Love and Electronic Affection Lindsay D. Grace, 2020-04-30

Love and Electronic Affection: A Design Primer brings together thought leadership in romance and affection games to explain the past, present, and possible future of affection play in games. The authors apply a combination of game analysis and design experience in affection play for both digital and analog games. The research and recommendations are intersectional in nature, considering how love and affection in games is a product of both player and designer age, race, class, gender, and more. The book combines game studies with game design to offer a foundation for incorporating affection into playable experiences. The text is organized into two sections. The first section covers the patterns and practice of love and affection in games, explaining the patterns and practice. The second section offers case studies from which designers can learn through example. Love and Electronic Affection: A Design Primer is a resource for exploring how digital relationships are offered and how to convey emotion and depth in a variety of virtual worlds. This book provides:

- A catalog of existing digital and analog games for which love and affection are a primary or secondary focus.
- A catalog of the uses of affection in games, to add depth and investment in both human-computer and player-to-player engagement.
- Perspective on affection game analyses and design, using case studies that consider the relationship of culture and affection as portrayed in games from large scale studios to single author independent games.
- Analysis and design recommendations for incorporating affection in games beyond romance, toward parental love, affection between friends, and other relationships.
- Analysis of the moral and philosophical considerations for historical and planned development of love and affection in human-computer interaction.
- An intersectionality informed set of scholarly perspectives from the Americas, Eurasia, and Oceania.

Getting Dressed and Parking Cars Alok

Kejriwal,2023-12-18 Getting Dressed and Parking Cars captures the minute-to-minute, event-by-event, nail-biting business adventure of Alok Kejriwal's fourth entrepreneurial venture—Games2win. The Walt Disney Company acquired Alok's previous company. Games2win has been creating car parking and dress-up games online with the aim of becoming India's most successful casual gaming start-up in the global market. Each chapter in this book captures Alok's real-life experience of building, scaling and routinely failing in his venture. The book throbs with adrenaline as Alok thrills readers with stories of his website traffic vanishing in thin air, his games getting stolen, his arrest and his partner's amazing creation of 'invisible' ads. Getting Dressed and Parking Cars is not a book glorifying a successful start-up but a journey of business adventures that celebrates the spirit of 'starting something'. Think of it as a playbook for professionals and entrepreneurs to create something new.

Technology Play and Brain Development Doris

Bergen,Darrel R. Davis,Jason T. Abbitt,2015-08-27 Technology Play and Brain Development brings together current research on play development, learning technology, and brain development. The authors first navigate the play technology and brain development interface, highlighting the interactive qualities that make up each component. Next, they survey the changes in play materials and the variations in time periods for play that have occurred over the past 15-20 years, and then explain how these changes have had the potential to affect this play/brain developmental interaction. The authors also cover various types of technology-augmented play materials used by children at age levels from infancy to adolescence, and describe the particular qualities that may enhance or change brain development. In so doing, they present information on previous and current studies

of the play and technology interface, in addition to providing behavioral data collected from parents and children of varied ages related to their play with different types of play materials. Significantly, they discuss how such play may affect social, emotional, moral, and cognitive development, and review futurist predictions about the potential qualities of human behavior needed by generations to come. The authors conclude with advice to toy and game designers, parents, educators, and the wider community on ways to enhance the quality of technology-augmented play experiences so that play will continue to promote the development of human characteristics needed in the future.

21st Century Girls Sue Palmer, 2013-03-07 An absolute must-have parenting guide to raising girls in the 21st century. 'There can be no keener revelation of a country's soul than the way it treats its children.' Nelson Mandela Childhood, as a stage in human development, has been steadily eroded. Children today are introduced to 21st-century adult values and behaviour at an increasingly early age, long before they are developmentally ready to cope with them. We expend immense time and effort attending to their material needs while simultaneously neglecting

their developmental needs. In this important polemic, Sue Palmer believes that if we do not get a grip on this problem soon, the increase in developmental disorders, behavioural difficulties and mental health problems recorded by experts over recent decades will soon spiral out of control. Sue discusses challenges faced in the 21st century including: -the problems facing parents in an age of materialism -the way gender wars have intensified those problems -the debate about the 'female brain' -the reasons why contemporary culture can be so damaging for children, especially girls -the challenges involved in detoxifying family life Every parent, grandparent, teacher and carer of girls needs to read this book.

Surveillance Futures Emmeline Taylor, Tonya

Rooney, 2016-08-05 From birth to adulthood, children now find themselves navigating a network of surveillance devices that attempt to identify, quantify, sort and track their thoughts, movements and actions. This book is the first collection to focus exclusively on technological surveillance and young people. Organised around three key spheres of children's day-to-day life: schooling, the self and social lives, this book chronicles the increasing surveillance that children, of all ages, are subject to.

Numerous surveillance apparatus and tools are examined, including, but not limited to: mobile phones, surveillance cameras, online monitoring, GPS and RFID tracking and big data analytics. In addition to chronicling the steady rise of such surveillance practices, the chapters in this volume identify and problematise the consequences of technological surveillance from a range of multidisciplinary perspectives. Bringing together leading scholars working across diverse fields – including sociology, education, health, criminology, anthropology, philosophy, media and information technology – the collection highlights the significant socio-political and ethical implications of technological surveillance throughout childhood and youth.

Ggg Michelle Prewett, 2017-03-23 I have arranged this book in such a way as to divide it into categories so that the reader will get the maximum benefit and experience of it. First, the enormous grief and pain during times of betrayal, divorce, and broken homes that affect all members of the family. This first part of grief highly focuses on relationships where there is dysfunction and abuse and, overall, love that has been lost. Volume Two will focus on issues of struggle with time and with money issues that we face in this life such as death, the overall character of the man, his body, his talents, his gifts, and where Jesus comes in to place in his life. Issues of morality, the world, and justice are also touched upon. Heroes and the thirst for righteousness as well as

overall prayers and supplications to the Almighty will be addressed in the second volume. There will also be prayers and short poems that are brief but, in their brevity, stress a main point. Finally, in the third volume of glory, this will be a collection and compilation of current events and all-time favorites of the poet's choosing, representing the mastery, skill, and talent that has been bestowed on the writer. One's senses will be heightened and enlightened with effortless enjoyment experienced by the reader. It is highly advised that the reader purchase all three volumes to get the maximum effect of the whole process so they can better relate to each poem. The reader will be taken upon a journey first of betrayal, love lost, sorrow, and death, and in a sense, dying to oneself. The next volume will focus on encouragement and prayers, even though one does not understand why they are going on their specific journey. The grace in volume two cannot be denied and can only be dealt once the grief is experienced. It is so blatant that it seems to jump off the pages with healing power. And, finally, volume three is the pinnacle of God's glory demonstrated by a compilation of all-time favorites chosen by the poet herself as well as all the troubling current events that are occurring in the world at this time. It is my desire that the persons reading this compilation of poems focus on all of the volumes because each has immense beauty and meaning. It is for this reason that it would be my honor and desire that you purchase all three to get the maximum benefit of the process, keeping the end result in mind.

I Swear by Almighty G-G-G-God Nick Clements, 2017-04-10 'Having a dad - for want of a better word - who was a wife-beater, a drunk, a thief, a burglar and an idle, lazy, work-shy, vain, narcissistic egotist encouraged me to start work early...' Nick

Clements didn't just get a job, he became his criminal father's worst nightmare by joining the police force and becoming a fearless, determined and mould-breaking young copper. This is the story of how it happened, rich with humour and horror, danger and excitement, passion and illicit sex, marital joy and strife, triumphs and setbacks. Above all, the memoir tells of a young man's determination to escape his past (overcoming a crippling stutter along the way) and prove himself as a fearless representative of the law. 'Think of this as 'Billy Elliott' meets 'The Sweeney' and you'll have the gist of it.'
