Transformation From Colonial Chemist To Global Health And Beauty Retailer: A.s. Watson Patrick Chiu, 2022-06-20 A S Watson Group (ASW), its health and beauty retail arm commonly known as 'Watsons' in Asia, traces its humble beginnings back to a matched colonial apothecary shop called the Hong Kong Dispensary (the 'Dispensary') when it was set up back in 1841. This book unlocks the secrets and transformations of ASW from a colonial chemist to the number three global player in health and beauty retailing. How was ASW able to pull through each and every global or national crisis it faced in the 180 years to emerge more robust and vibrant? In Part One of this book, Patrick vividly describes Watson's globalization journey over the past 180 years. He details how Watsons survived the waves of social unrest, civil wars, global financial turmoil, political crisis, and pandemics that confronted the world. One of the most exciting developments in this history took place from 1999 to 2006 when ASW achieved quantum leaps and consolidated its position as a leading global drug store chain under Wade's leadership. In Part Two of this book, Patrick analyzes the corporate management practices of Watson. He articulates Andrew Chi-Fai Chan's 'Left-and-Right Circles' theory behind Ian Wade's branding strategy. He further draws upon Wade's other 'Prosperity Strategies' in parallel with the '4+2' Formula' advocated by Nitin Nohria et al. Over the past fourteen years, the global market has undergone tremendous changes in China, Asia, and Europe. And with it, ASW has undertaken a pragmatic growth approach to dodge the headwinds of the subprime mortgage crisis, the Eurozone crisis, China-US decoupling, Brexit, and the recent COVID-19 pandemic.

Missionary Education Kim Christiaens, Idesbald

Goddeeris, Pieter Verstraete, 2021 Missionaries have been subject to academic and societal debate. Some scholars highlight their contribution to the spread of modernity and development among

local societies, whereas others question their motives and emphasise their inseparable connection with colonialism. In this volume, fifteen authors – from both Europe and the Global South – address these often polemical positions by focusing on education, one of the most prominent fields in which missionaries have been active. They elaborate on Protestantism as well as Catholicism, work with cases from the 18th to the 21st century, and cover different colonial empires in Asia and Africa. The volume introduces new angles, such as gender, the agency of the local population, and the perspective of the child.

Space and Everyday Lives of Children in Hong Kong

Stella Meng Wang, 2024-01-23 Deploying a spatial approach towards children's everyday life in interwar Hong Kong, this book considers the context-specific development of five transnational movements: the garden city movement; imperial hygiene movement; nationalist sentiments; the Young Women's Christian Association; and the Girl Guide. Locating these transnational cultural movements in four layers of context, from the most immediate to the most global, including the context of Hong Kong, Republican China, the British empire, and global influences, this book shows Hong Kong as a distinctive colonial domain where the imperatives around race, gender and class produced new products of empire where the child, the garden, the school and sport turned out to be the main dynamics in play in the interwar period.

Political Censorship in British Hong Kong

Michael Ng, 2022-08-04 Drawing on archival materials, Michael Ng challenges the widely accepted narrative that freedom of expression in Hong Kong is a legacy of British rule of law. Demonstrating that the media and schools were pervasively censored for much of the colonial period and only liberated at a very late stage of British rule, this book complicates our understanding of how Hong Kong came to be a city that championed free speech by the late 1990s. With extensive use of primary sources, the free press, freedom of speech and judicial

independence are all revealed to be products of Britain's China strategy. Ng shows that, from the nineteenth to the twentieth century, Hong Kong's legal history was deeply affected by China's relations with world powers. Demonstrating that Hong Kong's freedoms drifted along waves of change in global politics, this book offers a new perspective on the British legal regime in Hong Kong.

Automorphisms of Affine Spaces Arno van den

Essen,1995-06-30 Automorphisms of Affine Spaces describes the latest results concerning several conjectures related to polynomial automorphisms: the Jacobian, real Jacobian, Markus-Yamabe, Linearization and tame generators conjectures. Group actions and dynamical systems play a dominant role. Several contributions are of an expository nature, containing the latest results obtained by the leaders in the field. The book also contains a concise introduction to the subject of invertible polynomial maps which formed the basis of seven lectures given by the editor prior to the main conference. Audience: A good introduction for graduate students and research mathematicians interested in invertible polynomial maps.

Hong Kong Soft Power Frank Vigneron,2018-03-15 In late 2014, the prodemocracy demonstrations that were called the Umbrella Movement revealed to the world that Hong Kong was not the moneyobsessed society it had often been portrayed as. Hong Kong Soft Power is a description of the complex relationship the artists and activists of this city have had with the country it has been part of since 1997. Trying to understand all the varied forms of art practices possible in the Special Administrative Region by locating them within a relational model, and situating them within the dynamic and changing art ecosystem that has developed over the last decade, Hong Kong Soft Power describes the local art field as a site of struggle where the connections with Chinese Mainland institutions and art practices play a fundamental role. This is not to

say that this influence has entirely dominated the local art field, and this book also emphasizes how the artists of the city have engaged in practices ranging from the most personal to the most socially oriented. With the analysis of the works of about fifty local art practitioners and a representative range of art institutions, Hong Kong Soft Power is the portrait of a culture going through the trials and tribulations of rapid political and economic changes in both its negative and positive effects.

A Medical History of Hong Kong Moira M W Chan-

Yeung, 2018-11-30 This book tells the fascinating story of the development of medical and sanitation services in Hong Kong during the first century of British rule and how changing political values and directions of the colonial administration and the socio-economic status of the Hong Kong affected the policies of development in these areas. It also recounts how the bubonic plague of 1894 changed the government's laissez-faire attitude towards sanitation and public health and began sanitary reforms and developed public health infrastructure.

Ancestral Images Hugh Baker,2011-07-01 A new edition in one volume of Hugh Baker's celebrated three volumes of *Ancestral Images* originally published in 1979, 1980 and 1981. The 120 articles and photographs explore everyday life, customs and rituals in Hong Kong's rural New Territories. Each mouthful is complete in itself, but together the articles amount to a substantial feast. They investigate religion, food, language, history, festivals, family, strange happenings and clan warfare. The book documents much that can no longer be found. But it also provides an understanding of a world which has not yet entirely disappeared, and which still forms the background for life in modern, urban Hong Kong. Esoteric nuggets of information are scattered through the book: How do you ascend a Pagoda with no staircase? How can you marry without attending the wedding? When is it wrong to buy a book?

Sun Yatsen, Robert Wilcox and Their Failed Revolutions, Honolulu and Canton 1895 Patrick Anderson,2021-06-27 Dynamite on the Tropic of Cancer is the radical, explosive retelling of the first decade of the 'Father of Modern China' Dr Sun Yatsen's globally shaped formation as a professional revolutionist, and of the impact of the adult Sun's revolutionary relationship with Hawai'i and with his varied communities of supporters there during its own most turbulent political decade, the 1890s, years in which this remote island nation transformed from native monarchy, via sovereign independent republic, to become the USA's first overseas territory. Drawn from neglected primary

sources, Dynamite reveals the hitherto untold story of the secret revolutionary alliance forged in Honolulu’s backstreets between Sun’s Xingzhonghui and the idiosyncratic italophile soldier Robert Wilcox, Hawai’i’s Garibaldi and leader of the Kanaka/Native Hawaiian counterrevolution of January 1895. This failed uprising to restore Hawai’i’s tragic last Queen, witnessed firsthand by Sun Yatsen, became the archetype upon which ten months later Sun would base his own first attempt at armed insurrection in China: the Canton uprising of 26 October 1895. With an epic sweep across the Pacific’s Tropic of Cancer, Dynamite is the most important study yet written on the origins of Sun Yatsen’s Chinese Revolution and its dynamic interface with Hawaiian history.
