If you're looking for the original book, search this link: <http://amzn.to/2GxjsPb>) An essential read for any individual working to do things the right way. With the unstoppable technological growth and the constant evolution and optimization of any given process, every activity has gained more complexity. Everyday, it is becoming harder and harder to keep up with complicated procedures and it's normal to feel overwhelmed, but what can we do to address this? Checklists, an old but gold method. (Note: This summary is wholly written and published by Abbey Beathan. It is not affiliated with the original author in any way) One essential characteristic of modern life is that we all depend on systems - on assemblages of people or technologies or both - and among our most profound difficulties is making them work. - Atul Gawande Checklists were invented long ago, but they are still used. They were created out of necessity to execute the extremely complicated process of flying military aircraft but they still have a lot of relevance. And that's because checklists have evolved as well with the passing of time. Gawande with his medical experience demonstrate how even surgeons tasked to do complex surgeries use checklists to aid them during the procedure and it has reduced the rate of fatalities by more than a third. There are a lot of proof about how influential checklists are in the modern era and in The Checklist Manifesto you'll learn all about it. Gawande shares with us riveting stories about the importance of checklists. Their power might shock you but they will also convince you of their utility. P.S. The Checklist Manifesto is an extremely informative book that will teach you the importance of checklists, an invention many people nowadays mistakenly underestimate. P.P.S. **The Checklist Book** Alexandra Franzen, 2020-01-14 Master both major and minor tasks—by going back to the basics and writing out a simple checklist. It will change your life. The checklist is one of the world's oldest—and most effective—productivity systems. If anything, says entrepreneur Alexandra Franzen, it is just as valuable now as it was during the days of the Roman Empire, allowing us to tangibly plan our day and set in stone what we want to accomplish. There are countless apps and organizational systems promising to help us straighten out our lives, but often they only add to the madness and leave us feeling drained and overwhelmed. Learn how to: · Choose your highest priorities · Set realistic goals · Celebrate tiny wins · Feel calmer every day By physically writing down our tasks on a single piece of paper, we force ourselves to be realistic and limit how much we can do in a day. Too often, we cram our day with tasks and chores and leave almost no space for self-care or time with loved ones. We end up disappointed in our inability to complete our never-ending to-do list.

Checklists help you accomplish what needs to be done—and enjoy things you want to be doing, too. “There are thousands of books on how to become more organized and productive, but very few have the heart, soul, humor, and gentle encouragement of this book.” —Ellen Fondiler, career and business strategist

A World Checklist of Birds Burt L. Monroe, Charles G. Sibley, 1997-02-27 Many field ornithologists record where and when they identify species of birds, especially when they encounter a species out of its normal range or for the first time. Until now, however, a checklist based on the Sibley-Ahlquist-Monroe classification has not been available. In this book, Burt L. Monroe, Jr., and Charles G. Sibley provide a list of 9,702 living avian species based on their 1990 book *Distribution and Taxonomy of Birds of the World* and its 1993 Supplement.
