The Assassination of the Archduke Greg King, Sue Woolmans, 2013-09-03 Drawing on unpublished letters and rare primary sources, King and Woolmans tell the true story behind the tragic romance and brutal assassination that sparked World War I. In the summer of 1914, three great empires dominated Europe: Germany, Russia, and Austria-Hungary. Four years later all had vanished in the chaos of World War I. One event precipitated the conflict, and at its heart was a tragic love story. When Austrian heir Archduke Franz Ferdinand married for love against the wishes of the emperor, he and his wife Sophie were humiliated and shunned, yet they remained devoted to each other and to their children. The two bullets fired in Sarajevo not only ended their love story, but also led to war and a century of conflict. Set against a backdrop of glittering privilege, *The Assassination of the Archduke* combines royal history, touching romance, and political murder in a moving portrait of the end of an era. One hundred years after the event, it offers the startling truth behind the Sarajevo assassinations, including Serbian complicity and examines rumors of conspiracy and official negligence. Events in Sarajevo also doomed the couple's children to lives of loss, exile, and the horrors of Nazi concentration camps, their plight echoing the horrors unleashed by their parents' deaths. Challenging a century of myth, *The Assassination of the Archduke* resonates as a very human story of love destroyed by murder, revolution, and war.

Capitalism and Schizophrenia in the Later Novels of Louis-Ferdinand Céline Greg Hainge, 2001 Re-examining the works of France's most controversial of literary figures, this book contends that Louis-Ferdinand Céline's pronouncements on the importance of style must be taken seriously if an understanding of those works is to be reached. *Capitalism and Schizophrenia in the Later Novels of Louis-Ferdinand Céline* provides a major reconsideration of the greater part of the oeuvre of this too-often neglected author. Leaving behind the symbolic capital that the name Céline accrued during the Second World War, this study looks at the works written around and after this period in order to understand the importance of their revolutionary aesthetic not only for their genesis, but also for their very content. The approach taken is unashamedly theoretical which allows this study to provide insights not only into the works of Céline, but also into those of the French thinkers Deleuze and Guattari whose thought, it is argued here, can only be apprehended through application.
