The Wisdom of the Spirit Martyn Percy,Pete Ward,2016-02-17 In this groundbreaking book exploring Christianity and contemporary culture, internationally-renowned scholars (including David Martin, Alister McGrath, Billy Abraham, Billy Kay and Pete Ward), interface with the legacy of Andrew Walker’s work and look forward in their own predictions of trends. Following Walker’s special interests in house churches, charismatic renewal, culture and faith, this book picks up on these themes and also looks more broadly at topics such as Pentecostalism, Alpha and post-Evangelicalism.

Inside Alpha James Heard,2012-06-01 UK church attendance hemorrhaging and one course is hailed as the most effective tool for turning back the tide. From small beginnings in the early 1970s, Alpha has grown to become a global success. Churches from across the denominational spectrum have enthusiastically seized upon the course, seeing it as the remedy for declining church attendance. Inside Alpha explores such claims through richly grounded qualitative research on six Alpha courses. It assesses Alpha's primary aim of converting non-churchgoers and its longer-term goal of spiritual maturity (Colossians 1:28-29). It questions whether the Alpha program is as successful as it claims at uniting evangelism and discipleship, mission and spiritual formation. This is an invaluable study for those--in the academy and the church--who have an interest in ecclesiology and mission. How exactly is one to understand conversion? What is it to be Christian? How does ambiguity and doubt fit within one's journey of faith? The importance of this work is in discovering--through an engagement with Alpha--how people might appropriately be initiated into and discipled within the Christian faith in contemporary culture.

Black Witch, Death Mage A.S. Etaski,2020-12-07 I am the dark foreigner among pale-skinned mercenaries, crossing exposed grasslands. My only ally is a sinister scholar hiding scars from past rituals. He alone knows I carry a child. Each day assaults my senses and leads me farther away from home. Inevitably, my mission will lead out of isolation to the first Human settlement in my path. With few watching my back and more tempted to exploit it, I wade into an unforgiving test of my training and vigilance, determined not to be pulled down. Twisted portents and pious zealotry expose danger in every direction, while new, threatening dreams of distant sands muddle my Queen's past with my present. As all close in around me, I must find a way to serve the Valsharess and slip free of man-made chains which would enslave me. In Black Witch, Death Mage, far-reaching threads and mystical visions constrict to

bind those within it, pulling the tales of present and past closer than they've been in thousands of years. Sister Seekers is adult epic fantasy with an ever-broadening scope, perfect for fans of entwined plots, challenging themes, elements of erotic horror, immersive worldbuilding. Sexuality and inner conflict play into character growth with nuance, intrigue, intense action, and fantastical magic. The series begins underground with an isolated race of Dark Elves whose intricate webs first ensnare then catapult us to places a Red Sister can only imagine in her dreams.

The Contrarian's Guide to Leadership Steven B. Sample,2003-04-18 In this offbeat approach to leadership, college president Steven B. Sample-the man who turned the University of Southern California into one of the most respected and highly rated universities in the country-challenges many conventional teachings on the subject. Here, Sample outlines an iconoclastic style of leadership that flies in the face of current leadership thought, but a style that unquestionably works, nevertheless. Sample urges leaders and aspiring leaders to focus on some key counterintuitive truths. He offers his own down-to-earth, homespun, and often provocative advice on some complex and thoughtful issues. And he provides many practical, if controversial, tactics for successful leadership, suggesting, among other things, that leaders should sometimes compromise their principles, not read everything that comes across their desks, and always put off decisions.

No-party Democracy? Giovanni M. Carbone,2008 Are political parties an essential element of democracy? Or can a no-party system constitute a viable democratic alternative? Giovanni Carbone examines the politics of Museveni's Uganda to illustrate the achievements, contradictions, and limitations of participatory politics in the absence of partisan organizations. At a time when multiparty reforms were sweeping the globe, Uganda opted for a controversial, no-party democratic model. The country's politics over the past two decades thus provide the perfect opportunity for addressing the many questions -- theoretical, empirical, and comparative -- that the notion of a no-party system of elected government raises. Carbone's analysis of how a no-party electoral regime actually works (or doesn't) in Uganda fills a gap in both democracy studies and the study of African politics. -- Publisher description.
