My Life: Everything but BUY THE BOOK Scott Ludwig,2013-08-19 To: Editor, Atlanta Journal-Constitution I believe your newspaper has been missing something for the last two decades. In fact it was the original reason I became a loyal subscriber in the first place: the thriceweekly columns of my all-time favorite writer, the late, great Lewis Grizzard. Trust me when I say that as a loyal University of Florida graduate it's difficult for me to admit there is actually something good that came out of the University of Georgia, and that something would be Lewis Grizzard. Born and raised in nearby Moreland (I reside in Peachtree City, Georgia), Grizzard had a major influence on my writing style. This is my sixth self-published book; one of them sold so well a publisher came a-calling to buy the rights to it. Now I'd like to take my writing to the next level. That's where you come in. Consider this book as both my job application and resume for a position on your editorial staff. Everything here on the back cover is my cover letter to you. I leave you with one simple question: When do I start?

Classic Joints with Power Tools Yeung Chan,2002 "Chan takes you through the steps required to make the joint even the most exotic joint will seem easy to make."—Canadian Woodworking. "Outstanding instructions, illustrations, and colorful photos...All skill levels; should be part of most public library collections."—Library Journal. "Excellent....The adaptable approach, combined with the sheer number of joints covered, makes this one of the best books on joinery that I've seen."—Fine Woodworking.

The Woodwright's Apprentice Roy Underhill,2012-01-01 For more than twenty years, Roy Underhill has taught the techniques of traditional woodcraft with muscle-powered tools. With his four previous books and his popular PBS series, The Woodwright's Shop, now in its sixteenth season, Roy has inspired millions to take up chisel and plane. The master woodwright returns here with instructions for handcrafting an appealing selection of projects from the American woodworking tradition. The Woodwright's Apprentice begins with directions for building a workbench. Each successive project builds new skills for the apprentice woodworker--from frame construction to dovetailing, turning, steam-bending, and carving. Among the twenty items featured are an African chair, a telescoping music stand, a walking-stick chair, a fireplace bellows, and a revolving Windsor chair. Designed both for woodworking novices and for more seasoned woodworkers looking for enjoyable projects, the book includes step-by-step directions, complete with easy-to-follow photographs and measured drawings, and an illustrated glossary of tools and terms. All of the pieces presented here are based on projects featured in past and upcoming seasons of The Woodwright's Shop television show.
