Digital Human Modeling and Medicine Gunther Paul,Mohamed H. Doweidar,2022-12-04 Digital Human Modeling and Medicine: The Digital Twin explores the body of knowledge and state-of-the-art in Digital Human Modeling (DHM) and its applications in medicine. DHM is the science of representing humans with their physical properties, characteristics and behaviors in computerized, virtual models. These models can be used standalone or integrated with other computerized object design systems to both design or study designs of medical devices or medical device products and their relationship with humans. They serve as fast and cost-efficient computer-based tools for the assessment of human functional systems and human-system interaction. This book provides an industry first introductory and practitioner focused overview of human simulation tools, with detailed chapters describing body functional elements and organs, organ interactions and fields of application. Thus, DHM tools and a specific scientific/practical problem - functional study of the human body - are linked in a coherent framework. Eventually the book shows how DHM interfaces with common physical devices in medical practice, answering to a gap in literature and a common practitioner question. Case studies provide the applied knowledge for practitioners to make informed decisions. A non-specialist level, up-to-date overview and introduction to all medically relevant DHM systems to inform trialing, procurement decisions and initial application Includes user-level examples and case studies of DHM applications in various medical fields Clearly structured and focused compendium that is easy to access, read and understand

LaserWriter II Tamara Shopsin,2021-10-19 A WIRED Pick for the 7 Books You Need to Read This Winter and one of Vox's 11 Titles Not to Miss From the incomparable New York Times and New Yorker illustrator Tamara Shopsin, a debut novel about a NYC printer repair technician who comes of age alongside the Apple computer—featuring original artistic designs by the author. LaserWriter II is a coming-of-age tale set in the legendary 90s indie NYC Mac repair shop TekServe—a voyage back in time to when the internet was new, when New York City was gritty, and when Apple made off-beat computers for weirdos. Our guide is Claire, a 19-year-old who barely speaks to her bohemian co-workers, but knows when it’s time to snap on an antistatic bracelet. Tamara Shopsin brings us a classically New York novel that couldn’t feel more timely. Interweaving the history of digital technology with a tale both touchingly human and delightfully technical, Shopsin brings an idiosyncratic cast of characters to life with a light touch, a sharp eye, and an unmistakable voice. Filled with pixelated philosophy and lots of printers, LaserWriter II is, at its heart, a parable about an apple.

From Uncertain to Blue Keith Carter,2011-10-15 In the beginning, there was no real plan, just a road trip that became a journey. In the years 1986 and 1987, Keith Carter and his wife, Patricia, visited one hundred small Texas towns with intriguing names like Diddy Waw Diddy, Elysian Fields, and Poetry. He says, I tried to make my working method simple and practical: one town, one photograph. I would take several rolls of film but select only one image to represent that dot on my now-tattered map. The titles of the photographs are the actual names of the small towns. . . . Carter created a body of work that evoked the essence of small-town life for many people, including renowned playwright and fellow Texan, Horton Foote. In 1988, Carter published his one town/one picture collection in *From Uncertain to Blue*, a landmark book that won acclaim both nationally and internationally for the artistry, timelessness, and universal appeal of its images—and established Carter as one of America's most promising fine art photographers. Now a quarter century after the book's publication, *From Uncertain to Blue* has been completely re-envisioned and includes a new essay in which Carter describes how the search for photographic subjects in small towns gradually evolved into his first significant work as an artist. He also offers additional insight into his creative process by including some of his original contact sheets. And Patricia Carter gives her own perspective on their journey in her amplified notes about many of the places they visited as they discovered the world of possibilities from *Uncertain to Blue*.

The Unkept Woman Allison Montclair,2022-07-26 Allison Montclair returns with the fourth Sparks & Bainbridge mystery, *The Unkept Woman*: London, 1946, Miss Iris Sparks--currently co-proprietor of the Right Sort Marriage Bureau--has to deal with aspects of her past exploits during the recent war that have come back around to haunt her. The Right Sort Marriage Bureau was founded in 1946 by two disparate individuals - Mrs. Gwendolyn Bainbridge (whose husband was killed in the recent World War) and Miss Iris Sparks who worked as an intelligence agent during the recent conflict, though this is not discussed. While the agency flourishes in the post-war climate, both founders have to deal with some of the fallout that conflict created in their personal lives. Miss Sparks finds herself followed, then approached, by a young woman who has a very personal connection to a former paramour of Sparks. But something is amiss and it seems that Iris's past may well cause something far more deadly than mere disruption in her personal life. Meanwhile, Gwendolyn is struggling to regain full legal control of her life, her finances, and her son - a legal path strewn with traps and pitfalls. Together these indomitable two are determined and capable and not just of making the perfect marriage match.

Capitalism's Achilles Heel Raymond W. Baker,2005-08-05 For over forty years in more than sixty countries, Raymond Baker has witnessed the free-market system operating illicitly and corruptly, with devastating consequences. In *Capitalism's Achilles Heel*, Baker takes readers on a fascinating journey through the global free-market system and reveals how dirty money, poverty, and inequality are inextricably intertwined. Readers will discover how small illicit transactions lead to massive illegalities and how staggering global income disparities are worsened by the illegalities that permeate international capitalism. Drawing on his experiences, Baker shows how Western banks and businesses use secret transactions and ignore laws while handling some \$1 trillion in illicit proceeds each year. He also illustrates how businesspeople, criminals, and kleptocrats perfect the same techniques to shift funds and how these tactics negatively affect individuals, institutions, and countries.

The Source Steve Deming,2011-08-01 This book is an anthology of Cowboy Poetry written by Steve Deming. It is his perspective on life and life's moments of challenge. The cowboy way is direct and to the point. Each poem is a word picture that provides an opportunity to focus on the emotions that life generates. The Source takes a moment of words before each poem to tell the reader what they can expect in the reading. It gives the reader some insight into the origin of each poem, the inspiration, and the unique qualities, rhyme meters and techniques that Steve has used. The sequence of the poems is in chronological order. The recent poems first, leading the reader on a trail back into the poets history. As the writer's life has progressed, so have the stylistic features of the poems, and the rollercoaster of emotions related. Steve Deming is a trail rider, rodeo participant, winner of various buckles and awards. He is also a spiritual maverick, steeped in Christianity, and love of God, but one who meditates and believes in the reincarnation of the soul. Concentrate, if you will, on one poem at a time. Read each a few times until it flows for you. If you read but two or three poems at a sitting, you will know the meaning and take the subtlety, color, and flow of the word picture away with you. In concert, Steve plays music between each poem to give the audience the opportunity to cleanse their listening palate, and prepare for the next. Stick a copy of this book into your saddle bags and find a spot under a shade tree on the side of a hill to commune. Enjoy.
