Canadian Geography Thomas A. Rumney,2009-12-10 Canadian Geography: A Scholarly Bibliography is a compendium of published works on geographical studies of Canada and its various provinces. It includes works on geographical studies of Canada as a whole, on multiple provinces, and on individual provinces. Works covered include books, monographs, atlases, book chapters, scholarly articles, dissertations, and theses. The contents are organized first by region into main chapters, and then each chapter is divided into sections: General Studies, Cultural and Social Geography, Economic Geography, Historical Geography, Physical Geography, Political Geography, and Urban Geography. Each section is further sub-divided into specific topics within each main subject. All known publications on the geographical studies of Canada—in English, French, and other languages—covering all types of geography are included in this bibliography. It is an essential resource for all researchers, students, teachers, and government officials needing information and references on the varied aspects of the environments and human geographies of Canada.

**Contours of a People** Brenda MacDougall,Nichole St-Onge,Carolyn Podruchny,2012-12-04 What does it mean to be Metis? How do the Metis understand their world, and how do family, community,

and location shape their consciousness? Such questions inform this collection of essays on the northwestern North American people of mixed European and Native ancestry who emerged in the seventeenth century as a distinct culture. Volume editors Nicole St-Onge, Carolyn Podruchny, and Brenda Macdougall go beyond the concern with race and ethnicity that takes center stage in most discussions of Metis culture to offer new ways of thinking about Metis identity. Geography, mobility, and family have always defined Metis culture and society. The Metis world spanned the better part of a continent, and a major theme of *Contours of a People* is the Metis conception of geography—not only how Metis people used their environments but how they gave meaning to place and developed connections to multiple landscapes. Their geographic familiarity, physical and social mobility, and maintenance of family ties across time and space appear to have evolved in connection with the fur trade and other commercial endeavors. These efforts, and the cultural practices that emerged from them, have contributed to a sense of community and the nationalist sentiment felt by many Metis today. Writing about a wide geographic area, the contributors consider issues ranging from Metis rights under Canadian law and how the Library of Congress categorizes Metis scholarship to the role of women in maintaining economic and social networks. The authors' emphasis on geography and its power in shaping identity will influence and enlighten Canadian and American scholars across a variety of disciplines.

The Voyageur Modern Canadian Literature 5-Book Bundle Hugh Garner,James Reaney,Robin Skelton,Germaine Warkentin,Scott Symons,2014-03-14 Voyageur Classics is a series of special versions of Canadian classics, with added material and new introductions. In this bundle we find five classic works of twentieth century fiction, drama and poetry, a period when Canada's literary identity was shaped. Originally published in 1962, *The Silence on the Shore* is considered by many critics to be renowned Hugh Garner's best, most ambitious novel. Originally published in 1967, *Combat Journal for Place d'Armes* was initially met with shock and anger by most reviewers but has become a literary touchstone. *The Donnelly's* tells the tale of a secret society and a massacre that shocked the Canadian public, a story overlooked by the artistic community until Reaney's 1975 play elevated the events to the level of legend. *In This Poem I Am* presents the best of poet Robin Skelton's adventurous poetry. *And Exploration Literature* is a groundbreaking collection of early writing inspired by the opening of a continent, an entry point into the beginnings of a literate response to the awe and wonder inspired by an unfolding geography. Includes Canadian Exploration Literature *Combat Journal for Place d'Armes* *The Donnelly's* *In This Poem I Am* *The Silence on the Shore*

**Old Families of Louisiana** Stanley Clisby Arthur,George Campbell Huchet de Kernion,2009-06  
Originally published in 1931, Old Families of Louisiana was compiled in response to a demand for a comprehensive series of genealogical records of the foundation families of the state--families whose ancestors settled with Bienville in New Orleans at the time the famous old city was laid out in the crescent bend of the Mississippi River. This book also answers the call for information on those who came to Louisiana when the golden lilies of France, the castellated banner of Spain, the Union Jack of Great Britain, or the flag of fifteen stars and fifteen stripes waved over the land.During the compilation of the original data it became apparent that the present book would be greatly augmented in interest and value by the addition of genealogical records of other prominent foundation families besides the French and Spanish. For this reason, information was included on the English, Scottish, and Irish lineages whose representatives now form an integral part of the present-day population of Louisiana.In the seventy years since its first publication, Old Families of Louisiana has exceeded the original scope intended. In order to set a limit to its range, it was agreed that only

those families settling in Louisiana before and up to the time of the beginning of the American domination in 1803 should be included. *Old Families of Louisiana* traces the genealogy of such traditional Louisiana families as Fortier, Claiborne, Kenner, Percy, Wiltz, Chalmette, Landry, Derbigny, Butler, St. Martin, and Wilkinson.
