ONLINE GAMING & ITS IMPACT ON SOCIETY Hitesh Keserwani & Kapil Arora ,2022-05-02 The history of internet in India The history of internet in India started with launch of internet services by VSNL on 15 August 1995, the 48th anniversary of Indian independence. They were able to add about 10,000 internet users within 6 months. However for the next 10 years internet experience in the country remained less attractive with narrow-band connections having speed less than 56 kbit/s (Dial-Up). In 2004, Government formulated its Broadband policy which defined the broadband as an always-on internet connection with download speed of 256 kbit/s or above. From 2005 onward the growth of broadband sector in the country attained acceleration, but remained below the growth estimates of government and related agencies due to the resource issues in last-mile access which depended on wired-line technologies predominantly. This bottleneck was removed in 2010 when government auctioned the 3G spectrum followed by an equally high profile auction of 4G spectrum that set the scene for a competitive and invigorated wireless broadband market. Now internet access in India is provided by both public and private companies using a variety of technologies and media including Dial-Up (PSTN), xDSL, Coaxial Cables, Ethernet, FTTH, ISDN, HSDPA (3G), WiFi, WiMAX etc. at a wide range of speeds and costs. The country has the world's third largest Internet users with over 121 million users (of whom 59% who only access the internet via mobile devices) as of December 2011.

Video Games Around the World Mark J. P. Wolf,2015-05-01 Thirty-nine essays explore the vast diversity of video game history and culture across all the world's continents. Video games have become a global industry, and their history spans dozens of national industries where foreign imports compete with domestic productions, legitimate industry contends with piracy, and national identity faces the global marketplace. This volume describes video game history and culture across every continent, with essays covering areas as disparate and far-flung as Argentina and Thailand, Hungary and Indonesia, Iran and Ireland. Most of the essays are written by natives of the countries they discuss, many of them game designers and founders of game companies, offering distinctively firsthand perspectives. Some of these national histories appear for the first time in English, and some for the first time in any language. Readers will learn, for example, about the rapid growth of mobile games in Africa; how a meat-packing company held the rights to import the Atari VCS 2600 into Mexico; and how the Indonesian MMORPG Nusantara Online reflects that country's cultural history and folklore. Every country or region's unique conditions provide the context that shapes its national industry; for example, the long history of computer science in the United Kingdom and Scandinavia, the problems of piracy in China, the PC Bangs of South Korea, or the Dutch industry's emphasis on serious games. As these essays demonstrate, local innovation and diversification thrive alongside productions and corporations with global aspirations. Africa • Arab World • Argentina • Australia • Austria • Brazil • Canada • China • Colombia • Czech Republic • Finland • France • Germany • Hong Kong • Hungary • India • Indonesia • Iran • Ireland • Italy • Japan • Mexico • The Netherlands • New Zealand • Peru • Poland • Portugal • Russia • Scandinavia • Singapore • South Korea • Spain • Switzerland • Thailand • Turkey • United Kingdom • United States of America • Uruguay • Venezuela

CODE OF CIVIL PROCEDURE, SECOND EDITION DAS, JATINDRA KUMAR,2023-07-06 The book, written with the author's extensive teaching experience at The West Bengal National University of Juridical Sciences, (NUJS) Kolkata and Department of Law, University of Calcutta, attempts to critically analyse Indian High Courts and Supreme Court cases on Code of Civil Procedure. It also evaluates the relationship between statutory procedural law and case law as a subject. The book's presentation of recent Supreme Court and High Court rulings is its primary attraction. Part II demonstrates certain important issues on the (i) scope of jurisdiction of civil courts to entertain disputes, (ii) principles governing res sub judice, res judicata and foreign judgment, (iii) nature of powers exercised by civil courts in matters relating to place of suing, institution of suit, transfer of cases, withdrawal and compromise of suits, (iv) necessary conditions for first hearing, interim order, trial as well as special suits, (v) scope and ambit of law relating to pleadings, appearance and non-appearance of parties, discovery, inspection, production of documents, death, marriage, insolvency of parties, judgment and decrees. Part III explores various issues on appeals, reference, review and revision. In this part an attempt has also been made to discuss different facets of law on first appeals, second appeals, appeals from orders, appeals by indigent persons and appeals to the Supreme Court. Part IV discusses various principles on execution. Part V deals with miscellaneous issues on the Law of Civil Procedure. Part VI includes commercial courts and their procedure as well as the law of limitation. Private International Law Sai Ramani Garimella,Stellina Jolly,2017-01-19 This book shows how, with the increasing interaction between jurisdictions spearheaded by globalization, it is gradually becoming impossible to confine transactions to a single jurisdiction. Presented in the form of a compendium of essays

by eminent academics and practitioners in the field, it provides a detailed overview of private, international law practice in South Asian nations, addressing contemporary discourse within this knowledge domain. Conflict of laws/private international law arises from the universal acknowledgment that it is difficult to govern human transactions solely by the local law. The research presented addresses the three major threads of private international law – jurisdiction, choice of law and enforcement – within each of the South Asian countries in the areas of family law and commercial law. The research in family law domain includes traditional areas such as marriage, divorce and maintenance, as well as some of the contemporary concerns in this region – inter-country child retrieval, surrogacy, and the country statement on accession to the Hague Conventions related to this domain. In commercial law the research explores the concerns raised with regard to choice of law issues in transnational contracts, and also enforcement of foreign judgment/arbitral awards in the nations of this region.

Recognition and Enforcement of Foreign Arbitral Awards George A. Bermann,2017-07-17 This book examines how the Convention on the Recognition and Enforcement of Foreign Arbitral Awards, commonly known as The New York Convention, has been understood and applied in [insert number] jurisdictions, including virtually all that are leading international arbitration centers. It begins with a general report surveying and synthesizing national responses to a large number of critical issues in the Convention’s interpretation and application. It is followed by national reports, all of which are organized in accordance with a common questionnaire raising these critical issues. Following introductory remarks, each report addresses the following aspects of the Convention which include its basic implementation within the national legal system; enforcement by local courts of agreements to arbitrate (including grounds for withholding enforcement), recognition and enforcement of foreign awards by local courts under the Convention (including grounds for denying recognition and enforcement), and essential procedural issues in the courts’ conduct of recognition and enforcement. Each report concludes with an overall assessment of the Convention’s interpretation and application on national territory and recommendations, if any, for reform. The New York Convention was intended to enhance the workings of the international arbitral system, primarily by ensuring that arbitral awards are readily recognizable and enforceable in States other than the State in which they are rendered, subject of course to certain safeguards reflected by the Convention’s limited grounds for denying recognition or enforcement. It secondarily binds signatory states to enforce the arbitration agreements on the basis of which awards under the Convention will be rendered. Despite its exceptionally wide adoption and its broad coverage, the New York Convention depends for its efficacy on the conduct of national actors, and national courts in particular. Depending on the view of international law prevailing in a given State, the Convention may require statutory implementation at the national level. Beyond that, the Convention requires of national courts an apt understanding of the principles and policies that underlie the Convention’s various provisions. Through its in-depth coverage of the understandings of the Convention that prevail across national legal systems, the book gives practitioners and scholars a much-improved appreciation of the New York Convention “on the ground.”
