**Don't Unplug** Chris Dancy, 2018-09-18 Chris Dancy, the world's most connected person, inspires readers with practical advice to live a happier and healthier life using technology. In 2002, Chris Dancy was overweight, unemployed, and addicted to technology. He chain-smoked cigarettes, popped pills, and was angry and depressed. But when he discovered that his mother kept a record of almost every detail of his childhood, an idea began to form. Could knowing the status of every aspect of his body and how his lifestyle affected his health help him learn to take care of himself? By harnessing the story of his life, could he learn to harness his own bad habits? With a little tech know-how combined with a healthy dose of reality, every app, sensor, and data point in Dancy's life was turned upside down and examined. Now he's sharing what he knows. That knowledge includes the fact that changing the color of his credit card helps him to use it less often, and that nostalgia is a trigger for gratitude for him. A modern-day story of rebirth and redemption, Chris' wisdom and insight will show readers how to improve their lives by paying attention to the relationship between how we move, what we eat, who we spend time with, and how it all makes us feel. But Chris has done all the hard work: *Don't Unplug* shows us how we too can transform our lives.

**The Die** Jude Berman, 2024-04-02 Darah, a tech writer living in the democratic nation of California, is dismayed to see the game she's helping develop for a Silicon Valley tech company has been tampered with. When her hacker friend Jedd investigates, he uncovers a conspiracy that could change the nation—and the world. With a circle of close friends, Jedd digs deeper and deeper into the darknet and exposes the unthinkable: an app is being developed that uses quantum computing and neuroscience to alter people's brains, totally unbeknownst to them. As the friends realize the devastating impact of this technology, they're presented with a dilemma: stay quiet and stay safe, or risk their lives to stand up to the international authoritarian force behind this plot? Combining activist, techno-thriller, and metaphysical fiction elements and scaffolded on three realities—the ancient wisdom of the Mahabharata, our current sociopolitical reality, and the near future—The Die is a fast-paced story about friendship, courage, and democracy.

A Canadian Parole intent on writing Animal Farm Part II stumbles upon 1984 in her research of George Orwell. It is believed George's failing health to be cause for the thin veil that existed between our worlds as he tapped into knowledge of the future from the universe. She compares current society with that predicted to create wildlife characters for Animal Farm Part II. Surely with so many decades past, the Farm Animals had all diversified to a wide range of species globally. Ever since the Pigs and Men had met that fateful night on Manor Farm, a terrifying doom faced the Planet as The Machine drained the resources. Could the Machine be stopped? George Orwell gave us the secret in 1984, and in 2022, knowledge from the Akashic Records was ready to be released to the World!

10 % Happier Dan Harris, 2014-03-11 #1 New York Times Bestseller REVISED WITH NEW MATIERAL Winner of the 2014 Living Now Book Award for Inspirational Memoir An enormously smart, clear-eyed, brave-hearted, and quite personal look at the benefits of meditation. —Elizabeth Gilbert Nightline anchor Dan Harris embarks on an unexpected, hilarious, and deeply skeptical odyssey through the strange worlds of spirituality and self-help, and discovers a way to get happier that is truly achievable. After having a nationally televised panic attack, Dan Harris knew he had to make some changes. A lifelong nonbeliever, he found himself on a bizarre adventure involving a disgraced pastor, a mysterious self-help guru, and a gaggle of brain scientists. Eventually, Harris realized that the source of his problems was the very thing he always thought was his greatest asset: the incessant, insatiable voice in his head, which had propelled him through the ranks of a hypercompetitive business, but had also led him to make the profoundly stupid decisions that provoked his on-air freak-out. Finally, Harris stumbled upon an effective way to rein in that voice, something he always assumed to be either impossible or useless: meditation, a tool that research suggests can do everything from lower your blood pressure to essentially rewire your brain. 10% Happier takes readers on a ride from the outer reaches of neuroscience to the inner sanctum of network news to the bizarre fringes of America's spiritual scene, and leaves them with a takeaway that could actually change their lives.

Caricature and Other Comic Art in All Times and Many Lands  
James Parton, 1969

California Landscapes John Yau, 2018-09-04 A must-have for anyone interested in these two beloved West Coast artists, best known for their geometric abstractions of the California landscape.

Featuring the pairings of more than 50 paintings, this book shows the connection of these two artists like never before. Richard Diebenkorn and Wayne Thiebaud were close friends; they shared the inspiration of California and experimented with perspective to capture their surroundings. The book includes important examples from Diebenkorn's Berkeley series in addition to several works from the artist's Ocean Park series. Inspired by the environs of the Ocean Park neighborhood in Santa Monica, where he lived at this time, these works from the 1960s are characterized by geometric abstractions of subtle line and suffused with Californian luminosity. Wayne Thiebaud began producing landscapes in the 1960s, experimenting with perspective to capture his Californian surroundings. Included are his works from the early 1970s through 2017, including his dramatic depictions of San Francisco, flattened aerial views of the Sacramento River Delta, and close-ups and cross-section views of mountains and beaches.

**The Happiness Effect** Donna Freitas, 2017 Sexting. Cyberbullying. Narcissism. People-and especially the media-are consumed by fears about the effect of social media on young people. We hear constantly about the dangers that lurk online, and about young people's seemingly pathological desire to share anything and everything about themselves with the entire world. Donna Freitas has traveled the country, talking to college students about what's really happening on social media. What she finds is that, while we focus on the problems that make headlines, we are ignoring the seemingly mundane, but much more widespread, problems that occur every day. Young people, she shows, feel enormous pressure to look happy all the time-and not just basically content, but blissful, ecstatic, inspiring and successful in their personal, professional, and academic lives-regardless of how they actually feel. Of course, these young adults are not that happy, at least not all of the time, and the constant exposure to the seemingly perfect lives of other people on social media only makes them feel worse. What's more, far from wanting to share

everything about themselves, they are terrified of sharing something that will come back to haunt them later in life. The rise of social media has brought about a dramatic cultural shift: the need to curate a perfect identity online that often has little to do with reality. The consequences, Freitas shows, can be very real. Drawing on an online survey and in-person interviews with students from thirteen campuses around the U.S, Freitas offers a window into the social media generation and how they use Facebook, Snapchat, and Twitter, and other online platforms. She presents fascinating insights about how these people are consciously creating alternate identities for themselves, while also suffering from the belief that the other people they encounter online really are as perfect as their profiles appear. This is an eye-opening look at the real world of social media today
