*Fall Prevention Through Design in Construction* Imriyas Kamardeen, 2015-06-05 The role of designers has traditionally been to design a building so that it conforms to accepted local building codes. The safety of workers is left up to the contractor building the designs. Research shows, however, that designers can have an especially strong influence on construction safety during the concept, preliminary and detailed design phases. This book establishes the new knowledge and conceptual frameworks necessary to develop a mobile computing-enabled knowledge management system that can help reduce the high rate of construction falls. There are three main objectives of this book: 1. To create a new Prevention through Design (PtD) knowledge base to model the relationships between fall risks and design decisions; 2. To develop a PtD mobile App to assist building designers in fall prevention through design; 3. To evaluate the practical implications of the PtD mobile App for the construction industry, especially for building designers and workers. The cutting edge technologies explored in this book have the potential to significantly reduce the rate of serious injuries that occur in the global construction industry. This is essential reading for researchers and advanced students of construction management with an interest in safety or mobile technologies.

**Dwelling on the Green Line** Gabriel Schwake, 2022-03-17 Concealed within the walls of settlements along the Green-Line, the border between Israel and the occupied West-Bank, is a complex history of territoriality, privatisation and multifaceted class dynamics. Since the late 1970s, the state aimed to expand the heavily populated coastal area eastwards into the occupied Palestinian territories, granting favoured groups of individuals, developers and entrepreneurs the ability to influence the formation of built space as a means to continuously develop and settle national frontiers. As these settlements developed, they became a physical manifestation of the relationship between the political interest to control space and the ability to form it. Telling a socio-political and economic story from an architectural and urban history perspective, Gabriel Schwake demonstrates how this production of space can be seen not only as a cultural phenomenon, but also as one that is deeply entangled with geopolitical agendas.

**Polarization and Consensus-Building in Israel** Elie Friedman, Michal Neubauer-Shani, Paul Scham, 2023-07-31 This edited volume examines the most pressing social and political issues confronting Israel from a multidisciplinary perspective, focusing on the breakdown of social solidarity and the inability to formulate consensus. The contributors – encompassing political scientists, historians, communication researchers, sociologists, economists, and

educators – focus on specific topics that serve as exemplary cases of various trends of consensus and polarization. These trends are examined in the context of ideological, religious, economic, national, and ethnic cleavages. In addition, this volume analyzes how political actors' preference for "non-decision" on various issues has resulted in the maintenance of a status quo, with cleavages or conflicts being neither mitigated nor polarized. Together, this collection of articles paints a picture of Israel as a state racked by increasing polarization along ideological and religious lines. It is argued that this difficulty in determining a consensual definition of the state threatens to destroy social solidarity in Israel altogether, a climate in which "the center cannot hold." This book is essential reading for anyone seeking to understand the major internal threats to Israel's self-definition as a Jewish-democratic state and will also appeal to sociologists and political scientists interested in global polarization trends.

*Goliath* Max Blumenthal, 2013-10-01 The award-winning journalist and best-selling author of *Republican Gomorrah* assesses the takeover of Israel by extremists from the Jewish Right, examining how they have restricted constitutional protections for minorities and dissidents and how they are being bankrolled by American right-wing interests. (This book was previously featured in *Forecast*.)

**Industry & Economy in Israel** Miriam Aharoni, Meir Aharoni, 2005 This book gives a comprehensive overview of Israel's global achievements. Among the additional subjects included in the book: Events and terms in economy, key figures in high-tech and economy, data and diagrams, as well as profiles of leading corporations in the Israeli economy. About 50 authors participated in writing this book, among them leading figures in economy and industry, scientists, inventors, journalists, jurists, and experts from various fields.

*The Case for Sanctions Against Israel*, 2012-05-02 In July 2011, Israel passed legislation outlawing the public support of boycott activities against the state, corporations, and settlements, adding a crackdown on free speech to its continuing blockade of Gaza and the expansion of illegal settlements. Nonetheless, the campaign for boycott, divestment, and sanctions (BDS) continues to grow in strength within Israel and Palestine, as well as in Europe and the US. This essential intervention considers all sides of the movement—including detailed comparisons with the South African experience—and contains contributions from both sides of the separation wall, along with a stellar list of international commentators. Contributors: Merav Amir and Dalit Baum, Ra'anan Alexandrowicz, Hind Awwad, Mustafa Barghouti, Omar Barghouti, Joel Beinin, John Berger, Angela Davis, Nada Elia, Marc Ellis, Noura Erakat, Ran Greenstein, Neve Gordon, Ronald Kasrils, Jamal Khader, Naomi Klein, Mark LeVine, Ken Loach, David Lloyd and Laura Pulido,

**The Oral Law Debunked** Golan Brosh, Eitan Bar, 2019-01-15 The intention of the authors is to present a vigorous critique of traditional-rabbinic Judaism. It should be clearly stated at the outset, however, that this critique is offered in the context of an intramural discussion between Jews who believe in Yeshua (Jesus) and those who do not yet follow Him. It should not be understood as an attack on the Jewish people, but rather as a dispute between different sects within Judaism, over the true interpretation of the Tanakh and the authority thereof. This paper's main objective will be to examine the validity of the following premise: for two millennia Judaism has been held hostage under the government and philosophy of one distinct sect, namely the Pharisees and their heirs--the rabbis. Since the destruction of the Second Temple, biblical Judaism had ceased to exist and the rabbinic traditions took over, with a completely reformed version of Judaism which centered on three main pillars: the rabbis themselves, the yeshiva (ישיבה) and the Halacha (הלכה). This work will also try to examine how this sect managed to enforce their traditions upon Israel and at what cost. In order to establish their authority over the Jewish people, the rabbis came up with the revolutionary idea according to which their philosophy, traditions and teachings (i.e., the Oral Law) were passed on through the generations, beginning with Moses and ultimately with God Himself. Henceforth, the focus of the rabbinic religion has been to study and meditate on the Oral Law (Oral Law). In fact, the Oral Law serves as the foundation upon which all the traditions of rabbinic Judaism stand. Without the rabbis' traditions, rabbinic Judaism loses all its validity and existence. In other words, if the divine origin of the Oral Law is nothing but a myth, then rabbinic Judaism has no leg to stand on. Other main objectives of this paper would be to historically examine how the sect of the Pharisees was able to attain such a stronghold over Judaism, to investigate whether the Oral Law's traditions are in fact rooted in the Bible and genuinely reflect God's will for men, and to examine the implications of the Oral Law on Judaism today, especially in regard to Israel's relationship to the New Testament and Yeshua. The first chapter of this paper will deal with the advent of the Pharisees and the circumstances which brought them into the position of authority.

**The Rough Guide Book of Playlists** Mark Ellingham, 2007 This second edition of the Rough Guide Book of Playlists contains more than 500 lists of which 50 are new to this edition. The lists are recommendations of ten songs (sometimes a couple more, sometimes a couple less), covering artists

(Rufus Wainwright to Thelonius Monk, Al Green to Manu Chao, Glenn Gould to Julie Andrews), genres (Bebop Classics to Reggae Toasters to Punk Originals to Hot Club jazz), songs (10 best Dylan covers; 8 classic versions of Summertime; 10 love songs that don't cloy), quirks and silliness (Songs about Chickens and Insects; Who let the frogs out?; Big Pizza Pie crooners; Take this Job and Shove it!). There's even a literary edge with playlists like '10 songs raved about in Murakami novels'. Each of the Playlists has a nugget about the song (why you want it on your iPod), and a listings of where it's from (remember CDs?).

*I am Yusuf and This Is My Brother* Amir Nizar Zuabi, 2014-03-10 *I am Yusuf and This Is My Brother* is a powerful, poetic exploration of history, memory and different forms of love. 'Before it happened I didn't know those people existed. Now I'm not certain that we do...' January 1948. Palestine. The British Mandate is ending. The UN is voting on who will control what part of the land. Ali is in love with Nada - but he is in despair. Her father won't let them marry because his brother Yusuf is 'odd' with his own eccentric, child-like point of view. Rufus, a soldier on the occupying British forces, longs for the cold fogs of Sheffield. War begins and, as the villagers are scattered and become refugees, the secret that's kept Ali and Nada apart is revealed. Although set within a politically charged context, the play is full of haunting, dreamlike poetry rather than didactic polemicism. Instead of simply exploring the political debate, Zuabi concentrates more on the richness of language and culture. With a keen awareness of the vulnerability and fragile ephemerality of life, *I am Yusuf and This Is My Brother* explores humanity and love in the context of loss and death.

*Stolen Lives* Malika Oufkir, Michele Fitoussi, 2002-04-01 The daughter of a former aide to the king of Morocco, who was executed after a failed assassination attempt on the ruler, describes how she, her five younger siblings, and her mother were imprisoned in a desert penal colony for twenty years. **Search Result Diversification** Santos Rodrygo L T, Craig Macdonald, Iadh Ounis, 2015-02-27 This primer reviews the published literature on search result diversification. In particular, it discusses the motivations for diversifying the search results for an ambiguous query and provides a formal definition of the search result diversification problem. In addition, it describes the most successful approaches in the literature for producing and evaluating diversity in multiple search domains.

**Intra-Jewish Conflict in Israel** Sami Shalom Chetrit, 2009-10-16 This is the first book in English to examine the Mizrahi Jews (Jews from the Muslim

world) in Israel, focussing in particular on social and political movements such as the Black Panthers and SHAS. The book analyses the ongoing cultural encounter between Zionism and Israel on one side and Mizrahi Jews on the other. It charts the relations and political struggle between Ashkenazi-Zionists and the Mizrahim in Israel from post-war relocation through to the present day. The author examines the Mizrahi political struggle and resistance from early immigration in the 1950s to formative events such as the 1959 Wadi-As-Salib rebellion in Haifa; the 1970s Black Panther movement uprising; the 'Ballot Rebellion' of 1977; the evolution and rise of the SHAS political party as a Mizrahi Collective in the 1980s, and up to the new radical Mizrahi movements of the 1990s and present day. It examines a new Mizrahi discourse which has influenced Israeli culture and academia, and the nature of the political system itself in Israel. This book will be of great interest to those involved in Middle East Studies and Politics, Jewish and Israeli Studies and Race and Ethnic Studies.

*The Arab Jews* Yehouda A. Shenhav, 2006 This book is about the social history of the Arab Jews—Jews living in Arab countries—against the backdrop of Zionist nationalism. By using the term Arab Jews (rather than Mizrahim, which literally means Orientals) the book challenges the binary opposition between Arabs and Jews in Zionist discourse, a dichotomy that renders the linking of Arabs and Jews in this way inconceivable. It also situates the study of the relationships between Mizrahi Jews and Ashkenazi Jews in the context of early colonial encounters between the Arab Jews and the European Zionist emissaries—prior to the establishment of the state of Israel and outside Palestine. It argues that these relationships were reproduced upon the arrival of the Arab Jews to Israel. The book also provides a new prism for understanding the intricate relationships between the Arab Jews and the Palestinian refugees of 1948, a link that is usually obscured or omitted by studies that are informed by Zionist historiography. Finally, the book uses the history of the Arab Jews to transcend the assumptions necessitated by the Zionist perspective, and to open the door for a perspective that sheds new light on the basic assumptions upon which Zionism was founded.

**Republican Gomorrah** Max Blumenthal, 2009-09-01 Over the last year, award-winning journalist and videographer Max Blumenthal has been behind some of the most sensational (and funniest) exposes of Republican machinations. Whether it was his revelation that Sarah Palin was anointed by a Kenyan priest famous for casting out witches, or his confronting Republican congressional leaders and John McCain's family at the GOP convention

about the party's opposition to sex education (and hence, the rise in teen pregnancies like that of Palin's daughter), or his expose of the eccentric multimillionaire theocrat behind California's Prop 8 anti- gay marriage initiative, Blumenthal has become one of the most important and most constantly cited journalists on how fringe movements are becoming the Republican Party mainstream. Republican Gomorrah is a bestiary of dysfunction, scandal and sordidness from the dark heart of the forces that now have a leash on the party. It shows how those forces are the ones that establishment Republicans-like John McCain-have to bow to if they have any hope of running for President. It shows that Sarah Palin was the logical choice of a party in the control of theocrats. But more than just an expose, Republican Gomorrah shows that many of the movement's leading figures have more in common than just the power they command within conservative ranks. Their personal lives have been stained by crisis and scandal: depression, mental illness, extra-marital affairs, struggles with homosexual urges, heavy medication, addiction to pornography, serial domestic abuse, and even murder. Inspired by the work of psychologists Erich Fromm, who asserted that the fear of freedom propels anxiety-ridden people into authoritarian settings, Blumenthal explains in a compelling narrative how a culture of personal crisis has defined the radical right, transforming the nature of the Republican Party for the next generation and setting the stage for the future of American politics.

**Popular Music and National Culture in Israel** Motti Regev,Edwin Seroussi,2004-04-26 A unique Israeli national culture—indeed, the very nature of Israeliness—remains a matter of debate, a struggle to blend vying memories and backgrounds, ideologies and wills. Identifying popular music as an important site in this wider cultural endeavor, this book focuses on the three major popular music cultures that are proving instrumental in attempts to invent Israeliness: the invented folk song repertoire known as Shirei Eretz Israel; the contemporary, global-cosmopolitan Israeli rock; and the ethnic-oriental musica mizrahit. The result is the first ever comprehensive study of popular music in Israel. Motti Regev, a sociologist, and Edwin Seroussi, an

ethnomusicologist, approach their subject from alternative perspectives, producing a truly interdisciplinary, sociocultural account of music as a feature and a force in the shaping of Israeliness. A major ethnographic undertaking, describing and analyzing the particular history, characteristics, and practices of each music culture, *Popular Music and National Culture in Israel* maps not only the complex field of Israeli popular music but also Israeli culture in general.

*Mediterranean Israeli Music and the Politics of the Aesthetic* Amy Horowitz, 2010 The relocation of North African and Middle Eastern Jews to Israel in the 1950s and 1960s brought together communities from Egypt, Iraq, Kurdistan, Yemen, and many other Islamic countries, as well as their unique music styles. In the unstable, improvisatory spaces of transit camps, development towns, and poor neighborhoods, they created a new pan-ethnic Mizrahi identity and a homegrown hybrid music that inspired equal parts high-pitched enthusiasm and resistance along the fault lines of Israel's ethnic divide. In *Mediterranean Israeli Music and the Politics of the Aesthetic*, author Amy Horowitz investigates the emergence of a new pan-ethnic Mizrahi style of music between the 1970s and 1990s, as the community struggled to gain recognition on the overlapping stages of politics and music. This volume is both an ethnographic study based on Horowitz's immersion in the Mizrahi community and a multi-voiced account of community members, who describe their music and musicians who play it. Horowitz focuses primarily on the work of three artists-Avihu Medina, Zohar Argov, and Zehava Ben-zion who pioneered a recognizable Mizrahi style and moved this new musical formation from the Mizrahi neighborhoods to the national arena. She also contextualizes the music within the history of the community by detailing the mass migration of North African and Middle Eastern Jews to Israel, the emergence of these immigrants as a pan-ethnic political coalition in the 1970s, and the opening up of markets for disenfranchised music makers as a result of new recording technologies, including the cassette recorder and four-way duplicating machine. *Mediterranean Israeli Music and the Politics of the Aesthetic* places folklore within the frameworks of nationalism, ethnicity, ethnomusicology, Jewish studies, Israel studies, Middle Eastern Studies, and politics. Anyone interested in these disciplines will appreciate this remarkable volume.

*Jewish Subjects and Their Tribal Chieftains in Kurdistan* Mordechai Zaken, 2007-01-01 This volume deals with the experience and the position of non-tribal Jewish subjects and their relationships with their tribal chieftains (aghas) in urban centers and villages in Kurdistan. It is based on new oral sources, diligently collected and carefully analyzed.
