Master Google Keep Priya Chandra,2016-11-17 Are you sick of carefully writing down your full shopping list, and then forgetting to take it to the store? Do you wish you could save website links to read them later rather than keeping multiple tabs open at a time? Maybe you find it easier to doodle or hand write notes and reminders rather than type them? Do you like the idea of capturing a thought at work, viewing it in your phone and then editing it at home on your desktop? Have you ever wished you could instantly see information about certain projects or events grouped together based simply on a keyword? Do you often get ideas whilst driving that you wish you could save, but can't because texting whilst driving is dangerous? Is your computer screen / desk / kitchen bench covered in sticky notes reminding you to do x, y and z? If any of the above scenarios describe you, then this book is for you! Google Keep is a deceptively simple note taking application that can improve your productivity in both your personal and your professional life and this book walks you through exactly how to use it.

Evaluative Language in Sports John Walsh,David Caldwell,Jon Jureidini,2024-05-29 Walsh, Caldwell and Jureidini offer an expansive linguistic perspective on the evaluative language prevalent in the world of professional sports. This book presents a close linguistic analysis of evaluative language in sport. Drawing on appraisal theory and data from three distinct sporting contexts – songs and chants in football stadiums, television commentary and coach discourse – it examines the critical role played by affectual, judgemental and appreciative language. In the spirit of sociolinguistics, this book also considers the history and culture of the respective sporting contexts. Connections are made between the evaluative language expressed by supporters, commentators and coaches and the invocation of power and solidarity. Evaluative Language in Sports gives insight into some of the key language practices that contribute to professional sports culture: a communal and combative world of winners and losers, ‘us and ‘them’. An innovative and valuable book that will appeal to students, researchers and sports enthusiasts interested in sports communication and language, sociolinguistics and media studies.

Die Surveys im Hermos- und Kaystrothal und die Grabungen an den Thermen von Metropolis (Ionien) sowie am Stadion von Magnesia am Mäander Boris Dreyer,2014 Mehr denn je ist altertumswissenschaftliche (archäologische und historische) Forschung auf interdisziplinäre und internationale Zusammenarbeit angewiesen, um Funde und Befunde angemessen bearbeiten, bewerten und einordnen zu können. Das gilt für sowohl für Funde, die bei Ausgrabungen, als auch bei solchen, die bei Surveys gewonnen werden. Dieser Band stellt auf der einen Seite die Ergebnisse aktueller Ausgrabungen in Magnesia am Mäander und Metropolis (Ionien) aus der Westtürkei vor, auf der anderen Seite beschäftigen sich Beiträge zugleich mit der angemessenen Präsentation und Einordnung der Befunde, indem neue geographische und geodätische Untersuchungsmethoden an diesen Orten vorgestellt sowie moderne Methoden der Archivierung und Präsentation in Datenbanken dargeboten werden. Es handelt sich dann um exemplarische Erörterungen, die paradigmatischen Wert über die konkreten Ortschaften hinaus haben und - wie die anderen Beiträge - bei einer internationalen Konferenz am 3.11.2012 in der Friedrich-Alexander Universität Erlangen-Nürnberg vorgestellt wurden.--
