Indian Health Service Gregory D. Kutz,2009-02 In June 2007, information was received from a whistleblower through a hotline alleging millions of dollars in lost and stolen property and gross mismanagement of property at Indian Health Service (IHS), an operating division of the Dept. of Health and Human Services (HHS). A forensic audit and related investigation were conducted to: (1) determine whether one could substantiate the allegation of lost and stolen property at IHS and identify examples of wasteful purchases; and (2) identify the key causes of any loss, theft, or waste. Kutz analyzed IHS property records from FY 2004-2007, conducted a full physical inventory at IHS headquarters, and statistically tested inventory of IT equipment at 7 IHS field locations in 2007 and 2008. IHS can be reimbursed for services provided at IHS facilities from third-party insurers, incl. Medicare, Medicaid, and private health insurers. IHS is allowed to retain funds collected from these insurers without offsetting its appropriations, so that all revenue collected by a facility remains with that facility. This report examines: (1) the design of IHS's policies and procedures for billing and collecting revenue from private insurers incl. write-offs of uncollectible claims; and (2) the adequacy of IHS headquarters' monitoring of area office and service unit compliance with policies and procedures for the billing and collection of revenue from private insurers. Indian Health Service Isaac Dubois,2014-05-14 The Indian Health Service (IHS) is an agency in the Department of Health and Human Services (HHS) that provides health care to American Indians and Alaska Natives. When care at an IHS-funded facility is unavailable, IHS's Contract Health Service (CHS) program pays for care from non-IHS providers if the patient meets certain requirements and funding is available. The Patient Protection and Affordable Care Act requires the Government Accountability Office (GAO) to study the administration of the CHS program, including a focus on the allocation of funds. IHS uses three primary methods to determine the allocation of CHS funds to the 12 IHS geographic area offices: base funding, which accounts for most of the allocation; annual adjustments; and program increases, which are provided to expand the CHS program. This book examines (1) the extent to which IHS's allocation of CHS funding varied across IHS areas, and (2) what steps IHS has taken to address funding variation within the CHS program.

What GAO Recommends GAO suggests that Congress consider requiring IHS to develop and use a new method to allocate all CHS program funds to account for variations across areas, notwithstanding any restrictions now in federal law. GAO also recommends, among other things, IHS use actual counts of CHS users in methods for allocating CHS funds. HHS concurred with two of GAO's

Indian Health Service Gregory Kutz,2009-12 In 2008, a report was issued revealing gross mismanagement of property at the Indian Health Service (IHS). It found that 5,000 items with an acquisition value of \$15.8 million were reported lost or stolen for FY 2004 through 2007. The report attributed the property mismanagement and waste to weak internal controls. Ten recommendations were made to IHS and IHS ultimately agreed to implement all of them. This report determines: (1) whether property loss, property theft, and wasteful spending continue at IHS; and (2) to what extent IHS made progress in implementing prior recommendations.
