Perfomance Plus TV & Movie Music ,

The Black and Ethnic Minority Woman Manager Professor Marilyn J Davidson, Professor, 1960

Based on the author's analysis of in-depth interviews and relevant research literature, this book investigates and explores the experiences, problems and pressures faced by black and ethnic minority

women managers in the United Kingdom. To date, research addressing the issues of black managers has been almost exclusively American, predominantly black African-Americans, and the overall amount of published research has been limited. Indeed, studies of black and ethnic minority professional women, especially in corporate settings, have been virtually excluded from the growing body of research on women in management. This book has been written to fill this gap.

Pitching Hollywood Jonathan Koch, Robert Kosberg, 2004 Two successful movie and TV producers provide the reader with the tools needed to create, develop, and sell ideas to Hollywood. Producers Jonathan Koch (*Beyond the Glory*) and Robert Kosberg (*Deep Blue Sea*) are known as the Kings of Pitch. Movie Comics Blair Davis, 2017-01-03 As Christopher Nolan's Batman films and releases from the Marvel Cinematic Universe have regularly topped the box office charts, fans and critics alike might

assume that the “comic book movie” is a distinctly twenty-first-century form. Yet adaptations of comics have been an integral part of American cinema from its very inception, with comics characters regularly leaping from the page to the screen and cinematic icons spawning comics of their own. *Movie Comics* is the first book to study the long history of both comics-to-film and film-to-comics adaptations, covering everything from silent films starring Happy Hooligan to sound films and serials featuring Dick Tracy and Superman to comic books starring John Wayne, Gene Autry, Bob Hope, Abbott & Costello, Alan Ladd, and Dean Martin and Jerry Lewis. With a special focus on the Classical Hollywood era, Blair Davis investigates the factors that spurred this media convergence, as the film and comics industries joined forces to expand the reach of their various brands. While analyzing this production history, he also tracks the artistic coevolution of films and comics, considering the many formal elements that each medium adopted and adapted from the other. As it explores our abiding desire to experience the same characters and stories in multiple forms, *Movie Comics* gives readers a new appreciation for the unique qualities of the illustrated page and the cinematic moving image.

Culture, Inc Herbert I. Schiller, 1989 Most Americans take for granted that they live in an open society with a free market of ideas. But as Herbert Schiller reveals in *Culture, Inc.*, the corporate arm has reached into every corner of daily life, and from the shopping mall to the art gallery, big-business influence has brought about some frightening changes in American culture. Examining the effects of fifty years worth of corporate growth on American culture, Schiller argues that corporate control over such arenas of culture as museums, theaters, performing arts centers, and public broadcasting stations has resulted in a broad manipulation of consciousness as well as an insidious form of censorship. A disturbing but enlightening picture of corporate America, *Culture, Inc.* exposes the agenda and methods of the corporate cultural takeover, reveals the growing threat to free access to information at home and abroad, shows how independent channels of expression have been greatly restricted, and explains how the few keep managing to benefit from the many.

Television Goes to the Movies Jonathan Gray, Derek Johnson, 2021-03-16 Television and film have always been connected, but recent years have seen them overlapping, collaborating, and moving

towards each other in ever more ways. Set amidst this moment of unprecedented synergy, this book examines how television and film culture interact in the 21st century. Both media appear side by side in many platforms or venues, stories and storytellers cross between them, they regularly have common owners, and they discuss each other constantly. Jonathan Gray and Derek Johnson examine what happens at these points of interaction, studying the imaginary borderlands between each medium, the boundary maintenance that quickly envelops much discussion of interaction, and ultimately what we allow or require television and film to be. Offering separate chapters on television exhibition at movie theaters, cinematic representations of television, television-to-film and film-to-television adaptations, and television producers crossing over to film, the book explores how each zone of interaction invokes fervid debate of the roles that producers, audiences, and critics want and need each medium to play. From *Game of Thrones* to *The TV Set*, *Bewitched* to the Marvel Cinematic Universe, hundreds of TV shows and films are discussed. *Television Goes to the Movies* will be of interest to students and scholars of television studies, film studies, media studies, popular culture, adaptation studies,

production studies, and media industries.

The authors begin by outlining the contours of Indian cinema and the different regional language hubs that form part of the larger picture. The reader is then offered a glimpse into the actual process of making a film from day zero to release day. The key players in the Indian movie ecosystem are analysed, with the central role of the producer highlighted. Concluding with a look into the future of the entrepreneurial process in the Indian movie industry, the authors illuminate the shifting parameters of distribution and exhibition. Appealing to those interested in understanding the entrepreneurial journey of the Indian movie industry, the book provides a sneak peek into the business landscape of India more broadly.

Television Horror Movie Hosts Elena M. Watson, 2013-05-03 Midnight, 1954. A striking woman in a torn black dress slinks down a cobwebbed, candelabra'd corridor. She stops, shrieks hysterically into the camera, then solemnly says, "Good evening, I am Vampira." Her real name is Maila Nurmi and she was the first in a long line of television horror movie hosts, commonly seen on independent

stations' late-night "grade Z" offerings dressed as some zany ghoul or mad scientist. This book covers the major hosts in detail, along with styles and show themes. Merchandise tie-in and fan reactions are also chronicled. The appendices list film and record credits.
