*Técnicas reproductivas en las especies animales* Carlos C. Pérez Marín, Lydia Gil Huerta, Luis Ángel Quintela Arias, 2023-09-14

*Técnicas reproductivas en las especies animales* aborda todas las actuaciones que se llevan a cabo en el campo de la biotecnología de la reproducción. Sus contenidos se estructuran en secciones temáticas bien diferenciadas que incluyen el control del ciclo estral, la obtención de semen, la conservación del esperma, la inseminación artificial, la transferencia y criopreservación de embriones, y las técnicas de producción in vitro. Dentro de cada sección, y con objeto de facilitar la consulta, cada capítulo se centra en una sola especie animal: equinos, bovinos, pequeños rumiantes, cerdos, perros y gatos. Adicionalmente incluye una sección dedicada a las técnicas reproductivas de mayor interés en conejos, camélidos y gallinas, especies de gran importancia pero a menudo pasadas por alto en otros manuales de la especialidad.

**Marcas sonrientes** Valiente Alber, Sònia, 2016-10-28 ¿Por qué la publicidad televisiva ha empleado tan poco el humor en los últimos años? ¿Por qué la publicidad en España es tan gris? Estas cuestiones son el germen de una investigación que ha durado tres años (2012-2015) y que ha dado lugar a la tesis doctoral: «La conexión emocional generada por el humor como elemento de engagement en marcas consolidadas». Una investigación que ha demostrado que, en un contexto de crisis económica, fragmentación de las audiencias, saturación publicitaria y entorno multipantalla el humor continúa siendo una estrategia válida para generar engagement. Es más, si el anuncio gusta –hace que «la marca me caiga mejor»– se viralizará. Conexión emocional y prescripción orgánica. ¿Hay algo más que una marca pueda soñar?

Information and Communications Technologies in School Mathematics David Tinsley, David B. Johnson, 2013-06-05 The International Federation for Information Processing, IFIP, is a multinational federation of professional technical organisations concerned with information processing. IFIP is dedicated to improving communication and increased understanding among practitioners of all nations about the role information processing can play in all walks of life. This Working Conference, Secondary School Mathematics in the World of Communication Technologies: Learning, Teaching and the Curriculum, was organised by Working Group 3.1, Informatics in Secondary Education, of IFIP Technical Committee for Education, TC3. This is the third conference on this theme organised by WG 3.1, the previous two were held in Varna, Bulgaria, 1977, and Sofia, Bulgaria, 1987-proceedings published by North-Holland Elsevier. The aim of the conference was to take a forward look at the issue of the relationships between mathematics and the new technologies of information and communication in the context of the increased availability of interactive and dynamic information processing tools. The main focus was on the mathematics education of students in the age range of about 11 to 18 years and the following themes were addressed: • Curriculum: curriculum evolution; relationships with informatics; • Teachers: professional development; methodology and practice; • Learners: tools and techniques; concept development; research and theory; • Human and social issues: culture and policy; personal impact.

**Unfinished** Iñaki Carnicero, Carlos Quintáns, 2021-03-29 Spain was one of the countries where the practice of architecture has been most affected by the economic crisis. There are few places on earth where such large numbers of buildings were built in such a short period of time. The lack of reflection over whether these projects were necessary or valid resulted in the subsequent abandonment of many buildings when their completion or maintenance was discovered not to be economically viable. Their appearance throughout Spanish territories has generated a collection of unfinished buildings where the factor of time was eliminated from the formula for making architecture. The publication gathers examples of architecture produced during the past few years, born out of renunciation and economy of means, designed to evolve and adapt to future necessities and trusting in the beauty conferred by the passage of time.

**Entre ciudades : Buenos Aires, Puebla, Barcelona** Teresa-M. Sala, Fernando Martínez Nespral, 2020 El paisaje urbano es una realidad compleja, integrada por componentes culturales y naturales, tangibles e intangibles, cuya imbricación configura un territorio y unas representaciones. En este sentido, las ciudades de Barcelona, Buenos Aires y Puebla brindan una imagen lo suficientemente rica y variada para relacionar múltiples factores de transferencia entre sí. A propósito de las grandes exposiciones de arte celebradas entre los siglos XIX y XX en las tres urbes, los autores de *Entre ciudades* se centran en panoramas, escenas e identidades como la arquitectura de grandes almacenes, galerías comerciales y fachadas; la escultura en espacios públicos, tarjetas y prensa, o el intercambio de artistas. Con su mirada transcultural, descubren la intensidad de la circulación de ideas, personas, mercancías y prácticas durante un periodo de una gran efervescencia artística.

**A People Betrayed: A History of Corruption, Political Incompetence and Social Division in Modern Spain** Paul Preston,2020-06-16 Nowhere does the ceaseless struggle to maintain democracy in the face of political corruption come more alive than in Paul Preston's magisterial history of modern Spain. The culmination of a half-century of historical investigation, *A People Betrayed* is not only a definitive history of modern Spain but also a compelling narrative that becomes a lens for understanding the challenges that virtually all democracies have faced in the modern world. Whereas so many twentieth-century Spanish histories begin with Franco and the devastating Civil War, Paul Preston's magisterial work begins in the late nineteenth century with Spain's collapse as a global power, especially reflected in its humiliating defeat in 1898 at the hands of the United States and its loss of colonial territory. This loss hung over Spain in the early years of the twentieth century, its agrarian economic base standing in stark contrast to the emergence of England, Germany, and France as industrial powers. Looking back to the years prior to 1923, Preston demonstrates how electoral corruption infiltrated almost every sector of Spanish life, thus excluding the masses from organized politics and giving them a bitter choice between apathetic acceptance of a decrepit government or violent revolution. So ineffective was the Republic—which had been launched in 1873—that it paved the way for a military coup and dictatorship, led by Miguel Primo de Rivera in 1923, exacerbating widespread profiteering and fraud. When Rivera was forced to resign in 1930, his fall brought forth a succession of feeble governments, stoking rancorous tensions that culminated in the tragic Spanish Civil War. With astonishing detail, Preston describes the ravages that rent Spain in half between 1936 and 1939. Tracing the frightening rise of Francisco Franco, Preston recounts how Franco grew into Spain's most powerful military leader during the Civil War and how, after the war, he became a fascistic dictator who not only terrorized the Spanish population through systematic oppression and murder but also enriched corrupt officials who profited from severe economic plunder of Spain's working class. The dictatorship lasted through World War II—during which Spain sided with Mussolini and Hitler—and only ended decades later, in 1975, when Franco's death was followed by a painful yet bloodless transition to republican democracy. Yet, as Preston reveals, corruption and political incompetence continued to have a corrosive effect on social cohesion into the twenty-first century, as economic crises, Catalan independence struggles, and financial scandals persist in dividing the country. Filled with vivid portraits of politicians and army officers, revolutionaries and reformers, and written in the "absorbing" (*Economist*) style for which Preston is so revered, *A People Betrayed* is the first historical work to examine the continuities of political unrest and national anxiety in Spain up until the present, providing a chilling reminder of just how fragile democracy remains in the twenty-first century.

**Barcelona** Joan Busquets,2005 Barcelona is regarded as a prototype of a European Mediterranean city with a long urban tradition. It has undergone a specific process of historic formation: density and compactness of urban form, evolution by extension rather than by reform. A history of urban planning necessarily includes a summary of the territorial and urban experience, the physical dimensions of the city that condition its cultural and economic development. This book centers on the construction of Barcelona, taking as its basis the most important planning operations and city projects, and drawing from diverse sources and phases. The local scale of many of the projects contrasts with the cosmopolitan aspirations that have made these interventions so innovative; including major projects for special events, such as the 1888 (World Exhibition), 1929 (Electrical Industries Exhibition) and 1992 (Olympic Games). New prospects are emerging from the recent European institutional framework, particularly changes in the economic system to a post-industrial phase. The urban planning history of Barcelona shows how the city has overcome major contradictions.

**Llibre de la Cort del Justícia de Cocentaina (1294-1295)** Josep Torró,2011-11-28 La Cocentaina de la fi del segle XIII era una vila mitjana, d'unes 200-300 llars cristianes, a les quals s'afegia la població musulmana de la moreria i de les nombroses alqueries del seu terme, que podien arribar, en conjunt, a dos centenars més de focs. Fou una vila reial, però ja a les darreries del segle passà a un personatge de l'alta noblesa com Roger de Llúria.

El justícia, ofici clau en l'organització administrativa de la comunitat, generà una documentació que incloïa declaracions de testimonis i condemnes per plets referents normalment a deutes, així com obligacions que informen sobre la vida social i econòmica d'aquest nucli de colonització. Un interès addicional té la presència de diverses llengües, no sols el llatí i el català, sinó l'aragonès, de manera que aquests llibres permeten aproximar-se a una realitat lingüística més complexa del que podia suposar-se.
