Academic Advancement in Composition Studies Richard C. Gebhardt,Barbara Genelle Smith Gebhardt,2013-10-16 This volume deals with a number of related issues that are becoming increasingly crucial for English studies during this time when most faculty in the field are assistant professors approaching tenure review or associate professors seeking promotion. These critical issues focus on: * The diversity of research and scholarly publication in composition studies; * The fact that composition studies faculty are often evaluated by personnel committee members, department chairs, and deans unfamiliar with the nature and demands of the field; * The way that American higher education is rethinking scholarship and the role it plays in the work and evaluation of faculty members; and * The role composition studies faculty can play in this review of scholarship and professional advancement. This book seeks to address the entire spectrum of composition studies -- expository and argumentative writing, personal essay, literary nonfiction, technical and business writing, historical rhetoric, empirical research, and more -- by understanding the nature of and evaluating the work of faculty members in this broad field. Scholarship and advancement issues are discussed in a variety of situations including basic and regular first-year composition classes at four-year and two-year institutions or writing centers, advanced writing courses, ESL and skills-development programs, and writing classes and programs for teachers, administrators, and researchers. The chapters focus on a variety of subjects, including the importance of mentoring and faculty development in all departments and institutions; and how young scholar-teachers and assistant professors can prepare for a successful personnel or tenure review.

Quality in Action Patrick L. Townsend,Joan E. Gebhardt,1997-04-01 Townsend and Gebhardt's book will quickly become known as the rational person's guide to BS-less quality improvement. It's a must read. — Ron Zemke President, Performance Research Associates coauthor, *Delivering Knock Your Socks Off Service* Not only penetrating and revealing, it is also entertaining, which probably fractures both rules and records for this kind of literature. — Howard K. Smith With power and style, *Quality in Action* redefines competitive advantage for our march into the next century. — Allan Cox author of *Straight Talk for Monday Morning* *Quality in Action* is not only exhortation, it is a road map. Townsend and Gebhardt have taken much of the fear and mystery out of total quality management. — Ann McLaughlin former Secretary of Labor founder of the Workforce Quality Commission *Quality in Action* is a superb tool for teaching and learning the nuts and bolts of quality management. Pick up the book and start reading. — Vice Admiral James A. Zimble, M.D. former Surgeon General, U.S. Navy President, Department of Defense Medical School
