The Pirate of the Mediterranean William Henry Giles Kingston,1851

Lessons from a Disabled Caregiver William G. Reed,2021-07-30 Progressive, untreatable nerve and muscle diseases transformed the author's life from having been a college athlete to needing a wheelchair and special equipment for day-to-day activities. While dealing with his own conditions, he was faced with the unique challenge of being the sole caregiver for his wife who suffers from Alzheimer's disease. He has written this experience-based book to help people with life-altering medical conditions and those dealing with challenging caregiving responsibilities. Comprehensive in scope, it covers topics including grief, finances, safety and end-of-life planning. This is a resource book containing many references aimed at helping the reader overcome their challenges, maintain their independence and have happy, fulfilling lives.

Egyptian Obelisks Henry Honeychurch Gorringe,1885 A deluxe book produced at the point that Harroun and Bierstadt dissolved their business ... The Artotypes in this book are some of the finest produced by Bierstadt. The pictorial record of this engineering feat is remarkable in itself; casing and tilting the obelisk, loading it into the side of the ship by removing part of the hull, pulling it out on a special dock in the Hudson and then moving it by custom made rail from the river to the site next to the Metropolitan Museum. The illustrations show the hieroglyphics, now mostly lost due to New York's polluted air, bright and clear.--Hanson Collection catalog, p. 82

The Power of Love Clark Selby, 2015-06-23 The Power of Love tells the story of how love can give you the ability to do things you never thought you were ever capable of doing. Chance and Ann married at sixteen and had been married for almost fifty years when Ann became paralyzed and Chance became her full-time caregiver. This story tells of the efforts to find a cure for her illness and the struggles to keep Ann alive and to endure to have some kind of life again. Chance learned to care for his paralyzed wife. He did everything that was required to take care of her even though he never thought he could do such things. Only the power of love could do that. Against all odds they were able to celebrate their fiftieth wedding anniversary. They continued going from doctor to doctor and hospital to hospital to find a way to keep Ann alive. Finally, they had success with Barnes Jewish Hospital and the doctors from Washington University in St. Louis. The doctors were able to stabilize Anns condition and stop her disease from progressing further. Although Ann continued to be paralyzed, they found they were able to have somewhat of a normal life together even with her requiring twenty-four-hour-a-day care and with no hope of her ever being able to regaining her ability to stand or walk. Then without any warning, Ann suffered a cerebral hemorrhage and passed away, leaving Chance alone and lost. Chance and Anns good friend, Susan OHara, had lost her husband over eighteen years before Ann passed away. After Susan lost her husband she went to college and earned her degree, graduating summa cum laude. Susan vowed never to date again or ever get married since she never wanted to go through the anguish of losing another love. This story tells how two people who never expected to find love again discovered how the power of love could let them love again and begin a new life together. Their story gives hope to everyone who has ever lost their loved one.
