location to host reunions for the Rochford Institute. Rochford boasts only the best: the wealthiest, most promising students with the most impressive pedigrees. Complete with space walks, these lavish reunions are a prime opportunity for alumni to jockey for power with old friends and rivals—and crucially, to advance their applications to live in an exclusive Mars settlement. Earth is dying, and only the best deserve to save themselves. Aboard the Altaire for their 25th reunion, finance magnate Ava pursues the truth about her brother's murder during their senior year, which cast a dark shadow over their time at Rochford. Laz, ambassador and political scion, hopes to finally win Ava's heart. Sloane, collecting secrets to conceal his family's decline, angles for a key client. And Henry, heir to a healthcare empire, creates an unorthodox opportunity to get to Mars in a last-ditch effort to outrun a childhood secret. While these erstwhile friends settle scores and rack up points, they fail to notice that other agendas are afoot at the Space Habitat Altaire, and their own futures aren't the only ones at stake—"the best" will soon regret underestimating those they would leave behind on Earth.

**Escape Velocity** Crazy Horse,2016-03-08 In the movie version, I start to merge with the car. The shifter grows into my hand, which quickly becomes metal. Wiry tentacles grow out of the back of the seat and attach themselves to my brain stem. My eyes discover a Terminator-like Heads-Up Display, and my foot grows into the accelerator pedal. My heart beats in synch with the tach and all the gauges register across my face. I'm becoming one with the machine. There's no telling where the Firebird ends, and I begin. I am the car. The car is me. I am the road. The journey is the destination. There's nowhere to go and yet, no turning back. There is only the drive, the car and the driver, and all are one.

**Zone to Win** Geoffrey A. Moore, 2015-11-03 Over the last 25 years, Geoffrey Moore has established himself as one of the most influential high-tech advisors in the world—once prompting Conan O'Brien to ask "Who is Geoffrey Moore and why is he more famous than me?" Following up on the ferociously innovative *ESCAPE VELOCITY*, which served as the basis for Moore's consulting work to such companies as Salesforce, Microsoft, and Intel, *ZONE TO WIN* serves as the companion playbook for his landmark guide, offering a practical manual to address the challenge large enterprises face when they seek to add a new line of business to their established portfolio. Focused on spurring next-generation growth, guiding mergers and acquisitions, and embracing disruption and innovation, *ZONE TO WIN* is a high-powered tool for driving your company above and beyond its limitations, its definitions of success, and ultimately, its competitors. Moore's classic bestseller, *CROSSING THE CHASM*, has sold more than one million copies by addressing the challenges faced by start-up companies. Now *ZONE TO WIN* is set to guide established enterprises through the same journey. "For any company, regardless of size or industry, *ZONE TO WIN* is the playbook for succeeding in today's disruptive, connected, fast-paced business world." —Marc Benioff, CEO, Salesforce "Once again Geoffrey Moore weighs in with a prescient examination of what it takes to win in today's competitive, disruptive business environment." —Satya Nadella, CEO, Microsoft With this book, Geoffrey Moore continues to lead us all through ever-changing times...His work has changed the game of changing the game! —Gary Kovacs, CEO, AVG "ZONE TO WIN uses crystal-clear language to describe the management plays necessary to win in an ever-disrupting marketplace. Regardless of your level of management experience, you will find this book an invaluable tool for building long-term success for your business." —Lip-Bu Tan, President and CEO, Cadence Design Systems

**Escape Velocity** Jason M. Hough, 2017-06 Part two of a thrilling action-adventure sci-fi duology featuring indomitable characters, incredible worlds, and plenty of rip-roaring action and thrills! Out of the frying pan and into the fire, Captains Skyler Luiken and Gloria Tsandi (and their respective crews) have smashed through the deadly Swarm Blockade, but now find themselves scattered around the planet Carthage and the space stations that she holds in her orbit. Their mission is now twofold: destroy the military compounds of the nefarious alien overlords and find a way back home to Earth. Standing in their way are a race of horrifying aliens aided by incredible weapons and technology. Low on supplies and with intermittent communication, the surviving humans must rely on all of their cunning, strength, and plain old good luck to turn the tables and overcome their foes.

**Orbital Mechanics for Engineering Students** Howard D Curtis, 2009-10-26 *Orbital Mechanics for Engineering Students*, Second Edition, provides an introduction to the basic concepts of space mechanics. These include vector kinematics in three dimensions; Newton's laws of motion and gravitation; relative motion; the vector-based solution of the classical two-body problem; derivation of Kepler's equations; orbits in three dimensions; preliminary orbit determination; and orbital maneuvers. The book also covers relative motion and the two-impulse rendezvous problem; interplanetary mission design using patched conics;

rigid-body dynamics used to characterize the attitude of a space vehicle; satellite attitude dynamics; and the characteristics and design of multi-stage launch vehicles. Each chapter begins with an outline of key concepts and concludes with problems that are based on the material covered. This text is written for undergraduates who are studying orbital mechanics for the first time and have completed courses in physics, dynamics, and mathematics, including differential equations and applied linear algebra. Graduate students, researchers, and experienced practitioners will also find useful review materials in the book. NEW: Reorganized and improved discussions of coordinate systems, new discussion on perturbations and quaternions NEW: Increased coverage of attitude dynamics, including new Matlab algorithms and examples in chapter 10 New examples and homework problems

**Escape Velocity** A. R. DeClerck, Randall Ritnour, 2021-11-23 She was a voice from the void. He was a beacon of hope when she had none. Q watched his brothers put their lives on the line even when all they craved was peace. From his chair in the tower he could process intel and do his best to keep them safe, but fear still plagued him. While surfing the silence of empty space, he hears a voice on a long-forgotten frequency. Intrigued, he answers, and starts a dialogue with the mysterious woman on the other end of the line. Dechtere found the old radio and never expected anyone to answer her calls. When she heard a voice respond, her dark world suddenly had light. Her fate may be uncertain, but she finally had a friend to talk to about it. Her father's plans for her meant death, but at least she finally wasn't alone. As the two strangers begin to learn to trust each other, a secret between them may threaten their own lives, and the lives of everyone Q loves.

**Hard Love** Ellen Wittlinger, 2012-06-19 With keen insight into teenage life, Ellen Wittlinger delivers a story of adolescence that is fierce and funny -- and ultimately transforming -- even as it explores the pain of growing up. Since his parents' divorce, John's mother hasn't touched him, her new fiancé wants them to move away, and his father would rather be anywhere than at Friday night dinner with his son. It's no wonder John writes articles like Interview with the Stepfather and Memoirs from Hell. The only release he finds is in homemade zines like the amazing Escape Velocity by Marisol, a self-proclaimed Puerto Rican Cuban Yankee Lesbian. Hanging around the Boston Tower Records for the new issue of Escape Velocity, John meets Marisol and a hard love is born. While at first their friendship is based on zines, dysfunctional families, and dreams of escape, soon both John and Marisol begin to shed their protective shells. Unfortunately, John mistakes this growing intimacy for love, and a disastrous date to his junior prom leaves that friendship in ruins. Desperately hoping to fix things, John convinces Marisol to come with him to a zine conference on Cape Cod. On the sandy beaches by the Bluefish Wharf Inn, John realizes just how hard love can be.
