Color the Classics: The Snow Queen Jae-Eun Lee, 2016-08-09

Color the Classics: The Snow Queen is a part of Waves of Color's "Color the Classics" line—a collection of books that allows you to color your favorite literary classics for hours of fun and relaxation. The Snow Queen invites colorists into the world of Gerda and Kai, two young friends whose lives are changed when they come across a magic mirror. Kai is whisked away by the beautiful Snow Queen, and Gerda must travel to her castle to rescue him. Artist Jae-Eun Lee bewitchingly renders the characters, landscapes, and settings from the classic tale in an unforgettable coloring book rendition.

Fate and Freedom in Korean Historical Films Kyung Moon

Hwang, 2023-10-15 This open access book examines the depiction of Korean history in recent South Korean historical films. Released over the Hallyu ("Korean Wave") period starting in the mid-1990s, these films have reflected, shaped, and extended the thriving public discourse over national history. In these works, the balance between fate and freedom—the negotiation between societal constraints and individual will, as well as cyclical and linear history—functions as a central theme, subtext, or plot device for illuminating a rich variety of historical events, figures, and issues. In sum, these highly accomplished films set in Korea's past address universal concerns about the relationship between

structure and agency, whether in collective identity or in individual lives. Written in an engaging and accessible style by an established historian, *Fate and Freedom in Korean Historical Films* offers a distinctive perspective on understanding and appreciating Korean history and culture.

Posterior Circulation Stroke Jong S. Kim, 2020-09-18 This book, written by renowned experts from across the world, provides readers with a detailed and up-to-date understanding of posterior circulation stroke and its management. Anatomy, pathophysiology, clinical syndromes, and imaging findings are clearly and thoroughly described with the aid of illustrative cases and schematic drawings. The management-oriented chapters explain all forms of treatment, including the use of antiplatelet agents and anticoagulants, thrombolysis, mechanical thrombectomy, stenting, and surgical therapy, i.e., bypass and decompression. Throughout, full account is taken of recent significant advances in knowledge and clinical practice. Stroke affecting the posterior circulation continues to pose particular challenges for clinicians. This book will help readers to avoid misdiagnosis, which still occurs far too frequently, and to manage individual patients optimally. It will be an excellent learning

resource for residents in neurology, neurosurgery, radiology, interventional radiology, and vascular surgery, as well as an ideal reference for more experienced practitioners in these specialties.

**Korean Communication, Media, and Culture** Kyu Ho Youm, Nojin Kwak, 2018-08-31 In ten chapters with annotated bibliographies, this book analyzes Korean communication, media, and culture. The bibliographic entries provide aid for non-Korean-speaking academics to find information about research on these topics.

**Redemptive-Historical Hermeneutics and Homiletics** Yung Hoon Hyun, 2015-04-14 This book focuses on redemptive historical hermeneutics and homiletics within New Testament theology. This is a valuable legacy of the Reformed tradition, despite differences in interpreting and preaching Bible texts that surfaced in Holland (1920s and 1930s) and the United States (1970s onwards) before influencing Korean Reformed churches. The background, origin, distinctiveness, and development of these theological debates is explored and evaluated before the features of redemptive history in Korea are identified. The influence of Western redemptive-historical scholars on the Korean debate are also analyzed. Here is a major and contemporary contribution to reformed-historical hermeneutics and homiletics that is relevant for Korean Reformed churches, but also for all Reformed churches worldwide.

**A Tale of Two Cranes** Nathaniel Gronewold, 2023-09-08 It's been 50 years since the United States attempted a conservation revolution with the passing of the Endangered Species Act in 1973. Now, fifty years later, the Fish and Wildlife Service finds itself at a crossroads: some recovery efforts are succeeding, but

too many are either failing or stuck in neutral, even after decades of work. Take, for example, the story of two cranes, the whooping crane of southeastern Texas and the red-crowned crane of northern Japan. Both were pushed to the brink of extinction by the early 1900s, with surviving populations numbering as few as 20 to 40 individuals, and are now the subjects of concerted recovery efforts led by advanced national governments. The U.S. Fish and Wildlife Service has focused mainly on habitat protection, while at Japan's Ministry of the Environment, conservation authorities have leaned most heavily on direct population survival via a long-standing winter feeding program. These two case studies provide a template for comparing different approaches towards endangered species: habitat management vs. population management. Thus far the Japanese approach has proved more successful, but the story isn't over yet. What can these lessons teach us about managing other endangered species? Can species rehabilitation be standardized, or must each effort be designed and implemented on a case-by-case basis? *A Tale of Two Cranes* will serve as a launching pad for better understanding the progress and pitfalls inherent in endangered species management, through 50 years of lessons learned since the landmark Endangered Species Act was enacted by the United States Congress in December 1973. Also considering its success stories like the Attwater's prairie chicken, the ESA has had an enormous impact on conservation theory and practice throughout the world, from Tasmanian devils in Australia to the vaquita porpoises of Mexico. But, worsening government budget constraints, public inattention, and a continuous string of setbacks experienced within numerous rehabilitation initiatives will all eventually conspire to challenge the conventional thinking on endangered species management like never before. Author Nathaniel Gronewold explains how we got here, where things stand today, and what lessons conservationists must take to heart as the world continues to struggle to put a halt to an ongoing

global extinction crisis.
