*Evolución de las startups en el mundo del libro* Javier Celaya,Kershama St. Luce,José Antonio Vázquez,2017-05-20 Las startups hoy nos resultan a todos familiares, sobre todo a la hora de hablar de emprendimiento y tecnología en cualquier ámbito empresarial. Aunque es un término que desde hace tres o cuatro años se emplea con mayor frecuencia, en realidad es algo de que algunos –entre ellos nosotros en Dosdoce- hemos venido hablando desde hace años al compartir y analizar la relación de las nuevas tecnologías con, en nuestro caso, el sector cultural y ahora en concreto con el sector editorial y en el mundo del libro, en general. Este informe trata de ofrecer una instantánea general actual para retomar el debate e incluso a conseguir una mayor voluntad de inversión, dado que el editorial -como el sector cultural en general- no es un campo que destaque por sus inversiones en este tipo de empresas emergentes. El estudio nace de la iniciativa de Thad McIlroy -involucrado desde finales de los 90 en el trabajo de empresas tecnológicas aplicadas al mundo del libro, tanto como inversor como consultor-, que publicó a finales de 2016 el informe 'An Authoritative Look at Book Publishing Startups In the United States', donde se da una relación actual de cerca de 900 startups en relación al mundo del libro y que se comenzó a compilar a comienzos de 2012. La lista actualizada que aporta Thad (y que acompaña a este documento ahora también actualizado por nosotros) nace de una lista que Michael Bashkar ya había elaborado, de modo que en ese momento ambos estaban en la misma labor recopilatoria. En Dosdoce.com hemos querido darle un enfoque más global fijándonos sobre todo en el espectro español y latinoamericano, y añadiendo ejemplos europeos.

**Partnerships in Healthcare** Anthony L. Suchman,Richard J. Botelho,Patricia Hinton Walker,1998 In these 28 studies, health-care professionals offer both theoretical and practical approaches to improving the quality of partnership skills practised within the American health-care system. They pursue an alternative approach to working with others - one that is based on procedure and relationship, rather than control - and their researches have implications for health-care systems throughout the developed world, but particularly in western Europe.

The Practical Playbook II J. Lloyd Michener,Brian C. Castrucci,Don W. Bradley,2019 The definitive guide to the secret sauce of improving public and population health Nontraditional collaborations have produced some of the most sweeping, health-improving results in recent memory. But whether it's public/private, cross-discipline, or interagency, the formula for identifying these partnerships -- not to mention making them work -- remains very much in progress. The Practical Playbook II is the first resource to elucidate what works (and what doesn't) when it comes to collaborating for change in and around health. It brings together voices of experience and authority to answer this topic's most challenging questions and provide guideposts for applying what they've learned to today's thorniest problems. Readers will find answers to common and advanced questions around multisector partnerships, including: · Identifying sectors and actors that can help to collaborate to improve health · Best practices for initial engagement · Specifics related to collaborations with government, business, faith communities, and other types of partners · The role of data in establishing and running a partnership · Scaling up to maximize impact and remain sustainable · The role of financing · Implications for policy Written in practical terms that will resonate with readers from any background and sector, The Practical Playbook II is the resource that today's helping professions need -- and a roadmap for the next generation of health-improving partnerships.

**Sigils and Totems** William Meikle,2017-10-20 Available for the first time in a collection, three of William Meikle's Sigils and Totems novellas–The Job, Broken Sigil, and Pentacle. THE JOB Dave Wilson is down on his luck, with gambling debts coming due. He takes on a risky burglary at a Scottish country house, but the job goes badly wrong, and all too soon Dave is embroiled in a fight he wants no part of—an ages-old battle for ownership of the house. Opposing factions are at work, and both want Dave's help. There are demons to fight, both metaphorical and literal, and there are hard choices to be made, if Dave has the strength to make them. BROKEN SIGIL There are houses like this all over the world. Most people only know of them from whispered stories over campfires; tall tales told to scare the unwary. But some, those who suffer...some know better. They are drawn to the places where what ails them can be eased. If you have the will, the fortitude, you can peer into another life, where the dead are not gone, where you can see that they thrive and go on, in the dreams that stuff is made of. When a New York cop is called to investigate a murder at one such house, he is sucked in to a world he cannot fathom, cannot control, a place where past and present have no meaning, and where symbols and memories are as valid as facts and truths. The black bird is speaking, but can he afford to listen? PENTACLE There are houses like this all over the world. Most people only know of them from whispered stories over campfires; tall tales told to scare the unwary. But some—those who suffer—know better. They are drawn to these places to ease their pain. If you have the will, the fortitude, you can peer into another life, where the dead are not gone, where your love might live forever. But that's not the case for the residents of the Edinburgh house, for something has disturbed the quiet reflection in that old building. A creature has slipped through, sniffing and snuffing in all the dark places, disrupting the balance of time and space. And it's John's job to fix it...by any means necessary.
