**Brexit as a challenge for the European recruitment of skilled workers** Joshua Nganyadi, 2022-04-13 Academic Paper from the year 2018 in the subject Leadership and Human Resources - Recruiting, grade: 1,0, University of Applied Management, language: English, abstract: This scientific work will deal with the opportunities and risks of abolishing the free movement of workers. The focus will be on forecasting the possible effects on European recruitment. Using an analogy between the United Kingdom and an EU member state (Germany), precise differences will be analysed and challenges from different aspects will be examined. Brexit is currently a precedent case with already many political and economic implications. Accordingly, the research approach of this thesis is a literature analysis in combination with a scenario model. This is intended to present various exit scenarios of Great Britain vis-à-vis the EU and, in combination with an analysis of publications, to form recommendations for action for these scenarios. On 23 June 2016, the inhabitants of the United Kingdom voted in a referendum by a majority of 51.9 to 48.1 percent in favour of their country leaving the European Union (EU). The decision to British exit (brexit) marks a turning point in the more than 40-year relationship between the United Kingdom and the European community of states. It is the first time that a member leaves the European family of states – a decision of primarily symbolic significance, which brings with it decades of constant enlargement and restriction of the EU's internal market. In the campaign for EU withdrawal, the issue of abolition of free movement of workers and the associated immigration played a central role. It aims to reduce immigration and its dangers, such as state loss of control and surveillance. From an EU perspective, every EU citizen loses the opportunity to take up and pursue work in the United Kingdom under the same conditions as citizens between EU states. From a UK perspective, the decision has a clear political objective, but it can have devastating consequences for the domestic economy.

**European Union Law** Damian Chalmers, Gareth Davies, Giorgio Monti, 2014-06-19 The cover of this book portrays the Myth of Europa . The story has it that Europa, a Phoenician princess, was abducted by Zeus, the god of thunder, disguised as a bull. Zeus had been searching for a wife beautiful enough to become Queen of his native Crete. When he saw Europa he was smitten. Europa was gathering flowers by the seaside with her friends when she came upon the bull. Uncommonly gentle, the bull inspired no fear. Decking its horns with flowers, Europa climbed upon its back, whereupon the bull - Zeus - took off at a trot and dived into the sea. Europa was carried off to Crete, where she became the mother of Minos, the mythical King of Crete, who periodically demanded a tribute of young men and women of Athens to be sacrificed to the Minotaur--

Restatement of Labour Law in Europe Bernd Waas,Guus Heerma van Voss,2020-01-09 This book is part of a series which sets out a restatement of labour law in Europe. Its second volume looks at atypical employment relationships in Europe. Opening with a restatement, the book provides comparative commentary on the question of how fixed-term employment relationships, part-time employment relationships and temporary agency work is regulated by law in the individual states, which case law of the courts must be observed in this respect and which possibilities exist for shaping such relationships on the basis of collective bargaining agreements. The book goes on to systematically explore the national regulatory framework of: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Montenegro, Netherlands, North Macedonia, Norway, Poland, Portugal, Romania, Russia, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom. In this area, which is largely shaped by EU law in many countries, the commonalities and differences with regard to the relevant regulatory issues are examined. This important new project provides the definitive survey of labour law in Europe today.

Temporary Agency Work in the European Union and the United States Roger Blanpain,2013-07-11 Since the very beginning, temporary agency work has been an accepted feature in the United States' labour market. In the European Union, however, it took more than thirty years to agree on European-level legislation in this area. The European Directive 2008/104/EC on Temporary Agency Work was promulgated on 19 November 2008. Implementation was due by 5 December 2011. The directive left many options for Member States, such as regarding the fundamental issue of equal treatment between the temporary agency worker and a comparable worker in the user enterprise. Furthermore, Member States had to review restrictions or prohibitions on the use of temporary agency work in order to comply with the directive. This book provides in-depth insight into the transposition of Directive 2008/104/EC in national legislation, collective agreements, and practices throughout the European Union. A comparison with the regulation of temporary agency work in the United States gives perspective to the analysis and allows for an assessment of the level of protection afforded in this sector of the labour market both in the EU and in the US.

Migration, Work and Citizenship in the Enlarged European Union Dr Samantha Currie,2013-02-28 Drawing upon socio-legal research, this insightful book considers labour migration within the context of ('eastward') European Union enlargement. Specifically, this volume explores the legal rights of accession nationals to access employment, their experiences once in work and their engagement with broader family and social entitlement. By combining analysis of the legal framework governing free movement-related rights with analysis of qualitative data gained from interviews with Polish migrants, this volume is able to speculate on the significance the status of Union

citizenship holds for nationals of the recently-accessed CEE Member States. Citizenship is conceptualised not merely as rights but as a practice; a real 'lived' experience. The citizenship status of migrants from the CEE Member States is shaped by formal legal entitlement, law in action – as it is implemented by the Member States and 'accessed' by the migrants - and social and cultural perceptions and experiences 'on the ground'.

*Decolonizing European Sociology* Dr Encarnación Gutiérrez Rodríguez, Dr Manuela Manuela Boatcă, Prof Dr Sérgio Costa, 2012-12-28 *Decolonizing European Sociology* builds on the work challenging the androcentric, colonial and ethnocentric perspectives eminent in mainstream European sociology by identifying and describing the processes at work in its current critical transformation. Divided into sections organized around themes like modernity, border epistemology, migration and 'the South', this book considers the self-definition and basic concepts of social sciences through an assessment of the new theoretical developments, such as postcolonial theory and subaltern studies, and whether they can be described as the decolonization of the discipline. With contributions from a truly international team of leading social scientists, this volume constitutes a unique and tightly focused exploration of the challenges presented by the decolonization of the discipline of sociology.

*Population Change in Europe, the Middle-East and North Africa* Ms Sara Mels, Professor Koenraad Matthijs, Dr Karel Neels, Dr Christiane Timmerman, Prof Dr Jacques Haers, 2015-05-28 Comparing demographic trends in Europe and the NAME-region (North Africa and the Middle East), this book demonstrates how population change interacts with changing economic landscapes, social distinctions and political realities. It also provides food for thought for those who are looking for a nuanced perspective on the background and future perspectives of demographic developments in Europe, for a discussion of recent demographic and political realities in the NAME countries, and

for those who analyse the effects of contrasting demographic regimes on migration flows to and migration politics in Europe.

**EU Counterterrorism Policy** Dr Oldrich Bures, 2013-03-28 Although there is a vast body of literature covering the ongoing debates concerning the novelty and gravity of the contemporary terrorist threat, as well as the most appropriate response to it, few authors have thus far analysed the complex set of counterterrorism measures that both the individual Member States and the European Union (EU) have attempted to develop. This volume offers a critical analysis of the measures the European Union has taken to combat terrorism and how, in a number of key areas, EU counterterrorism policy is more of a paper tiger than an effective counterterrorism device. Several legal EU counterterrorism instruments have not been properly implemented at the national level and questions have been raised regarding their effectiveness, appropriateness, and proportionality. The capabilities of EU agencies in the area of counterterrorism remain rather weak and the EU Counterterrorism Coordinator does not have any real powers apart from persuasion. However, this does not mean that EU level action cannot offer any value-added in the fight against terrorism. There are several areas where the EU can provide genuine value-added in the fight against terrorism due to the transnational nature of the contemporary terrorist threat and the nature of a "borderless" Europe.
