Twisted Delirium J. E. Dugas,2005-07 When the citizens of the world forget how to live, the government does it for us. They owe us that at least. But one man disagrees. He will rise against them and fight, even into the next life. This is a story of life, both before and after.

Infinite Dreams Joe Haldeman,2014-12-02 Short stories, including a Hugo Award winner, from the author of *The Forever War*. Joe Haldeman burst onto the science fiction scene with *The Forever War*, an unforgettable novel that marked the arrival of an exciting, original new voice. Smart, creative, and acutely socially aware, Haldeman is an author whose work has all of the greatest qualities associated with the genre. *Infinite Dreams* collects Haldeman's short stories from the early days of his career. There's the poignant "26 Days, On Earth," which follows a boy from the moon as he writes a journal about his time on Earth and falls for a local girl. Then there's the humorous "All The Universe in a Mason Jar," chronicling the experience aliens have with a moonshine-drunk farm boy. In the satirical "A Time to Live," a frozen billionaire wakes up in the future, only to get returned to his own time in a different body. Also included is the Hugo Award-winning "Tricentennial," about a trip to gather antimatter from a mysterious binary system. Haldeman's whip-smart tales prove to be as much a treat now as they were when they were written. This ebook features an illustrated biography of Joe Haldeman including rare images from the author's personal collection.

**Tracks to Infinity, The Long Road to Justice** Marc Pruyn, Curry Malott, Luis Huerta-Charles,2020-05-01 Whereas *This Fist Called My Heart*, the first Peter McLaren reader (2016), offers a window into the development and reorientation of McLaren's work over time, *Tracks to Infinity* emphasizes the significance of orientation in his contemporary work. McLaren's earlier work was oriented toward the idea of a contradictory postmodern subjectivity located outside the increasingly fragmented, indeterminate late capitalist society. If the concept of the critical subject or change agent is perceived to be simultaneously located both inside and outside of the world that exists, however mundane, it begins to appear as a utopian or idealist construction. While discourse is indeed important, locating the revolutionary potential exclusively within the abstract realm of language or the sign can lead to a disconnected relationship with the concreteness of everyday struggle. As the fog of the disembodied, postmodern subject began to lift, McLaren reoriented his engagement with and gaze toward the concrete value-creating laborer as

the active agent of revolutionary educations' process of becoming—collectively becoming something other than abstract labor. This volume is filled with deep engagements with the concreteness of lived experience juxtaposed next to the bourgeois propaganda of the capitalist class political establishment as manifested in the Trump era. Praise for Tracks to Infinity... "There is no masking the profound legacy of Peter McLaren for those of us honored to be counted among his many students and friends. To me, his revolutionary teachings amount to a raging bonfire of praxis for the cognitively weary...and while fire's nature burns and is dangerously beyond our control, historically speaking, fire is also the Promethean foundation stone for the humanization of the world. Herein, then, is a truly infernal collection of writing and ideas on education and politics—or perhaps just enough to thaw the numerous minds and hearts that have grown deadly cold from the icy spiritual hell that is our time of masterful warfare, an age when the beloved community is daily being stripped naked, shot and then laid out on a press table like a macabre photograph of the supposedly dead Ché." Richard Kahn Core Faculty in Education, Antioch University, Los Angeles "Peter McLaren is one of the most innovative and resourceful advocates of critical pedagogy originating from Gramsci and Freire. What distinguishes his work is the nuanced dialectical interweaving of national/ethnic struggles and global imperialist hegemony, exposing the limits of transnationalist-cosmopolitanist postmodernism (eliding the reality of finance capitalism) and covertly racialized globalism functioning as a decoy for white supremacy. This volume represents cuttingedge praxis in historical-materialist research and application." E. San Juan, Jr. Fellow of the Harry Ransom Center, University of Texas "Huerta-Charles, Marc Pruyn & Curry S. Malott have given birth to Volume II of THE first ever Reader of Peter McLaren's expansive works. As a leading scholar and activist of our time, this groundbreaking text showcases a range of his punchy insights into multi-culturalism, imperialism, methodology and revolution. The book is unrivalled for anybody wanting to understand education and society, and do something serious about its ills." Alpesh Maisuria Senior Lecturer in Education Studies, University of East London Co-Deputy Editor, Journal for Critical Education Policy Studies Co-Convener , Marxism and Education: Renewing Dialogues (MERD) Seminar Series

**Infinite Vision** Pavithra K. Mehta, Suchitra Shenoy, 2011-11-07 "A must-read for anyone interested in leadership, service, and the building of institutions that release the best energies of the human spirit." –Jacqueline Novogratz, New York Times-bestselling author When a crippling disease shattered his lifelong ambition, Dr. V (Venkataswamy) chose an impossible new dream: to cure the world of blindness. The tiny clinic he founded in India defied conventional business logic and is now the largest provider of eye care on the planet. At Aravind, patients choose whether to pay or not. Millions are treated for free, yet the organization remains stunningly self-reliant. Serving everyone from penniless farmers to the president, it delivers world-class outcomes at less than a hundredth of what similar

services cost in advanced nations. Its model is emulated by organizations everywhere from Rwanda to San Francisco. Infinite Vision uncovers the radical principles behind Aravind's baffling success. Charged with profound insights and stories, it draws readers to the heart of Dr. V's selfless vision, proving how choices that seem quixotic can, when executed with compassion and integrity, yield incredible results—results that can light the eyes of millions. "Reveals the power of a model that combines business discipline with compassion. May the wisdom of Dr. V and Aravind shared here inspire many such initiatives for the wellbeing of future generations." —Muhammad Yunus, Nobel Peace Prize Laureate, Founder, Grameen Bank "Aravind may be a case study for MBA students, and a model social business, but to me this book told a story, with elegance, clarity and intimacy." —Fred de Sam Lazaro, PBS NewsHour "In the world of blindness Dr. V has performed a miracle." —Ram Dass, author of *Be Here Now*

**Superteams** Khoi Tu, 2012-11-01 In *Superteams*, renowned teamwork specialist Khoi Tu explains how to make sure your team delivers consistently superior results and emerges stronger from the inevitable crises you will face. What do the SAS, Ferrari and the Rolling Stones have in common? Their success is about much more than talented individuals. They are Superteams. Every organisation, whether a business or a sports club, lives or dies by the quality of its teamwork. No man can be an island for long; only great teams can face a crisis and emerge stronger. So how do you build the right team? Many people think of it like a rock supergroup: bring the best of the best together and magic will happen. Yet supergroups often flop, while bands of unknowns rise to the top. In this incisive and inspirational book, renowned teamwork specialist Khoi Tu explains how to make sure your team delivers consistently superior results, whatever your aim: averting business failure or resolving political conflict, dealing with a hostage situation or leading your team to sporting victory. *Superteams* takes seven legendary teams - including animation studio Pixar, Europe's 2010 Rider Cup winners, and the people behind the Northern Ireland peace process - and analyses their inner workings, evolution and defining moments. 'This book shows what people can do when the going gets tough and there's a goal to be achieved. Nice one Khoi' Jamie Oliver Khoi Tu is a sought-after leadership and teamwork consultant. He has advised some of the world's most influential individuals and companies, including banks, oil giants, celebrity chefs, Formula One champions and private equity entrepreneurs. A graduate of LSE and INSEAD, he took key roles at Shell and online marketing specialist Razorfish. He founded the Panthea consultancy in 2002 and now runs the boutique advisory company Inverstar. **Knowing Capitalism** Nigel Thrift, 2005-01-26 'This is an ambitious, original, and complex treatment of key aspects of contemporary capitalism. It makes a major contribution because it profoundly destabilizes the scholarship on globalization, the so-called new economy, information technology, distinct contemporary business cultures and practices' - Saskia Sassen, author of *Globalization and its Discontents* 'Nigel Thrift offers us the sort of cultural analysis of global capitalism that has long been needed - one that emphasizes the innovative energy of global capitalism. The book avoids stale denouncements and offers instead a view of capitalism as a form of practice' - Karin Knorr Cetina, Professor of Sociology, University of Konstanz, Germany Capitalism is well known for producing a form of existence where 'everything

solid melts into air'. But what happens when capitalism develops theories about itself? Are we moving into a condition in which capitalism can be said to possess a brain? These questions are pursued in this sparkling and thought-provoking book. Thrift looks at what he calls 'the cultural circuit of capitalism', the mechanism for generating new theories of capitalism. The book traces the rise of this circuit back to the 1960s when a series of institutions locked together to interrogate capitalism, to the present day, when these institutions are moving out to the Pacific basin and beyond. What have these theories produced? How have they been implicated in the speculative bubbles that characterized the late twentieth century? What part have they played in developing our understanding of human relations? Building on an inter-disciplinary approach which embraces the core social sciences, Thrift outlines an exciting new theory for understanding capitalism. His book is of interest to readers in geography, social theory, anthropology and cultural economics.

*Infinite Vision* Pavithra K. Mehta, Suchitra Shenoy, 2011 The Aravind Eye Hospital, based in India, is the world's largest provider of high-quality eye care. It is also one of the world's most incredible and revolutionary organizations - delivering surgical outcomes equal to or exceeding those in the developed world at less than one percent of the cost, treating more than half of its patients free of charge, and taking no grants or donations. Aravind's success is so perplexing it has been the subject of a popular Harvard Business School case study. This is the first book to explore Aravind's history and the distinctive philosophies, practices, and commitments that are the keys to its success. Mehta and Shenoy share incredible stories about how Aravind grew from humble beginnings--founded by a retired ophthalmologist with no money or prior entrepreneurial experience--to the world-class organization it is today. They explain the mysteries of a model that integrates innovation with empathy, service with business principles, and inner change with outer transformation. And they show how

choices that seem foolish and unworkable can, when executed with compassion and integrity, yield powerful results - results that literally light the eyes of millions.--Provided by publisher.

**Movies on a Mission** Glenn Reynolds,2023-09-25 This investigation into the little-known genre of mission-oriented films uncovers how Protestant missionaries overseas sought to bring back motion picture footage from remote parts of the world. In the broader religious community, mission films aimed to educate congregants back home about efforts to evangelize communities around the world. This book, however, demonstrates the larger impact of mission films on American visual culture. The evolution and development of the genre is highlighted from an early emphasis on foreign views in the 1910s, to interwar films providing a more detailed look at how mission stations functioned in far-flung lands, to Cold War productions which at times functioned as veritable propaganda tools parroting anti-communist discourse emanating from the CIA.
