Parrott, 2019-03-13 As digital reading has become more productive and active, the lines between reading and writing become more blurred. This book offers both an exploration of collaborative reading and pedagogical strategies for teaching reading and writing that reflect the realities of digital literacies. This edited scholarly collection offers strategies for teaching reading and writing that highlight the possibilities, opportunities, and complexities of digital literacies. Part 1 explores reading and writing that happen digitally and offers frameworks for thinking about this process.
