Counting Down Southern Rock C. Eric Banister, 2016 When Southern rock acts like the Allman Brothers and Lynyrd Skynyrd stormed American concert stages, detractors immediately came to the fore declaring the genre to be little more than a marketing gimmick. But those on stage themselves would have called its appearance not only inevitable but also a way of life. In the end, the musicians who played Southern rock reflected a robust and broad variety of influences, drawing deeply from the wellsprings of blues, rock, country, and even jazz. Listeners gravitated to the sounds of the New South, a place that had captured pop culture's imagination amid the turbulence following President Nixon's successful Southern strategy and silent majorities. Southern rock garnered a second wave of enthusiasm with the rise of the urban

cowboy and Bill Clinton's ascension to the presidency. For nearly half a century, Southern rock has captured and expressed the energy of the New South, inspiring a legacy that listeners can still hear from jam bands, indie acts, and mainstream country musicians. In *Counting Down Southern Rock: The 100 Best Songs*, C. Eric Banister considers the best songs to emerge from the bands who made Southern rock what it is. Banister examines the impact of the songs on the society and culture of devoted fans and delves deep into the history and production of each song. Featuring such well-known bands as the Allman Brothers Band and Lynyrd Skynyrd as well as less visible groups like Blackhorse and Heartsfield, this book is the perfect introduction for both newbies and dedicated fans.

The Old Songs are Always New Genevieve Campbell, 2023-07-01 It's really great. It's like they're all here. I hear all of these voices and I sing with them, you know? – Yikliya Eustace Tipiloura, senior songman and Elder Perhaps the most defining feature of Tiwi song is the importance placed on the creative innovation of the individual singer/composer. Tiwi songs are fundamentally new, unique and occasion specific, and yet sit within a continuum of an oral artistic tradition. Performed in ceremony, at public events, for art and for fun, songs form the core of the Tiwi knowledge system and historical archive. Held by song custodians and taught through sung and

danced ritual, generations of embodied practice are still being created and accumulated as people continue to sing. In 2009 Genevieve Campbell and eleven Tiwi colleagues travelled to Canberra to reclaim over 1300 recordings of Tiwi songs, made between 1912 and 1981, that are held in the archives at the Australian Institute of Aboriginal and Torres Strait Islander Studies (AIATSIS). The Old Songs are Always New explores the return home of these recordings to the Tiwi Islands and describes the musical and vocal characteristics, performance context and cultural function of the twelve Tiwi song types, giving an overview of the linguistic and poetic devices used by Tiwi composers. For the past 16 years Campbell has been working closely with Tiwi song custodians, studying contemporary Tiwi song culture in the context of the maintenance of traditions and the development of new music forms. Their musical collaboration has resulted in public performances, community projects and recordings featuring current senior singers and the voices of the repatriated recordings. For this publication, Elders have enabled the transcription of many song texts and melodies for the first time, shedding light on how generations of Tiwi singers have connected the past with the present in a continuum of knowledge transmission and arts practice.

Folk Songs of Old Kentucky RALPH LEE SMITH, 2011-02-24 This book provides 20 beautiful Anglo-American folk songs, field-collected by two remarkable real-life song catchers, Josephine McGill and Loraine Wyman, in the Cumberland Mountains of Kentucky in 1914 and 1916. Josephine and Loraine, the latter accompanied by Howard Brockway, a composer and arranger, were among the first persons to search for folk songs in the Southern Appalachians. the musical adventurers traveled hundreds of miles on horseback and on foot through an inaccessible world to which radios, roads and cars had not yet come. They

made friends in isolated log cabins, and transcribed some 200 song treasures, some of which they published in complex arrangements in books that are now out of print and rare. This book contains a selection of the songs, presented with simplified musical notation, guitar chords, and dulcimer tablature. It also includes glowing accounts of their mountain adventures, published by Josephine and Howard in long-forgotten publications; a must for all lovers of American folk music.

Who Will Sing the Old Songs? John Walsh, 2010-06-17 A true, no holds barred account of a family living with dementia, frustration, love and heartbreak and a welfare system that let them down. In a busy world it's easy to miss the decline of cognitive function in an elderly person; easy to judge it as slight confusion; easier still to ignore it completely - until suddenly, without warning, it explodes into your life. For John Walsh's family, that's exactly what happened; his parents' 60 years of togetherness were suddenly no more. Now they, as a family, were dependent on others; reliant on Britain's welfare system. What happened next was shocking and devastating. Eighteen months of social services, doctors, hospitals, care homes and frustration. No chance of a happy ending; absolutely no light leading to the end of the tunnel. Just darkness and injustice. John was horrified by what happened to his parents, shocked by the lack of support for them, as he struggled to reconcile himself to a welfare system in which pensioners are forced to sell their homes to fund depressingly poor standards of care, whilst young men

who've never worked a day in their lives, happily stand at the bar drinking their way through hundreds of pounds worth of benefits. There are almost a million people living with dementia in Britain today. That number will double within the next 20 years. Forty-two percent of the population are affected by the disease in one way or another, yet money allocated to its research accounts for just 2.5 percent of the funds available. What has gone so wrong? This is a dark story, told with the honesty of humour and the distress and turmoil of loss.
