Pillole - Un romanzo con controindicazioni Michela R.,2020-07-27 Un tentato suicidio, un Santo Graal di psicopillole e infine il risveglio in uno strampalato ospedale psichiatrico, le cui brutture diventano per il protagonista lo specchio delle contraddizioni della società contemporanea, senza dimenticare che, in fin dei conti, “il suicida è qualcuno che, fino all’ultimo, ha immaginato un finale diverso” di Michela R. In un appartamento al dodicesimo piano di un palazzo color marrone, un uomo tenta il suicidio ingurgitando un intero Santo Graal di psicopillole. Lo fa perchè vede la sua vita come un susseguirsi di fallimenti: vive solo dopo che tutte le sue storie sono naufragate; lavora in una copisteria gestita da un pedofilo polacco; da anni è in cura, senza successo, da una psicologa freudiana; è dipendente dal provocare risse nei bar. Qualcosa non va per il verso giusto, però, perché si risveglia all’interno di una struttura psichiatrica. Le brutture e le contraddizioni di quel luogo diventano per lui lo specchio della contemporaneità tutta: una società fatta di hashtag selvaggi e selfie strategici, in cui il benessere passa attraverso l’assunzione di psicopillole, programmi per assopire la coscienza e filosofie orientali a buon mercato. Scritto con un fine umorismo che lo accomuna a “Piccoli suicidi tra amici”, di Arto Paasilinna, il testo accompagna il lettore verso la sua sorprendente conclusione, perché, in fin dei conti, “il suicida è qualcuno che, fino all’ultimo, ha immaginato un finale diverso”.

From Discriminating to Discrimination Alessandra Del Ré,Patrícia Falasca,Juliane Noack Napoles,2022-10-16 This book adopts a multidisciplinary approach to try to answer the question of how do we, as human beings, go from the socially neutral linguistic act of discriminating external stimuli to the socially loaded act of promoting social discrimination through language? This contributed volume brings together works presented at the international event “From Discriminating to Discrimination – The Influence of Language on Identity and Subjectivity”. This was an online event hosted and organized by the Brandenburg University of Technology (BTU), Germany, in partnership with São Paulo State University (UNESP), Brazil, that brought together lecturers from different universities around the world. During the event, linguists, psychologists, language teachers, social workers and pedagogues got together to discuss how discriminating can be recognized as a natural and important ability of the human being in the early stages of life and, after that, how to avoid discriminatory acts against others. The debates held online took into account the important and necessary dialogue between linguistics and other social sciences to discuss the role played by language as a form of building subjectivity and teaching practices that can contribute to minimize discrimination and promote integration and acceptance in a broad sense, understanding the preponderant role of language in recognizing what is different (discriminating), without diminishing or excluding it (discrimination). From Discriminating to Discrimination: The Influence of Language on Identity and Subjectivity will help linguists, psychologists, educators, social workers and a broad range of social scientists working with cognitive, linguistic and educational studies understand the path taken by differentiation, from the beginning of the child's language development – when discrimination (of sounds, gestures, etc.) is essential for the acquisition of language to occur –, until the moment when differentiation, discrimination, ceases to be an essential factor and becomes a means of social segregation.

Waiting for Rain Nicholas Gabriel Arons,2004-10 Drawing on interviews with artists and poets and on his own experiences in the Brazilian Northeast, Arons has written an account of how drought has impacted the region's culture. He intertwines ecological, social, and political issues with the words of some of Brazil's most prominent authors and folk poets to show how themes surrounding drought - hunger, migration, endurance, nostalgia for the land - have become deeply embedded in Nordeste identity. Through this tapestry of sources, Arons shows that what is often thought of as a natural phenomenon is actually the result of centuries of social inequality, political corruption, and unsustainable land use.--BOOK JACKET.
