Adrian George Traas

From the Golden Gate to Mexico City Adrian George Traas,1993

The Burning of the Valleys Gavin K. Watt,1997-03-01 In the fifth year of the War of Independence, while the Americans focused on the British thrust against the Carolinas, the Canadian Department waged a decisive campaign against the northern frontier of New York. Their primary target was the Mohawk River region, known to be the grainbowl that fed Washington's armies. *The Burning of the Valleys* details the actions of both sides in this exciting and incredibly effective British campaign. General Frederick Haldimand of Canada possessed a potent force, formed by the deadly alliance of toughened, embittered Tories, who had abandoned their families and farms in New York and Pennsylvania to join the King's Provincial regiments in Canada, and the enraged Six Nations Iroquois, whose towns and farmlands had been utterly devastated by Continentals in 1779. The Governor augmented this highly motivated force with British and German regulars and Canadian Iroquois. In October, without benefit of modern transportation, communications or navigational aids, four coordinated raids, each thoroughly examined in this book, penetrated deeply into American territory. The raiders fought skirmishes and battles, took hundreds of prisoners, burned forts, farms, and mills and destroyed one of the finest grain harvests in living memory.

Creek Internationalism in an Age of Revolution, 1763-1818 James L.

Hill, 2022-07 Creek Internationalism in an Age of Revolution, 1763-1818 examines how Creek communities and their leaders remained viable geopolitical actors in the trans-Appalachian West well after the American Revolution. The Creeks pursued aggressive and far-reaching diplomacy between 1763 and 1818 to assert their territorial and political sovereignty while thwarting American efforts to establish control over the region. The United States and the Creeks fought to secure recognition from the powers of Europe that would guarantee political and territorial sovereignty: the Creeks fought to maintain their connections to the Atlantic world and preserve their central role in the geopolitics of the trans-Appalachian West, while the American colonies sought first to establish themselves as an independent nation, then to expand borders to secure diplomatic and commercial rights. Creeks continued to forge useful ties with agents of European empires despite American attempts to circumscribe Creek contact with the outside world. The Creeks' solicitation of trade and diplomatic channels with British and Spanish colonists in the West Indies, Canada, and various Gulf Coast outposts served key functions for defenders of local autonomy. Native peoples fought

to preserve the geopolitical order that dominated the colonial era, making the trans-Appalachian West a kaleidoscope of sovereign peoples where negotiation prevailed. As a result, the United States lacked the ability to impose its will on its Indigenous neighbors, much like the European empires that had preceded them. Hill provides a significant revisionist history of Creek diplomacy and power that fills gaps within the broader study of the Atlantic world and early American history to show how Indigenous power thwarted European empires in North America.

Gavin K. Watt's Revolutionary Canadian History 5-Book Bundle Gavin K. Watt, 2014-07-02 This special bundle collects five titles by military history specialist Gavin K. Watt. This series has a unique focus: The American War of Independence viewed from the perspective of British operations in the north. The Burning of the Valleys concerns a decisive campaign against the northern frontier of New York in the fifth year of the war. A Dirty, Trifling Piece of Business is about operations in the sixth year, including in the south. In Poisoned by Lies and Hypocrisy, Watt explores the first two campaigns of the American Revolution through their impact on Canada and describes how a motley group of militia, American loyalists, and British regulars managed to defend Quebec and repel the invaders. Rebellion in the Mohawk Valley concerns the campaign that led to the destruction of British-held Fort Ticonderoga. These titles are essential reading for military history, early Canadian history, and War of Independence history buffs. Includes: The Burning of the Valleys A

Moss, 2017-02-01 Historian David Moss adapts the case study method made famous by Harvard Business School to revitalize our conversations about governance and democracy and show how the United States has often thrived on political conflict. Fort McAllister Roger S. Durham, 2004 Many earthen fortifications defended the city of Savannah and its numerous water approaches after the Civil War broke out. One of these defenses, Fort McAllister, protected the entrance to the Ogeechee River and the strategic railroad and highway bridges upstream. From November 1862 to March 1863 the U.S. Navy bombarded the fort seven different times without success. The fort finally fell to General Sherman in December 1864; ironically, the final threat the fort faced was not from an enemy trying to get up the river, but from one trying to get down the river to the sea. In the 1920s auto magnate Henry Ford renovated the fort and focused new attention on its history.

Blood Lines S. Thomas Bailey, 2014-08-26 It is late autumn 1756, Jacob Murray and a band of rangers are locked in desperate pursuit of a Delaware raiding party that overran and massacred the garrison at Fort Stevens. Among the women and children taken prisoner is Jacob's wife, Maggie. Driven by guilt and anger, Jacob sets a furious pace that leads his men into dangerous unknown territory. Meanwhile the fate of the prisoners is made all the more tenuous when raiding party scouts report the death of Chief Tewea at Kittanning, and Maggie will soon be forced to reconsider everything she has ever thought about the 'savages' that have inflicted such havoc on her life. In a world at war where blood debts are constantly paid and incurred, decisions made can change the course of lives forever. For Maggie, Jacob and their son James, the pull of their blood will draw them into a winter none of them could foresee. The fourth book in the award-winning Gauntlet Runner series, Blood Lines once again transports readers to colonial America during the French and Indian War and offers a clear unsentimental glimpse into the history of the period through the eyes of its characters.

Papa and Fidel Karl Alexander, 2010-04-27 This novel about fathers and sons, hope and redemption, the author of Time After Time brilliantly evokes cultural icons in a thriller that captures the essence of its famous protagonists in a poignant, compelling drama that just might have been true. Cuba, 1957: Ernest Hemingway, long a resident of Cuba, is past his prime, feeling old, and fighting the twin problems of liver disease and writer's block. Then he meets Fidel Castro, who, in the Sierra Maestra mountains, is building a growing force of idealistic young guerrillas, determined to overthrow the corrupt, bloated regime of Generalissimo Fulgencio Batista. After Castro wins his revolution and takes power, he and Hemingway grow to respect and admire each other, and Hemingway helps Castro heal his relationship with his estranged son Fidelito, showing the boy how to throw a curve ball, something that eluded his father and kept him from pitching in the major leagues. Like Time After Time, this is a rousing novel that brings a famous author to vivid life in a great story of a memorable time. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.
