French Feminism Danielle Haase-Dubosc, 2003-04-08 Feminism in France has a long and continuous history which stretches right back to the Middle Ages where one finds texts by women denouncing inequality and the unjust subordination of their sex. In the late sixties and early seventies of this century, however, one finds a radical break with the feminism that preceded it. Marked by a libertarian culture influenced by Marxism, socialism and psychoanalysis, the feminism of the 1970s rejected the reformist and legal vision of women's emancipation, politicised the private sphere, and demanded social and political equality. This remarkable anthology of 35 texts, freshly translated for this volume, vividly maps the terrain of French feminism in its contemporary context from the 1970s onwards. Bringing together the seminal writings of both scholars and activists, the volume will help readers to grasp the questions, the challenges, and the progress of reflection. The essays are divided into seven sections: - The Women's Liberation Movement in France - Women and Creativity - Writing History / Rewriting History - Race, Class, Gender - Legal Bodies / Women's Bodies - Occupying / Capturing Political Space - Feminists Defetishize Theory - Feminist Mappings Overall, this absorbing volume gives voice to the extraordinary range of contemporary French feminism. Each section is preceded by an introduction which places the contributions in their material and social contexts to show how French feminism has evolved in response to concrete struggles and institutional constraints as much as to sophisticated intellectual discourse. Given its unique comparative framework and wide-ranging coverage, this volume will attract the attention of students and scholars in the fields of feminism, gender and women's studies, sociology, history, literature, anthropology, and philosophy.

The Lost Legacy of the Nilgiris Indrani Radhakrishnan, 2022-01-06 The book has a background of more than 10 years of research. Nilgiris has a rich history and heritage as it was the summer capital of the Madras Presidency. Many of the annual tourism events, held in the district headquarters of Ootacamund or better known as Ooty, are still the remnants of the British colonisation. The idea occurred when the author found many attractive old British buildings and became interested in their history. Soon she realized that many little details are not included in history books, and therefore she decided to pen down all her investigations for the Nilgiris people. Nilgiris is in a way lucky to have been the summer capital, here the level of the English language is good, buildings have stood the test of time and people have adapted to many changes. It is sincerely hoped that this book will enhance people's knowledge and improve their awareness of the rich local history and heritage to preserve them. As it is a

favourite haunt of tourists, it also has a splash of tourism-related information. Therefore, this book will be cherished and preserved by anyone who loves the Nilgiris, which was once known as the Nila mountain where Goddess Nila Devi was presumed to have lived.

A Gestalt Aether Theory on the Nature of Light and Related Phenomena Dilip D James, 2017-08-04 Gestalt Aether Theory recognizes that a reality must exist outside of the ordered Universe that we live in, but claims that it is a reality that is represented by chaos, where anything can and does happen; where multiple Universes are possible and where time, place and causality have no meaning. Gestalt Aether Theory explains physics in terms of the ordered Universe that we live in; quantum mechanics and Standard Theory attempt to explain physics in terms of the chaos that exists outside of the ordered universe. Take for instance the propagation of light from a point A to a point B situated a hundred meters away. Quantum mechanics would have one believe that from the time that light leaves the point of origin to the time that it is detected, that it ceases to have a corporeal existence and exists instead as a probability wave-function. In this state it is everywhere and nowhere at once, in order to cover the hundred meters from point A to B it has to first enter into multiple Universes (hence the multi-verse theory). GAT on the other hand explains the propagation of light from A to B in terms that reflect reality. According to Gestalt Aether theory light travels through a medium and as a consequence spreads out in accordance with the inverse square law. GAT, states that light is a wave possessing some of the characteristics of a particle, somewhat like the ultrasonic sound waves used in lithotripsy, where a sound wave is used to break stones; namely a wave that possesses some of the properties of a particle, and can therefore retain its individual energy (Identity) independently of the intensity of the wave. Thus light in GAT (Gestalt Aether Theory) propagates just as any other wave travelling in a medium. It follows the same rules as the waves that are created when a stone is dropped into a pool of water. The whole of the ordered Universe, including gravity, neutrinos, radio-waves and super-conductivity are explained in similar terms.

Nilgiri Mountain Railway (NMR) V.M. Govind Krishnan, 2018-03-01 This book is a tribute to the relentless campaign by railway enthusiasts and the public of the Nilgiri Hills to keep the beautiful engineering marvel in running condition. Their untiring effort continues to this day, and it is largely due to this, that the unique railway was recognized as a World Heritage Site by UNESCO on July 15, 2005. This is a rare compilation of published materials on NMR, analyzed and written in eloquent English, which will interest anyone who likes the NMR or people's

initiatives to propel such actions to save the unique lifeline from oblivion. The book serves as an almanac on Nilgiri Mountain Railway (NMR) with the events chronologically arranged to depict the true picture and more so the public opinion which helped to thwart the Government's moves to close the line. ~ The New Indian Express

Hindu Approaches to Spiritual Care Lucinda Mosher,Vineet Chander,2019-10-21 Showing how spiritual care is practiced in a variety of different contexts such as healthcare, detention and higher education, as well as settings that may not have formal chaplaincy arrangements, this book offers an original and unique resource for Hindu chaplains to understand and practice spiritual care in a way that is authentic to their own tradition and that meets the needs of Hindus. It offers a Hindu perspective for all chaplains to inform their caregiving to Hindus. The book explores the theological and metaphysical roots of Hindu chaplaincy and puts forward the case for Hindu chaplaincy as a valuable spiritual practice. It covers the issues that arise in specific locations, such as college, healthcare, prison, military and the corporate sector. Chapters also examine Hindu pastoral care offered in other, 'non-chaplaincy' settings, such as LGBT centres, social justice work and environmental activism. Made up of some 30 essays by chaplains, scholars and other important voices in the field, Hindu Approaches to Spiritual Care provides spiritual caregivers with a comprehensive theoretical and practical approach to the relationship of Hinduism and chaplaincy.

From Fission to Fusion Malur Ramaswamy Srinivasan,2002 From Fission to Fusion provides an insider's view of breakthrough science. Dr M.R. Srinivasan explains the birth and development of India's atomic energy programme, which grew with his own career from a senior research officer in the 1950s to the chairman of the Atomic Energy Commission and secretary of the Department of Atomic Energy (1987-90). This engrossing memoir explains how a team comprising India's leading physicists, chemists, engineers, metallurgists and other scientists came together to develop an atomic energy programme from scratch and take India into the forefront in this technology in a remarkably short time. Srinivasan relives the excitement of the days when India's first reactor, Apsara, went into operation in 1956. The success of that endeavour led to the generation of nuclear power at six locations throughout the country. Indian industry was mobilized to participate in the execution of the pressurized heavy water reactor programme and will be engaged in building enriched-uranium reactors and fast breeder reactors involving another leap in technology. These advancements are some of the many challenges Srinivasan puts in an economic and historical context. Alongside the account of the programme's giant strides is a moving portrayal of the people who made it possible and their extraordinary qualities as motivators. Ranking in the pantheon are Homi Bhabha, Vikram Sarabhai, Homi Sethna, Brahm Prakash and N.B. Prasad. What stands out at the end of this compelling tale is an endeavour of high calibre whose contribution to the pride of an independent nation goes well beyond the equations of science.

Getting Off Lee Breuer, 2019-07-16 Since he first arrived on the New York art/theatre/performance scene in 1970, Lee Breuer has been at the forefront of the American theatrical avant-garde, creating challenging works both independently and with Mabou Mines, the company he co-founded with JoAnne Akalaitis, Philip Glass, Ruth Maleczech, and David Warrilow. By blending disciplines and techniques from widely different cultures, he has created a unique performance genre fusing sound and musical components, visual arts, and arresting movement/dance/puppetry into a groundbreaking form. Breuer's work as a director includes radical adaptations of major works, such as his celebrated stagings of *The Lost Ones* by Samuel Beckett, *The Gospel at Colonus*, inspired by Sophocles, a gender-reversed *King Lear*, and a revolutionary reinterpretation of Ibsen with Mabou Mines *DollHouse*. Breuer has also been a prolific writer who redefines the concept of character and the use of biography in such works as *The Shaggy Dog Animation*, *A Prelude to Death in Venice*, *Hajj*, *Ecco Porco*, and *La Divina Caricatura* in a distinctive American voice. In this volume, theatre historian and journalist Stephen Nunns has assembled a unique look into one of contemporary theatre's most singular creative minds. Using interviews and excerpts from Breuer's writings, with added historical commentary, the thrilling result is equal parts autobiography, artistic manifesto, and critical exploration. Extensively illustrated with photographs of his work from around the world, this is a one-of-a-kind portrait of the artist and theatrical activist at work.

Defending Our Dreams Shamillah Wilson, Anasuya Sengupta, Kristy Evans, 2005-10 This book brings together analyses by feminists of diverse identities on themes including women's rights and economic change, new technologies, sexuality, feminist organizations and movements. It presents key issues arising out of the experiences of young women living in both North and South, the challenges confronting young feminists, and the agenda for a new era of feminist leadership and activism.

Fires in the Mirror Anna Deavere Smith, 2015-01-21 Derived from interviews with a wide range of people who experienced or observed New York's 1991 Crown Heights racial riots, *Fires In The Mirror* is as distinguished a work of commentary on black-white tensions as it is a work of drama. In August 1991 simmering tensions in the racially polarized Brooklyn, New York, neighborhood of Crown Heights exploded into riots after a black boy was killed by a car in a rabbi's motorcade and a Jewish student was slain by blacks in retaliation. *Fires in the Mirror* is dramatist Anna Deavere Smith's stunning exploration of the events and emotions leading up to and following the Crown Heights conflict. Through her portrayals of more than two dozen Crown Heights adversaries, victims, and eyewitnesses, using verbatim excerpts from their observations derived from interviews she conducted, Smith provides a brilliant, Rashoman-like documentary portrait of contemporary ethnic turmoil.

Postcolonial Developments Akhil Gupta,1998 This definitive study explores what the postcolonial condition has meant to rural people in the Third World. Based on fieldwork done in the village of Alipur in rural north India from the early 1980s through the 1990s, POSTCOLONIAL DEVELOPMENTS challenges the dichotomy of developed and underdeveloped, and offers a new model for future ethnographic scholarship. 15 photos.

Corneal Transplantation Namrata Sharma,Ritu Nagpal,Rasik B Vajpayee,2022-11-09 The cornea is the clear, outer layer at the front of the eyeball. It acts as a window to the eye. The cornea helps to focus light rays onto the retina, this image is then transmitted to the brain. When the cornea is damaged, it can become less transparent or its shape can change. This can prevent light reaching the retina and causes the picture transmitted to the brain to be distorted or unclear. A corneal transplant, also known as keratoplasty or a corneal graft, is an operation to remove all or part of a damaged cornea and replace it with healthy donor tissue. It is used to improve sight, relieve pain and treat severe infection or damage. One of the most common reasons for a cornea transplant is a condition called keratoconus, which causes the cornea to change shape. (NHS.UK) This book is a guide to corneal transplantation (keratoplasty) for ophthalmic surgeons. Divided into seven sections, the text begins with an overview of evolution, preoperative considerations, and eye banking. The following sections cover a multitude of keratoplasty techniques, including endothelial keratoplasty, and their potential complications. The book concludes with discussion on alternatives to corneal transplantation. The third edition of this comprehensive manual has been fully revised, with new topics added, to provide surgeons with the latest advances in the field. A selection of operative videos can be accessed via a QR code provided in the book. The previous edition (9788184488593) published in 2010.
