Future Times, Future Tenses Philippe de Brabanter,Mikhail Kissine,Saghie Sharifzadeh,2014 This volume examines the expression of the future in a range of diverse languages and from a variety of theoretical perspectives. It reveals the value of linking linguistic considerations of tense and aspect to philosophical approaches to modality and time and will be a valuable resource for all those working on time, tense, and temporal reference.

Ancient-Future Time (Ancient-Future) Robert E. Webber,2004-10-01 Millions of Christians worldwide follow the liturgical Christian calendar in their worship services and in their own personal devotions. The seasons of the Christian year connect believers of diverse backgrounds and offer the sense of unity Jesus desired. Robert Webber believes that we can get even more out of the Christian calendar. He contends that through its rich theological meanings the Christian year can become a cycle for evangelism and spiritual formation. He offers pastors, church leaders, and those of the younger evangelical mind-set practical steps to help achieve this end, including preaching texts and worship themes for Lent, Easter, Pentecost, Advent, and Christmas.

Time Future Maxine McArthur,2008-12-14 In the universe of enigmatic aliens & complex politics, one woman must entangle interlocking mysteries in a race against time. Halley must solve the mystery of a locked room in closed space, before Jocasta erupts in an explosion of terror & death.

Once Upon a Future Time Deanna Young,Erik Peterson,2018-07 Seven authors retell their favorite fairy tales as science fiction adaptations. Adventuring to the far reaches of space and the not too distant future these tales explore what would happen if the tales we've always known were to have taken place in a futuristic setting.

Knowing Future Time In and Through Greek Historiography Alexandra Lianeri,2016-03-07 From the early modern period, Greek historiography has been studied in the context of Cicero's notion *historia magistra vitae* and considered to exclude conceptions of the future as different from the present and past. Comparisons with the Roman, Judeo-Christian and modern historiography have sought to justify this perspective by drawing on a category of the future as a temporal mode that breaks with the present. In this volume, distinguished classicists and historians challenge this contention by raising the question of what the future was and meant in antiquity by offering fresh considerations of prognostic and anticipatory voices in Greek historiography from Herodotus to Appian and by tracing the roots of established views on historical time in the opposition between antiquity and modernity. They look both at contemporary scholarly argument and the writings of Greek historians in order to explore the relation of time, especially the future, to an idea of the historical that is formulated in the plural and is always in motion. By reflecting on the prognostic of historical time the volume will be of interest not only to classical scholars, but to all who are interested in the history and theory of historical time.

Future Time Perspective and Motivation Joseph Nuttin,2014-04-04 First published in 1985. The present volume is a theoretical and methodological supplement to the Nuttin's book 'Motivation, planning and action: A relational theory of behaviour dynamics', in which he showed that behaviour dynamics in man, due to their interaction with higher cognitive functioning, are processed into goals and means-end structures- that is behavioural projects or plans. The main purpose of the theoretical section of this book is to contribute to the integration of the future time dimension on the study of human motivation and behaviour. The main part is then devoted to a two-step method for studying the content and density of a person's future time perspective and for measuring its depth or extension.

Exiles from a Future Time Alan M. Wald,2012-12-01 With this book, Alan Wald launches a bold and passionate account of the U.S. Literary Left from the 1920s through the 1960s. *Exiles from a Future Time*, the first volume of a trilogy, focuses on the forging of a Communist-led literary tradition in the 1930s. Exploring writers' intimate lives and heartfelt political commitments, Wald draws on original research in scores of archives and personal collections of papers; correspondence and interviews with hundreds of writers and their friends and families; and a treasure trove of unpublished memoirs, fiction, and poetry. In fashioning a humanscape of the Literary Left, Wald not only reassesses acclaimed authors but also returns to memory dozens of forgotten, talented writers. The authors range from the familiar Mike Gold, Langston Hughes, and Muriel Rukeyser to William Attaway, John Malcolm Brinnin, Stanley Burnshaw, Joy Davidman, Sol Funaroff, Joseph Freeman, Alfred Hayes, Eugene Clay Holmes, V. J. Jerome, Ruth Lechlitner, and Frances Winwar. Focusing on the formation of the tradition and the organization of the Cultural Left, Wald investigates the elective affinity of its avant-garde poets, the Afro-cosmopolitanism of its Black radical literary movement, and the uneasy negotiation between feminist concerns and class identity among its women writers.

Once Upon a Future Time Jan Nattier,1991 An in-depth study of Buddhist theories of the decline and disappearance of their own religion. Nattier's work challenges previous assumptions on this topic and focuses on the critical study of the Kausambi Story, a Buddhist prophecy of decline, in its Tibetan, Central Asian, and Chinese variants.

Back to the Future: Telling Time with Marty McFly Insight, 2020-10-20 Learn to tell time with Marty McFly! Turn the wheel to find the correct clock that matches the time on each page following a typical day with Marty, Doc Brown, and Einstein.

No Time Like the Future Michael J. Fox, 2020-11-17 INSTANT NEW YORK TIMES BESTSELLER A moving account of resilience, hope, fear and mortality, and how these things resonate in our lives, by actor and advocate Michael J. Fox. The entire world knows Michael J. Fox as Marty McFly, the teenage sidekick of Doc Brown in Back to the Future; as Alex P. Keaton in Family Ties; as Mike Flaherty in Spin City; and through numerous other movie roles and guest appearances on shows such as The Good Wife and Curb Your Enthusiasm. Diagnosed at age 29, Michael is equally engaged in Parkinson's advocacy work, raising global awareness of the disease and helping find a cure through The Michael J. Fox Foundation for Parkinson's Research, the world's leading non-profit funder of PD science. His two previous bestselling memoirs, Lucky Man and Always Looking Up, dealt with how he came to terms with the illness, all the while exhibiting his iconic optimism. His new memoir reassesses this outlook, as events in the past decade presented additional challenges. In No Time Like the Future: An Optimist Considers Mortality,

Michael shares personal stories and observations about illness and health, aging, the strength of family and friends, and how our perceptions about time affect the way we approach mortality. Thoughtful and moving, but with Fox’s trademark sense of humor, his book provides a vehicle for reflection about our lives, our loves, and our losses. Running through the narrative is the drama of the medical madness Fox recently experienced, that included his daily negotiations with the Parkinson’s disease he’s had since 1991, and a spinal cord issue that necessitated immediate surgery. His challenge to learn how to walk again, only to suffer a devastating fall, nearly caused him to ditch his trademark optimism and “get out of the lemonade business altogether.” Does he make it all of the way back? Read the book.
