Innovation Tournaments Christian Terwiesch, Karl Ulrich, 2009-06-09 Managers, entrepreneurs, and venture capitalists all seek to maximize the financial returns from innovation, and profits are driven largely by the quality of the opportunities they pursue. Based on a structured and process-driven approach this book demonstrates how to systematically identify exceptional opportunities for innovation. An innovation tournament, just like its counterpart in sports, starts with a large number of candidates, with opportunities as the players. These opportunities are pitted against each other until only the exceptional survive. This book provides a principled approach for the effective management of innovation tournaments - identifying a wealth of promising opportunities and then evaluating and filtering them intelligently for greatest profitability. With a set of practical tools for creating and identifying new opportunities, it guides the reader in evaluating and screening opportunities. The book demonstrates how to construct an innovation portfolio and how to align the innovation process with an organization's competitive strategy. Innovation Tournaments employs quirky, fresh examples ranging from movies to medical devices. The authors' tool kit is built on their extensive research, their entrepreneurial backgrounds, and their teaching and consulting work with many highly innovative organizations.

Out Think G. Shawn Hunter, 2013-06-14 We've entered a new era. Call it the age of imagination, ideation, conceptualization, creativity,

innovation—take your pick. Creativity, mental flexibility, and collaboration have displaced one-dimensional intelligence and isolated determination as core ingredients of competitive advantage. But these 21st century methods and mindsets needed to drive innovation are only found by tapping into the discretionary levels of passion and initiative within us. This is where Out Think leadership comes in. Out Think presents big ideas along with actionable advice to drive unique value and innovation in today's chaotic marketplace. In each chapter a key idea, behavior, or mindset shift is discussed. The shift is illustrated through proprietary interviews with business leaders conducted by the author. Techniques are described to show how the shift or idea can be implemented, with real-world examples. Assessments, exercises, and actionable messaging are highlighted throughout the book. While some books address the changing economic landscape and the challenges of the creative age, Out Think is unique in the author's unparalleled access, spanning more than a decade, to executives and thought-leaders who are, in fact, making a measurable difference. Through interviews and collaboration with these individuals, Hunter has assembled insights, stories, and actionable take-aways, with an emphasis on results that can drive the change that leaders want and need in their organizations.

The Innovation Tournament Handbook Christian Terwiesch, Karl Ulrich, 2023-03-14 What new products or services should you launch next year? How can you improve the productivity of a paint line? What

should you name your new venture? How can you decrease patient waiting times? How can you improve the customer experience? Pretty much any creative problem-solving task can be framed as seeking a new match between solution and need, from operational process improvements to creating strategies to foster organic growth. Innovation tournaments aim to find a match that is not just good, but exceptional. Leveraging more than two decades of experience organizing innovation tournaments in Silicon Valley and on Wall Street, from Buenos Aires to Kuwait City, Shanghai to Moscow, and with many Fortune 500 companies, two renowned researchers, entrepreneurs, and the foremost experts on innovation tournaments offer a template that you can use to generate winning ideas that will drive great outcomes—whatever your challenges, whatever your business. In *The Innovation Tournament Handbook: A Step-by-Step Guide to Finding Exceptional Solutions to Any Challenge*, Wharton professors Christian Terwiesch and Karl T. Ulrich offer an engaging, often humorous, and always actionable guide to help you learn:

- How to frame and articulate your specific innovation challenge
- How to decide on the right format, structure, and strategic direction for your own innovation tournament
- How to maximize the quality of the opportunities that will compete
- How to select the very best ideas
- How to develop those ideas into real-world opportunities
- How to use tournaments to foster a culture of innovation

Fast-reading and filled with real-world successes, *The Innovation Tournament Handbook* is a comprehensive roadmap to finding a new match

between a solution and a need that is not merely good, but exceptional.

Insourcing Innovation David Silverstein,Neil DeCarlo,Michael Slocum,2005 TRIZ is a methodology like Six Sigma. It has grown and developed in response to a very difficult and critical business requirements: the need for constant reinvention and continual innovation... I see in TRIZ a method much like Six Sigma was before it became institutionalized: an extremely powerful approach to meeting a critical business need that's cloaked in a little mystery and a modicum of fear. I see

in TRIZ a methodology like DMAIC that is greatly worthy of debate... I want every business leader to read this book, because it contains a message they need to hear: What at first seems technical, scientific and esoteric has the power to transform a corporation. Also, I want every scientist and engineer to read this book, because it will challenge them to make the act of innovation more commonplace and effortless. - Foreword.

12 Elements of Exceptional Leadership The Mjw

Group, 2017-10-09 We can learn a lot about the

world around us by taking time to understand ourselves. Looking back on past experiences can yield many valuable life lessons. The same can be said about a true leader. Taking time to reflect and understand your history as a person, colleague, peer, and leader should reveal a form of evolution. Even when trying to do your best in the world around you to express this is me, people can only view you through their filters. Your filter is your platform. Tune a good filter to make it great. Nourish a great filter to make it exceptional. Reflect on positive ideals to make an exceptional filter a success. Be the leader that constantly moves towards reaching authentic goals. If you do these things, you are an authentic, exceptional, true leader.
