Competing Chinese Political Visions Sonny Shiu-Hing Lo,2010-02-26 A fascinating analysis of the features of the Hong Kong-style democracy viewed as alien, hostile, potentially subversive, and substantially dangerous by the mainland Chinese Communist Party. Competing Chinese Political Visions: Hong Kong vs. Beijing on Democracy examines the uniqueness of the Hong Kong model of democracy—a model the Chinese Communist Party not surprisingly views as too Westernized, excessively pluralistic, and too easily shaped by foreign intervention and influence. Competing Chinese Political Visions examines the features that define Hong Kong's democracy, including competitive elections, a number of mini-political parties, legitimate checks and balances, the right to protest, and a vibrant social movement. Drawing on a wealth of recent research, noted Hong Kong expert Sonny Shiu-Hing Lo examines the role of Hong Kong in the June 1989 Tiananmen Square incident, discusses the leadership and visions of democratic leaders such as Martin Lee, and offer some bold predictions for the intertwined futures of Hong Kong and China.

Andrew Lau and Alan Mak's Infernal Affairs - The Trilogy Gina Marchetti,2007-04-01 Infernal Affairs has received journalistic, popular and corporate notice but little vigorous critical attention. In this book, Gina Marchetti explores the way this example of Hong Kong's cinematic eclecticism has crossed borders as a story, a commercial product and a work of art; and has had an undeniable impact on current Hong Kong cinema. Moreover, she uses this trilogy to highlight the way Hong Kong cinema continues to be inextricably intertwined with global film culture and the transnational movie market. Infernal Affairs served as the source for the Academy Award-winning film The Departed (2006). The Martin Scorsese-directed film won Oscars for best motion picture, director, adapted screenplay and film editing. This is the first time that an American film based on a Hong Kong production swept the Academy Awards by winning four top prizes.

Production Dynamics for Life Quality in the Incipient 21st Century Chau-kiu Cheung,2022-08-18 This book addresses the life quality of the average adult in the world, based on international data weighted according to national population size. It rests on the theoretical framework of analytic-functionalism to explain statics and dynamics in the production of life quality. The statics means the influences of personal and national factors on life quality, whereas the dynamics mean the changes in the influences over time. This approach elucidates life quality at the personal level rather than at the national level, which overlooks what happens to the average person living in the world. The approach involves a broad view of the production of life quality, including experiences, practices, and appraisals of life. This production also involves personal background characteristics and the national indicators of modernization, globalization, and environmental issues. Knowledge about the production is helpful for policymakers, researchers, students, and other people to upgrade life quality. Such knowledge is valuable because it is up-to-date, generalizable, and sensible based on the analytic-functionalist theoretical framework and statistical estimation.

Happiness and Well-Being in Chinese Societies Chau-kiu Cheung,Xiaodong Yue,2021-03-23 Thisbook addresses the sustainability of happiness and well-being in Chinese

societies. It starts by introducing the various conceptions of well-being, particularly in the Chinese sociocultural context. The book then proceeds with the examination of the sustainability of well-being by scrutinizing the effects of sociocultural, contextual, and personal factors on well-being. The contextual factors are the aggregates or averages of personal factors at the contextual levels of the regions and colleges in Mainland China, its special administrative region, and Taiwan. These factors cover personality traits, strengths, orientations, beliefs, values, and idolizing. By bringing together empirical studies and theoretical perspectives applied to Chinese societies, this book offers researchers in social science and humanities a valuable reference work on happiness and well-being in Chinese societies.
