Jacob's Eye Patch Beth Kobliner Shaw, Jacob Shaw, 2013-09-24 Being different can be hard. This funny, spirited story—written by bestselling author of *Get a Financial Life* Beth Kobliner Shaw with her son Jacob, and illustrated by award-winning picture book artist Jules Feiffer—encourages young readers to embrace the thing that makes them unique... Jacob is in a hurry—a really big hurry—to get to the store to buy a special toy. There's only one left, and if he doesn't get to it soon, he'll never forgive his mom and dad for making him late. Strangers often stop Jacob's parents on the street to ask about him. See, Jacob is unusual: He has an eye patch. Jacob knows people like to ask questions, but do they have to ask right now? Luckily, Jacob gets to the store in time, and he meets a new friend who has something different, too. In the end, Jacob's journey makes him more aware of other people's feelings. *Jacob's Eye Patch* is the go-to book for talking about differences that kids can enjoy and parents can turn to for guidance. Everyone has something different! What's your something? Share your child's story at JacobsEyePatch.com.

Drawing on The Dominant Eye Betty Edwards, 2020-11-10 A fascinating follow-up to the beloved bestseller *Drawing on the Right Side of the Brain*--with new insights about creativity and our unique way of seeing the world around us Millions of readers have embraced art teacher Betty Edwards's *Drawing on the Right Side of the Brain*, from art students and teachers to established artists, corporate trainers, and more--all discovering a bold new way of drawing and problem-solving based on what we see, not what we think we see. In this highly anticipated follow-up, Edwards illuminates another piece of the creativity puzzle, revealing the role our dominant eye plays in how we perceive, create, and are seen by those around us. Research shows that much like being right-handed or left-handed, each of us has a dominant eye, corresponding to the dominant side of our brain--either verbal or perceptual. Once you learn the difference and try your hand at the simple drawing exercises, you'll gain fresh insights into how you perceive, think, and create. You'll learn how to not just look but truly see. Generously illustrated with visual examples, this remarkable guided tour through art history, psychology, and the creative process is a must-read for anyone looking for a richer understanding of our art, our minds, and ourselves.
