Goetia of Shadows Michael Ford, Adam Iniquity, 2011-08 *GOETIA OF SHADOWS* is a beautifully illustrated new way of working with Goetic Sorcery from a Luciferian perspective. Goetia is a word which depicts 'sorcery' and is derived from ancient Greek descriptions of those who raise the shades of the dead by evocation, from which the word 'howling' is associated with. The sorcerers would howl and wail at the tombs the very words of power which commanded the spirits to manifest around them. We

see that the term goes sorcerer and psychagogos soul-charmer are associated with those who raise and gain power from the souls of the dead. The ancient rites of necromancy are the foundations and quite similar in approach to the Lemegethon and the original manuscripts. Goetic rites within this grimoire are focused on everyday mundane achievements within the world we live in. Knowledge, sex, power, revenge and defense are focused on here.

Cloud Native Java Josh Long, Kenny Bastani, 2017-08-11 What separates the traditional enterprise from the likes of Amazon, Netflix, and Etsy? Those companies have refined the art of cloud native development to maintain their competitive edge and stay well ahead of the competition. This practical guide shows Java/JVM developers how to build better software, faster, using Spring Boot, Spring Cloud, and Cloud Foundry. Malcolm Lowry's Poetics of Space Richard J. Lane, Miguel Mota, 2016-10-18 This collection focuses on Lowry's spatial dynamics, from the psychogeography of the Letterist and the Situationist International, through musical forms (especially jazz), cinema, photography, and spatial poetic writing, to the spaces of

exception, bio-politics, and the creaturely. It presents previously unpublished essays by both established and new international Lowry scholars, as well as innovative ways of conceiving of his aesthetic practice. In each of the book's three sections, critics engage in the notion of Lowry as a multi-media artist who influenced and was deeply influenced by a broad range of modernist and early postmodernist aesthetic practices. Acutely aware of and engaged in the world of film, sensitive to the role of the graphical surface in advertising and propaganda, and deeply immersed in a vast range of literary traditions and the avant-garde, Lowry worked within an intertextual space that is also a mediascape, one which tends to transgress, or at least exceed, neatly controlled borders or aesthetic boundaries. These new approaches to Lowry's life and work, which make use of new and recent theoretical perspectives, will encourage fresh debate around Lowry's writing. Publié en anglais.

The Numinous Legacy Adair Butchins,2002 Where is God in the universe if anywhere? Why did God make germs? Why should

we be so special? Could the universe have been different? This is a book that brings home, in no uncertain fashion, the discrepancy between the universe envisaged by the ancient sages and prophets and that of modern scientific cosmology, where the possibility of divine intervention looks less and less likely. Butchins demonstrates with clarity how the scientific method may be used, despite certain drawbacks, in an attempt to verify objective truth. It describes how the effect of the Copernican Revolution in the seventeenth century has steadily undermined the basic structure of the three great monotheistic religions of our day, Judaism, Christianity, and Islam, especially with respect to their eschatological concepts. The Eastern religions, being less anthropomorphic, are less affected. The theistic argument from design is shown to be powerful enough to have caused disagreement among present-day scientists, in spite of the strictures of Professor Dawkins. In general, the book attempts to make some sense of the structure of the universe in terms of our own consciousness; it behoves the reader to consider tha

A Darkness that Murmured Frederick Asals, Paul Tiessen, 2000
The Intriguing and Fresh Material Brought to Light in These Essays on Malcolm Lowry is sure to stimulate discussion and debate. With the publication of *Under the Volcano*, Lowry became a cult hero in literary circles on both sides of the Atlantic. This fascinating collection explores the life of the man -- including memoirs by people Lowry knew at important stages of his life -- and offers critical insight into his writings, including novels, poetry, and letters, three written when he was a schoolboy and undergraduate and two that he wrote in the last months of his troubled life. The essays in *A Darkness that Murmured* focus on a variety of issues: the literary manifestations of Lowry's tortured sexuality; notions of 'degeneracy' and 'degeneration' using contemporary theories of Havelock Ellis's; Lowry's travel fiction as the expression of 'intellectual migration' across class barriers; 'anxiety of influence' and the critical problem of Lowry's plagiarism. These essays, while diverse in approach and content, hang together remarkably well -- this is not only a collection of excellent essays but an excellent collection of essays. An essential addition to Lowry studies, this volume will captivate Lowry specialists and general readers alike.
