Imago Octavia E. Butler, 2023-03-28 From the award-winning author of *Parable of the Sower*: After the near-extinction of humanity, a new kind of alien-human hybrid must come to terms with their identity -- before their powers destroy what is left of humankind. Since a nuclear war decimated the human population, the remaining humans began to rebuild their future by interbreeding with an alien race -- the Oankali -- who saved them from near-certain extinction. The Oankalis' greatest skill lies in the species' ability to constantly adapt and evolve, a process that is guided by their third sex, the ooloi, who are able to read and mutate genetic code. Now, for the first time in the humans' relationship with the Oankali, a human mother has given birth to an ooloi child: Jodahs. Throughout his childhood, Jodahs seemed to be a male human-alien hybrid. But when he reaches adolescence, Jodahs develops the ooloi abilities to shapeshift, manipulate DNA, cure and create disease, and more. Frightened and isolated, Jodahs must either come to terms with this new identity, learn to control new powers, and unite what's left of humankind -- or become the biggest threat to their survival.

The Imago Sequence Laird Barron, 2007-07-01 The title story of this collection – a devilishly ironic riff on H. P. Lovecraft’s “Pickman’s model” – was nominated for a World Fantasy Award, while “Probiscus” was nominated for an International Horror Guild award and reprinted in The Year’s Best Fantasy and Horror 19. In addition to his previously published work, this collection contains an original story.

Transformations Selected Works of G.B. Olson on Materials, Microstructure, and Design C.E. Campbell, M.V. Manuel, W. Xiong, 2017-10-01 ASM International and The Minerals, Metals and Materials Society (TMS) have collaborated to present a collection of the selected works of Dr. Greg B. Olson in honor of his 70th birthday in 2017. This collection highlights his influential contributions to the understanding of martensite transformations and the development and application of a systems design approach to materials. Part I: Martensite, with an Introduction by Sir Harry Bhadeshia, emphasizes Dr. Olson's work to develop a dislocation theory for martensite transformations, to improve the understanding of the statistical nature of martensite nucleation, and to expand use of quantitative microscopy to characterize phase transformations. Part II: Materials Design, with an Introduction by Dr. Charles Kuehmann, focuses on the application of a systems design approach to materials and the development of integrated computational design curriculum for undergraduate education. Part II includes several examples of the systems design approach to a variety of applications. The papers chosen for this

collection were selected by the editors with input from Dr. Olson.

Japanese shamanism Daniele Ricci,2014-03-06 The present work examines the controversies inherent to the issues on shamanic practices, by comparing the different outlooks of the scholars and their methodological approaches, then, applying to the case of Japan, it will give a theoretical systematization of trance and possession going through the figures of the ascetic and that of the medium to demonstrate that none of them can be associated to the Eliade's Siberian type of shaman, with the former experiencing a different kind of "state of mind", and the latter lacking the ability to master the spirits.

The Art of Blade Runner: Black Lotus Roland Kelts, 2022-11-29 The Art of Blade Runner: Black Lotus is a study and celebration of the artwork that went into making the first ever Blade Runner animated series. The Art of Blade Runner: Black Lotus is a study and celebration of the artwork that went into making the first ever Blade Runner animated series. Concept art, sketchwork, pre-viz, animation tests, final frames and more, are paired alongside interviews with the masterminds behind the show to give fans the full story

of Black Lotus. Respected co-directors Shinji Aramaki and Kenji Kamiyama provide an exclusive, in-depth interview that explores their relationship with the Blade Runner universe, and their intimate analyses of and inspiration behind the characters. Alcon producers describe the creative journey, that spans many years prior, behind what they envisioned for the story, how Black Lotus would fit in the wider Blade Runner narrative, and who they wanted the protagonist to be. The writers explain how they conceptualised the characters and the voice actors share their personal journeys and light-hearted anecdotes on how they brought those characters to life. The lighting and animation team also share how they captured Blade Runner's cyberpunk visual and auditory palette in a new medium for the franchise: anime. Written by Japanamerica author Roland Kelts, this book is illustrated to the brim with concept art that is beautifully vivid and presented in a gallery format throughout the book; organised chronologically by character, location, and event as they are introduced in the show. Readers will be able to breeze through this companion guide as they watch the show for a deeper, richer, and more personal viewing experience. At the back of the book, you'll find never-before-seen sketches of the Black Out short films that accompanied Blade Runner 2049.

Humanity in God's Image Claudia Welz, 2016-08-18 How can we, in our times, understand the biblical concept that human beings have been created in the image of an invisible God? This is a perennial but increasingly pressing question that lies at the heart of theological anthropology. *Humanity in God's Image: An Interdisciplinary Exploration* clarifies the meaning of this concept, traces different Jewish and Christian interpretations of being created in God's image, and reconsiders the significance of the *imago Dei* in a post-Holocaust context. As normative, counter-factual notions, human dignity and the *imago Dei* challenge us to see more. Claudia Welz offers an interdisciplinary exploration of theological and ethical 'visions' of the invisible. By analysing poetry and art, Welz exemplifies human self-understanding in the interface between the visual and the linguistic. The

content of the imago Dei cannot be defined apart from the image carrier: an embodied creature. Compared to verbal, visual, and mental images, how does this creature as a 'living image' refer to God—like a metaphor, a mimetic mirror, or an elusive trace? Combining hermeneutical and phenomenological perspectives with philosophy of religion and philosophy of language, semiotics, art history, and literary studies, Welz regards the imago Dei as a complex sign that is at once iconic, indexical, and symbolical—pointing beyond itself.

The Liberating Image J. Richard Middleton, 2005-03-01 For two thousand years, Christians have been intrigued by the somewhat enigmatic Imago Dei references in the book of Genesis. Much theological ink has been spilled mulling over the significance and meaning of these words: Let us make humanity in our image, according to our likeness . . . In *The Liberating Image*, J. Richard Middleton takes on anew the challenge of interpreting the Imago Dei. Reflecting on the potential of the Imago Dei texts for developing an ethics of power rooted in compassion, he relates its significance to the Christian community's distinct calling in an increasingly violent world. *The Liberating Image* introduces a relevant, scholarly take on an important Christian doctrine. It will appeal to all Christians seeking to better understand what it means to be made in God's image.
