The Way of the VC Ying Tan, 2012-11-28 Venture Capital funds are the fastest growing sector of the financial industry, and possibly the least understood. In this book, the author provides a primer on what some of the world's best venture capitalists have in common. How do the world's top venture capitalists consistently obtain supernormal returns? How do they add value to entrepreneurs they have backed? Why is a top venture capitalist like a skilled chef? How did Lip Bu Tan, when he was Chairman of Walden, manage to invest in Creative Technology, despite the CEO's aversion for VCs? How did Nam Ho, Founder and Managing Partner of Altos Venture, turn an introduction by a Stanford Business School professor into a venture capital firm managing a quarter billion dollars of capital? How does Bing Gordon, Partner at Kleiner Perkins Caufield & Byers and author of the business plan that resulted in KPCB's investment in Electronic Arts, time exits properly? Why did Soo Boon Koh, Managing Director of IGlobe Ventures, back a GPS company which was filing for Chapter 11, in the post 9-11 market? *The Way of the VC: Having Top Venture Capitalists on Your Board* is essential reading for venture capital practitioners, including partners, principals, analysts, consultants and limited partners--both institutional and private. It is also useful to students of finance who want a better understanding of what goes on in the venture capital world.

Immersive Communication Qin Li, 2019-12-06 Communication, like the atmosphere itself, is ubiquitous and essential for humans and with the development of new technologies, such as wireless internet, 3D printing and virtual reality, it has become almost impossible to live without it. In addition, means of communication have changed immeasurably. This book proposes a new research paradigm that incorporates new features and factors of communication and a new theoretical framework named "immersive communication". Pointing out that communication today has moved beyond the bi-directional, mass communication of the second media age to ubiquitous, immersive communication in the third media age, the author discusses the definition, characteristics, information structure, and models of immersive communication using various examples including Fitbit, Apple, 4G and other technologies, while envisioning future applications of the immersive communication model. Scholars and students of communication studies, especially those interested in the manifestations of the new media age, will all benefit from this book. It will also appeal to readers interested in new media and communication theories.

Biographical Dictionary of New Chinese Entrepreneurs and Business Leaders Wenxian Zhang, Ilan Alon, 2009 The book is an outstanding compilation. It is easy to use, the information is clear and well-presented, and the volume is smart and robustly crafted. . . The book is an important reference source for practitioners in international business, entrepreneurs and Asian studies. Bob Duckett, Reference Reviews The current compilation fills the need for a Who's Who in the Chinese business world. . . This is a useful reference for scholars and students in China studies and for business practitioners. Recommended. K.T. Wei, Choice As direct foreign investment, both inward and outward, continues to gather momentum, the need to understand the leaders of Chinese corporations is increasingly important. The *Biographical Dictionary of New Chinese Entrepreneurs and Business Leaders* is therefore a welcome addition to corporate and academic libraries. in a variety of Chinese sources such as books, newspapers, journal articles, web pages, etc. and are difficult to locate, especially from outside of China. This biographical dictionary, written in English, which includes some 200 of the most important movers and shakers of the new Chinese economy since 1978, is a very useful reference tool for libraries of all types as well as for anyone who is interested in learning and understanding the growing influence of China as a new economic power in the world. Hwa-Wei Lee, formerly of the Library of Congress, and Ohio University Libraries This impressive effort by two leading scholars of Chinese business and society will quickly become a reference for all students and practitioners. Indeed, it is a ready vade mecum, filling the crying gap many experts have identified in recent years. This work will set the standard for its successors: independent in its analytical assessments, broad-spectrum in its choice of entry, far-sighted in its selections. John R. McIntyre, Georgia Institute of Technology, US The book is a must-have for any student, library, executive or entrepreneur contemplating the business environment in China. In an important society where clout is paramount and relationship is key, the book's listing of Who's Who in China is essential to success. An essential read for anyone thinking of doing business in China! J. Mark Munoz, Munoz and Associates International and author of *A Salesman in Asia* For anyone interested in interacting with China, whether doing business or not, it would be advantageous to know thy foe and thyself, as Sunzi (Sun Tzu) put it. And this work will definitely be conducive to your gaining an insight on contemporary China and its economic boom. It can be used as a reference tool or read as a textbook. Highly recommended for college and public libraries. Shixing Wen, Editor-in-Chief, Chinese Librarianship, Former President, Chinese American Librarians Association and Councilor, American Library Association This exhaustive resource provides comprehensive coverage of the major players in the Chinese economy since the reform era, which began in 1978. It includes 200 entries briefly summarizing each individual's life and career, with a central focus on his or her accomplishments and the key roles played in the economic development of China. The emphasis of the book is on the movers and shakers of China's new economy, highlighting notable figures from both the initial economic liberalization period and the renewed growth from the early 1990s to the present time. This invaluable dictionary is the result of collaborative efforts across the globe. Over forty scholars from the United States, mainland China and Taiwan, United Kingdom, Germany, F

The Politics of HIV/AIDS in Russia Ulla Pape, 2013-10-01 This book studies the role of civil society organisations in the fight against HIV/AIDS in Russia. It looks at how Russia's HIV/AIDS epidemic has developed into a serious social, economic and political problem, and how according to the United Nations Programme on HIV/AIDS (UNAIDS), Russia is currently facing the biggest HIV/AIDS epidemic in all of Europe with an estimated number of 980,000 people living with HIV in 2009. The book investigates civil society organisations' contribution to social change and civil society development in post-Soviet Russia, and thus situates a specific type of civil society actors into a broader socio-political context and questions their ability to represent civic interests, particularly in the field of social policy-making and health. This allows for a better understanding of the dynamics of state-society relations in present-day Russia, and gives insight into the ways HIV/AIDS NGOs in Russia have used transnational ties in order to exert influence on domestic policy-making in the field of HIV/AIDS.

The End of Copycat China Shaun Rein, 2014-10-20 China's changing course, and sustainable success requires a shift in strategy The End of Copycat China helps business executives and investors understand how China's economy is shifting from one based on heavy investment to one on services and consumption by providing insight that help shape effective strategy. Drawing from over 50,000 interviews with entrepreneurs, venture capitalists, private equity investors, private Chinese companies, and multinationals, this book describes how Chinese firms are

and risk-perception within government regulators, operating companies and investment entities, and thus they have Public Policy implications. The legal analysis uses applicable US case-law and statutes (which have been copied by many countries, and are similar to those of many common-law countries). Using Qualitative Reasoning, Capital Dynamics Theory (a new approach introduced in this book), Critical Theory and elements of Mechanism Design Theory, the book aims to enhance cross-disciplinary analysis of the above-mentioned issues; and to help researchers build better systems/Artificial-Intelligence/mathematical models in Financial Stability, Portfolio Management, Policy-Analysis, Asset Pricing, Contract Theory, Enforcement Theory and Fraud Detection. The primary audience for this book consists of university Professors, PHD students and PHD degree-holders (in industries, government agencies, financial services companies and research institutes). The book can be used as a primary or supplementary textbook for graduate courses in Regulation; Capital Markets; Law & Economics, International Political Economy and or Mechanism Design (Applied Math, Operations Research, Computer Science or Finance).

China's iGeneration Matthew D. Johnson, Keith B. Wagner, Luke Vulpiani, Kiki Tianqi Yu, 2014-05-22 This innovative collection of essays on post-WTO Chinese cinema features contributions from an international community of scholars in the fields of media and film studies, comparative literature, and history. The iGeneration describes a post-cinematic, post-reform era phenomenon in China where the production, distribution and consumption of films increasingly take a digital form and the flow of images parallels that of capital. By calling attention to a wide range of agendas since 2001 - nation-building, market diffusion, cultural capital, self-understanding, regional deviance, social justice - as well as functions e.g. state didacticism, commodified leisure, personal expression, virtual surveillance, worldly connoisseurship - iGeneration offers Chinese moving image culture at its most diverse. From experimental documentaries to 3-D films, animation and video art, to visual aides-memoires and piracy films, the essays in China's iGeneration offers novel interpretations of how cinema and generation have been redefined.

Plugged-In Parenting Bob Waliszewski, 2011-10-14 Plugged-In Parenting comes at a time when parents find

themselves between a rock and a hard place. They want to protect their children from the increasingly violent and sexualized content of movies, TV, the Internet, and music as well as cyberbullying and obsessive cell phone texting. But they fear that simply “laying down the law” will alienate their kids. Can parents stay connected to the media while staying connected to God and to each other? This book makes a powerful case for teaching kids media discernment, but doesn’t stop there. It shows how to use teachable moments, evidence from research and pop culture, Scripture, questions, parental example, and a written family entertainment constitution to uphold biblical standards without damaging the parent-child relationship.
